FROM THE DIRECTOR
U.S. CENSUS BUREAU

We are conducting the Information and Communication Technology Survey and would like your help by completing the enclosed survey form.

The Information and Communication Technology Survey supplements the Annual Capital Expenditures Survey and is a key source of information about our country's economic performance. These data are very important for calculating the investment component of gross domestic product and estimates of capital stock. Investment data are useful for identifying business opportunities, product development and strategic planning.

Title 13 of the United States Code requires you to answer this survey; and it also requires us to keep your response confidential.

We realize that completing this survey is a burden for you. We hope, however, that you appreciate the importance of your response in providing accurate data about our Nation's economic performance. We have limited the survey sample to the fewest possible number of representative firms, and we accept estimates if book figures are not available.

Please review the instructions, complete the form, and return it within 30 days. The instructions can assist you on how to report for each item. Returning your form promptly helps us keep follow-up costs down. If you have any questions or comments, please call us toll-free at **1-800-528-3049**.

Thank you in advance for your cooperation.

Sincerely,

Charles Louis Kincannon
