

CHART 26

There were 163,440 injuries and illnesses requiring days away from work among Hispanic and Latino workers in 2005. These workers accounted for 13.2 percent of all injuries and illnesses reported and 13.1 percent of employment.

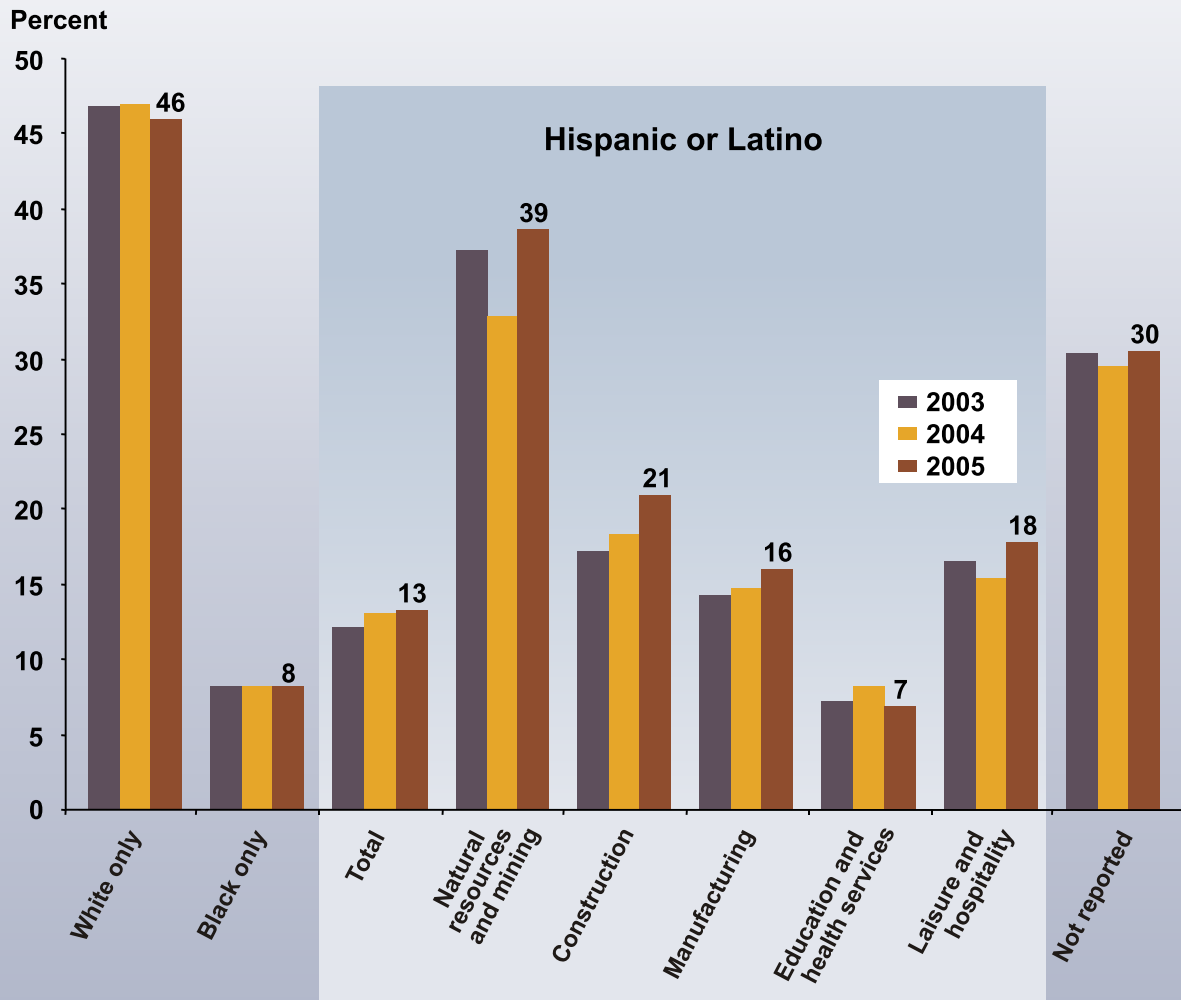

Among Hispanic and Latino workers, the natural resources and mining industry (which includes agriculture) had the highest percentage of injuries.

Hispanic and Latino workers' share of injuries and illnesses grew last year in the following industries: agriculture, forestry, fishing, and hunting; construction; and accommodation and food services.

About 30 percent of cases do not report race and ethnicity data.

Percentage of injuries and illnesses, by race or ethnic origin and selected industries, 2003–05
