- 1) Annual wages have been calculated by multiplying the hourly mean wage by a 'year-round, full-time' hours figure of 2,080 hours; for occupations for which an hourly mean wage is not published, the annual wage has been directly calculated from the reported survey data.
- 2) Represents a wage above \$70.00 an hour.
- 3) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.
- 4) Estimates not released.
- 5) Wage data for this occupation were removed because of reporting errors. Data are being corrected and revised wage estimates will be posted as soon as possible.
