

# Hawaii Green Building Conference in May 2008!

“Green” building techniques include energy efficiency, improved indoor air quality, green material selection, and sensitive site development. When done right, these techniques can provide a higher level of comfort and health, lower utility bills, and more value to new homes, renovations, and whole communities.

The **2008 Hawaii Build & Buy Green Conference & Expo** will present case studies and updates on the latest in greening approaches, including Hawaii BuiltGreen™, LEED (Leadership in Energy and Environmental Design), ENERGY STAR®, Construction and Demolition (C&D) waste management, greening affordable housing and communities, and **EcoBroker for REALTORS®**. Seminar attendees will be eligible to earn AIA CEUs.

**WHO:** For **REALTORS®**, building and design industry professionals, engineers, developers, suppliers, government, and non-profit agencies.

**WHEN:** **Tuesday, May 20, and Wednesday, May 21, 2008**

**WHERE:** **Hawaii Convention Center – Honolulu, Hawaii**

**May 20, 2007 (7:30 a.m. – 4:30 p.m.):** Green Affordable Housing: Projects, Products & Resources (with assistance from the U.S. Department of Housing & Urban Development): Designing, building, and financing green communities; green affordable multi-family housing; new ratings for building green; buying green
