

Estimated Number of Respondents: 7,970.

Frequency of Response: As required.

Estimated Total Annual Hour Burden: 71,165.

Estimated Total Annual Cost:

\$4,158,759, which includes \$0 annualized capital, \$849,624 O&M costs, and \$3,309,135 for Respondent Labor costs.

Changes in the Estimates: There is a decrease of 114,745 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. There were two avenues for change in the renewal of the ICR: (1) Omission of items the Paperwork Reduction Act does not require, (2) programmatic changes. Programmatic changes include the rate at which the Superfund program is able to address NPL sites and the timeline of the cleanup program as a whole as to the remedial stages of many of the sites. Other changes in burden hours and costs to respondents reflect the fact that the assumptions and resources used to obtain the numbers were not included in the previous renewal of the ICR. Assumptions and resources have been well documented in this Supporting Statement, and O&M costs have been broken out of the previously unseparated "other" costs.

Dated: September 1, 2004.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[OPPT-2003-0065; FRL -7811-6]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Pre-Manufacture Review Reporting and Exemption Requirements for New Chemical Substances and Significant New Use Reporting Requirements for Chemical Substances, EPA ICR No. 0574.12, OMB No. 2070-0012

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an

existing approved collection. This ICR is scheduled to expire on October 31, 2004. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated cost.

DATES: Additional comments may be submitted on or before October 13, 2004.

ADDRESSES: Submit your comments to both (1) EPA, referencing docket ID number OPPT-2003-0065, online at <http://www.epa.gov/edocket> (our preferred method), by e-mail to: oppt.ncic@epa.gov, or by U.S. Mail to: Document Control Office (DCO), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, Mailcode: 7407T, 1200 Pennsylvania Ave., NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503 (reference OMB Control No. 2070-0012).

FOR FURTHER INFORMATION CONTACT: Barbara Cunningham, Acting Director, Environmental Assistance Division, Office of Pollution Prevention and Toxics, Environmental Protection Agency, Mailcode: 7408, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 202-554-1404; e-mail address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On December 15, 2003, EPA sought comments on this renewal ICR (68 FR 69677). EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period.

EPA has established a public docket for this ICR under Docket ID No. OPPT-2003-0065, which is available for public viewing at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Pollution Prevention and Toxics Docket is 202-566-0280. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at [http://](http://www.epa.gov/edocket)

www.epa.gov/edocket. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

ICR Title: Pre-Manufacture Review Reporting and Exemption Requirements for New Chemical Substances and Significant New Use Reporting Requirements for Chemical Substances.

Abstract: Section 5 of the Toxic Substances Control Act (TSCA) requires manufacturers and importers of new chemical substances to submit to EPA notice of intent to manufacture or import a new chemical substance 90 days before manufacture or import begins. EPA reviews the information contained in the notice to evaluate the health and environmental effects of the new chemical substance. On the basis of the review, EPA may take further regulatory action under TSCA, if warranted. If EPA takes no action within 90 days, the submitter is free to manufacture or import the new chemical substance without restriction.

TSCA section 5 also authorizes EPA to issue Significant New Use Rules (SNURs). EPA uses this authority to take follow-up action on new or existing chemicals that may present an unreasonable risk to human health or the environment if used in a manner that may result in different and/or higher exposures of a chemical to

humans or the environment. Once a use is determined to be a significant new use, persons must submit a notice to EPA 90 days before beginning manufacture, processing or importation of a chemical substance for that use. Such a notice allows EPA to receive and review information on such a use and, if necessary, regulate the use before it occurs.

Finally, TSCA section 5 also permits applications for exemption from section 5 review under certain circumstances. An applicant must provide information sufficient for EPA to make a determination that the circumstances in question qualify for an exemption. In granting an exemption, EPA may impose appropriate restrictions.

Responses to the collection of information are mandatory (see 40 CFR parts 700, 720, 721, 723 and 725). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 102.1 hour per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Companies that manufacture, process or import chemical substances.

Frequency of Collection: On occasion.
Estimated No. of Respondents: 443.

Estimated Total Annual Burden on Respondents: 163,791 hours.

Estimated Total Annual Costs: \$34,348,733.

Changes in Burden Estimates: This request reflects a decrease in the total estimated burden of 20,817 hours (from 184,608 hours to 163,791 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease represents an adjustment in the number of annual submissions to reflect EPA's experiences since the most recent ICR. The decrease in the number of submissions per year is largely associated with the polymer and other exemptions implemented under the 1995 amendments.

Dated: September 1, 2004.
