**operations**  
**Winter 2008**

**Functional Exercise**  
**March 5, 2008**

**After Action Review**  
**March 7, 2008**

## Participant Involvement

---

• Participate to the level of your choice

Full Participation –

Actively support design, facilitation and play in all areas of the project.

Parallel Participation –

Use the scenario and foundation to develop and deliver events specific to your organization with some linkage to the regional exercise.

Independent—

Utilize the scenario and/or templates to create your own stand alone exercise.

Subject Matter Support –

Provide input on impacts and response specific to your discipline.

Exercise Controller or Evaluator  
(training provided)

Contact your planning team representative for more information about participation.

## Exercise Capabilities

---

### Communications

Systems and interoperability

### Emergency Management Interface

Coordination of information and response

### Public Information Dissemination

Delivery and coordination of messaging

### Impact reporting and analysis

Gathering and utilization of data

### Resource Allocation

Prioritizing and allocating locally and regionally
