

S1903: Median Income in the Past 12 Months
 Data Set: 2006 American Community Survey
 Survey: 2006 American Community Survey
 Geographic Area: Hawaii

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Subject	Total	Margin of Error	Median income (dollars)	Margin of Error
HOUSEHOLD INCOME BY RACE AND HISPANIC OR LATINO ORIGIN OF HOUSEHOLDER				
Households	432,632	+/-4,384	61,160	+/-1,162
One race--				
White	33.4%	+/-0.8	61,616	+/-2,524
Black or African American	2.5%	+/-0.3	49,486	+/-5,660
American Indian and Alaska Native	N	N	55,711	+/-52,791
Asian	41.5%	+/-0.9	64,849	+/-2,439
Native Hawaiian and Other Pacific Islander	7.0%	+/-0.5	51,591	+/-8,448
Some other race	1.2%	+/-0.2	56,989	+/-16,002
Two or more races	14.1%	+/-0.7	53,461	+/-3,485
Hispanic or Latino origin (of any race)	5.8%	+/-0.4	55,909	+/-6,929
White alone, not Hispanic or Latino	31.8%	+/-0.7	61,500	+/-2,488
HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
15 to 24 years	4.4%	+/-0.5	37,673	+/-3,810
25 to 44 years	33.0%	+/-0.8	62,967	+/-2,807
45 to 64 years	39.5%	+/-0.7	72,154	+/-2,421
65 years and over	23.1%	+/-0.5	47,361	+/-2,245

Subject	Total	Margin of Error	Median income (dollars)	Margin of Error
FAMILIES				
Families	301,102	+/-5,471	70,277	+/-1,454
With own children under 18 years	40.3%	+/-1.2	66,230	+/-1,827
With no own children under 18 years	59.7%	+/-1.2	72,351	+/-2,210
Married-couple families	74.0%	+/-1.1	80,391	+/-1,755
Female householder, no husband present	18.0%	+/-1.0	39,011	+/-2,550
Male householder, no wife present	8.1%	+/-0.7	55,844	+/-6,699
NONFAMILY HOUSEHOLDS				
Nonfamily households	131,530	+/-4,424	36,252	+/-1,936
Female householder	52.9%	+/-2.3	30,377	+/-1,927
Living alone	43.7%	+/-2.1	24,538	+/-2,193
Not living alone	9.2%	+/-1.2	62,669	+/-7,867
Male householder	47.1%	+/-2.3	43,083	+/-3,622
Living alone	36.9%	+/-2.0	38,721	+/-4,075
Not living alone	10.2%	+/-1.6	68,384	+/-3,686
PERCENT IMPUTED				
Household income in the past 12 months	28.5%	(X)	(X)	(X)
Family income in the past 12 months	29.6%	(X)	(X)	(X)
Nonfamily income in the past 12 months	23.3%	(X)	(X)	(X)

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
