

on the CASAC teleconference on October 30, 2008, please contact Mr. Fred Butterfield, Designated Federal Officer (DFO), at the above listed address; via telephone/voice mail (202) 343-9994 or e-mail at butterfield.fred@epa.gov. General information concerning the CASAC can be found on the EPA Web site at <http://www.epa.gov/casac>.

SUPPLEMENTARY INFORMATION:

Background: The Clean Air Scientific Advisory Committee (CASAC) was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. CASAC provides advice, information and recommendations on the scientific and technical aspects of air quality criteria and national ambient air quality standards (NAAQS) under sections 108 and 109 of the Act. The CASAC is a Federal advisory committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. The Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Section 109(d)(1) of the CAA requires that the Agency periodically review and revise, as appropriate, the air quality criteria and the NAAQS for the six "criteria" air pollutants, including NO_x and SO_x. EPA is in the process of reviewing the secondary NAAQS for NO_x and SO_x. Welfare effects as defined in the CAA includes, but is not limited to, effects on soils, water, wildlife, vegetation, visibility, weather, and climate, as well as effects on materials, economic values, and personal comfort and well-being. As part of that process, EPA's Office of Research and Development (ORD) issued the *Draft Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria (ISA)* in December 2007 and recently issued the second draft ISA in August 2008. EPA's Office of Air and Radiation (OAR) released its *Scope and Methods Plan for Risk/Exposure Assessment (REA)* in March 2008. OAR completed the first draft REA in August 2008. The CASAC reviewed the first draft ISA and provided consultative advice on the *Scope and Methods plan* on April 1-2, 2008. The CASAC's reports to the Administrator can be found on the SAB Web site at <http://www.epa.gov/casac> (see EPA-CASAC-08-011 and EPA-CASAC-08-012 both dated May 19, 2008).

The purpose of the October 1-2, 2008 meeting is for the CASAC Panel to conduct a peer review of the second draft ISA and the first draft REA. The

chartered CASAC will review and approve the Panel's draft reports on the ISA and REA by public conference call on October 30, 2008.

Technical Contacts: Any questions concerning EPA's *Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria (Second External Review Draft)* should be directed to Dr. Tara Greaver, ORD, at (919) 541-2435 or greaver.tara@epa.gov. This 15-member Council was established by the Safe Drinking Water Act (SDWA) to provide practical and independent advice, consultation, and recommendations to the Agency on the activities, functions, policies, and regulations required by the SDWA. The terms of five (5) members expire in December 2008. To maintain the representation required in the statute, nominees for the 2009 Council should represent State and local officials concerned with public water supply and public health protection (1 vacancy), the general public (2 vacancies) and interest groups (2 vacancies), with at least one of these vacancies representing small systems. All nominations will be fully considered, but applicants need to be aware of the specific representation needed as well as geographical balance so that all major areas of the U.S. (East, Mid-West, South, Mountain, South-West, and West) will be represented. The current list of members is available on the EPA Web site at <http://www.epa.gov/safewater/ndwac>.

Five members represent the general public; five members represent appropriate State and local agencies concerned with public water supply and public health protection; and five members represent private organizations or groups demonstrating an active interest in the field of public water supply and public health protection. The SDWA requires that at least two members of the Council represent small, rural public water systems. Pesticide Registration Review; New Dockets Opened for Review and Comment; Closure of the Fenamiphos Registration Review Case

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established registration review dockets for the pesticides listed in the table in Unit III.A. With this document, EPA is opening the public comment period for these registration reviews. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency may consider during the course of registration reviews. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment. This document also announces the Agency's intent not to open a registration review docket for fenamiphos. This pesticide does not currently have any actively registered pesticide products and is not, therefore, scheduled for review under the registration review program.

DATES: Comments must be received on or before December 17, 2008.

ADDRESSES: Submit your comments identified by the docket identification (ID) number for the specific pesticide of interest provided in the table in Unit III.A., by one of the following methods:

If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.
