

S1903: Median Income in the Past 12 Months
 Data Set: 2006 American Community Survey
 Survey: 2006 American Community Survey
 Geographic Area: Maui County, Hawaii

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Subject	Total	Margin of Error	Median income (dollars)	Margin of Error
HOUSEHOLD INCOME BY RACE AND HISPANIC OR LATINO ORIGIN OF HOUSEHOLDER				
Households	47,540	+/-1,829	58,771	+/-3,175
One race--				
White	48.9%	+/-2.3	58,104	+/-6,236
Black or African American	N	N	66,841	+/-21,346
American Indian and Alaska Native	N	N	N	N
Asian	28.5%	+/-2.4	62,141	+/-8,361
Native Hawaiian and Other Pacific Islander	7.3%	+/-1.5	61,776	+/-20,920
Some other race	N	N	71,766	+/-15,090
Two or more races	13.5%	+/-2.4	49,532	+/-7,247
Hispanic or Latino origin (of any race)	6.0%	+/-1.2	51,310	+/-17,825
White alone, not Hispanic or Latino	46.1%	+/-2.2	58,120	+/-6,202
HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
15 to 24 years	2.3%	+/-1.5	58,092	+/-17,260
25 to 44 years	33.3%	+/-2.3	64,693	+/-7,424
45 to 64 years	45.2%	+/-2.4	64,349	+/-7,634
65 years and over	19.2%	+/-1.5	40,206	+/-4,806

Subject	Total	Margin of Error	Median income (dollars)	Margin of Error
FAMILIES				
Families	31,611	+/-1,906	70,069	+/-5,763
With own children under 18 years	40.7%	+/-4.4	56,917	+/-9,581
With no own children under 18 years	59.3%	+/-4.4	78,250	+/-7,132
Married-couple families	72.2%	+/-3.6	80,458	+/-6,911
Female householder, no husband present	17.5%	+/-2.9	34,188	+/-10,160
Male householder, no wife present	10.3%	+/-2.6	50,965	+/-8,400
NONFAMILY HOUSEHOLDS				
Nonfamily households	15,929	+/-1,726	37,064	+/-4,995
Female householder	48.7%	+/-5.6	30,313	+/-9,060
Living alone	38.7%	+/-5.1	22,324	+/-8,992
Not living alone	10.0%	+/-3.6	59,331	+/-13,738
Male householder	51.3%	+/-5.6	46,359	+/-9,854
Living alone	35.1%	+/-6.3	35,236	+/-7,057
Not living alone	16.3%	+/-5.4	62,873	+/-9,102
PERCENT IMPUTED				
Household income in the past 12 months	21.0%	(X)	(X)	(X)
Family income in the past 12 months	21.4%	(X)	(X)	(X)
Nonfamily income in the past 12 months	19.5%	(X)	(X)	(X)

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
