

S1702: Poverty Status in the Past 12 Months of Families
 Data Set: 2006 American Community Survey
 Survey: 2006 American Community Survey
 Geographic Area: Maui County, Hawaii

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Subject	All families				Married-couple families				Female householder, no husband present			
	Total	Margin of Error	Percent below poverty level	Margin of Error	Total	Margin of Error	Percent below poverty level	Margin of Error	Total	Margin of Error	Percent below poverty level	Margin of Error
Families	31,611	+/-1,906	7.1%	+/-2.4	22,817	+/-1,804	3.9%	+/-2.6	5,527	+/-976	20.9%	+/-8.5
With related children under 18 years	15,086	+/-1,492	12.1%	+/-4.5	9,247	+/-1,350	6.7%	+/-5.4	3,904	+/-868	26.9%	+/-11.5
RACE AND HISPANIC OR LATINO ORIGIN												
Families with a householder who is--												
One race	N	N	N	N	N	N	N	N	N	N	N	N
White	N	N	N	N	N	N	N	N	N	N	N	N
Black or African American	N	N	N	N	N	N	N	N	N	N	N	N
American Indian and Alaska Native	N	N	N	N	N	N	N	N	N	N	N	N
Asian	N	N	N	N	N	N	N	N	N	N	N	N
Native Hawaiian and Other Pacific Islander	N	N	N	N	N	N	N	N	N	N	N	N
Some other race	N	N	N	N	N	N	N	N	N	N	N	N
Two or more races	N	N	N	N	N	N	N	N	N	N	N	N
Hispanic or Latino origin (of any race)												
White alone, not Hispanic or Latino	N	N	N	N	N	N	N	N	N	N	N	N
Householder worked	24,540	+/-1,864	6.1%	+/-2.6	17,639	+/-1,777	3.6%	+/-2.9	4,343	+/-927	19.6%	+/-9.5
Householder worked full-time, year-round in the past 12 months	15,462	+/-1,731	4.0%	+/-3.1	11,318	+/-1,558	4.6%	+/-4.2	2,287	+/-768	4.6%	+/-5.5
Householder 65 years and over	5,596	+/-742	5.0%	+/-3.4	4,212	+/-609	3.8%	+/-3.7	925	+/-428	0.0%	+/-16.3
Family received --												
Supplemental Security Income (SSI) and/or cash public assistance income in the past 12 months	2,083	+/-757	24.6%	+/-15.2	646	+/-402	15.9%	+/-25.2	963	+/-493	37.6%	+/-26.2
Social security income in the past 12 months	8,425	+/-1,063	2.1%	+/-1.8	6,391	+/-965	1.6%	+/-2.1	1,395	+/-537	0.0%	+/-11.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
