Commerce Preliminarily Finds Unfair Dumping of Laminated Woven Sacks from the People's Republic of China

- On January 25, the Department of Commerce (Commerce) announced its affirmative preliminary determination in the antidumping duty investigation of laminated woven sacks from the People's Republic of China (China). Dumping occurs when a foreign company sells a product in the United States at less than fair value.
- Commerce preliminarily determined that Chinese producers/exporters have sold laminated woven sacks in the United States at 63.89 to 108.09 percent less than fair value.
- As a result of this preliminary determination, Commerce will instruct U.S. Customs and Border Protection to collect a cash deposit or bond based on the preliminary margins.
- Additionally, Commerce preliminarily determined that critical circumstances exist for one of the mandatory respondents and the separate rate companies, but do not exist for the other mandatory respondent and the PRC-wide entity. Commerce will make a final determination concerning critical circumstances when it makes its final dumping determination.
- The petitioners for this investigation are the Laminated Woven Sack Committee, an *ad hoc* association, and its individual members: Bancroft Bag, Inc. (LA); Mid-America Packaging, LLC (OH); Coating Excellence International, LLC (WI); Polytex Fibers Corp. (TX); and Hood Packaging Corp. (MS).
- The merchandise covered by this investigation is laminated woven sacks, which are typically used for retail packaging of consumer goods such as pet foods and bird seed.
- Effective July 1, 2007, laminated woven sacks are classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 6305.33.0050 and 6305.33.0080. Laminated woven sacks were previously classifiable under HTSUS subheading 6305.33.0020. While HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of these investigations is dispositive.
- From 2004 to 2006, imports of laminated woven sacks from China increased 80 percent by volume and were valued at an estimated \$40 million in 2006.

NEXT STEPS

- Commerce is scheduled to make its final determination on or about June 16, 2008.

- If Commerce makes a final affirmative determination, and the U.S. International Trade Commission makes a final determination that imports of laminated woven sacks from China materially injure, or threaten material injury to, the domestic industry, Commerce will issue an antidumping duty order.
