

the domestic industry in commercial quantities in a timely manner. It requested that apparel of such fabrics be eligible for preferential treatment under the CBTPA. Based on currently available information, CITA has determined that these subject fabrics can be supplied by the domestic industry in commercial quantities in a timely manner and therefore denies the request.

**SUPPLEMENTARY INFORMATION:**

**Authority:** Section 213(b)(2)(A)(v)(II) of the Caribbean Basin Economic Recovery Act, as added by Section 211(a) of the CBTPA; Section 6 of Executive Order No. 13191 of January 17, 2001.

**Background**

The CBTPA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns and fabrics formed in the United States or a beneficiary country. The CBTPA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On November 13, 2003, the Chairman of CITA received a petition from Alarmex Holdings Group, Inc. that certain printed, 100 percent rayon, herringbone fabric, of 220 g/m<sup>2</sup> fabric weight, of 20's singles spun rayon yarn, of 100 X 64 construction, classified in subheading 5516.14.00 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the CBTPA for apparel articles that are both cut and

sewn in one or more CBTPA beneficiary countries from such fabrics.

On November 19, 2003, CITA solicited public comments regarding this request (68 FR 65256), particularly with respect to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. On December 5, 2003, CITA and the Office of the U.S. Trade Representative offered to hold consultations with the relevant Congressional committees. We also requested the advice of the U.S. International Trade Commission and the relevant Industry Sector Advisory Committees.

Based on the information provided, including review of the request, public comments and advice received, and our knowledge of the industry, CITA has determined that certain printed, 100 percent rayon, herringbone fabrics, classified in subheading 5516.14.00 of the Harmonized Tariff Schedule of the United States (HTSUS), for use in apparel articles, can be supplied by the domestic industry in commercial quantities in a timely manner. Alarmex Holdings Group's petition is denied.
