

Since June 1993, a deed restriction has been in effect for this Site. The deed restriction, specified in the 1991 ROD, prohibits certain activities within the fill area on the Site. These activities include: no consumptive or other use of the groundwater underlying the property; no use of, or activity at, the property that may interfere with the work performed or to be performed under the UAO at the Site, or any activity which may damage any RA component contracted for or installed pursuant to the UAO or otherwise impair the effectiveness of any work to be performed pursuant to the UAO; no installation, construction, removal or use of any buildings, wells, pipes, roads, ditches or any other landfill cap except as approved by the EPA as consistent with the UAO and SOW; and, no residential use of the property.

During the O&M phase, some modifications have occurred in the vicinity of the FDDS. On July 24, 2001, EPA and WDNR rescinded portions of the existing deed restrictions on the private property adjacent to the Site, thereby allowing commercial development of the property outside the Site boundary fencing, as appropriate. These areas had previously been considered buffer areas around the Site; however, due to the stable Site conditions, the agencies have allowed limited development in these areas. This development is consistent with current Site conditions and has not caused storm water management or unauthorized Site access problems to develop. This area of the City of Franklin is considered to be an active commercial district and future development will likely occur in the vicinity of the FDDS. The Final Close-Out Report, signed August 8, 2003, documented that Menard, Inc. completed all response actions for the FDDS in accordance with OSWER Directive 9320.2-09A-P, *Close Out Procedures for National Priorities List Sites, January 2000*, as overseen by EPA and WDNR. The WDNR will continue to oversee and ensure the performance of O&M activities at the Site by Menard, Inc. using the provisions of its March 28, 2005 Consent Order with Menard, Inc. This oversight will continue for the remaining 22 years of the 30-year O&M phase or until such time as the WDNR determines that the annual groundwater and leachate monitoring requirements may be modified or terminated.

Five-Year Review

The first statutory five-year review for the Site was completed by EPA on September 14, 1998 pursuant to CERCLA section 121 (C) and as

provided in OSWER Directive 93 55.7-02, *Structure and Components of Five-Year Reviews, May 23, 1991*. This review was completed five years from the date (September 1993) on which the first contract was awarded by the responsible parties to implement RA.

The second statutory five-year review was completed by EPA on September 25, 2003, about five years from the date of completion of the first five-year review. This review was prepared according to OSWER Directive No. 9355.7-03B-P (EPA 540-R-01-007), *Comprehensive Five-Year Review Guidance, June 2001*.

Community Involvement

Public participation activities have been satisfied as required in CERCLA section 113(k), 42 U.S.C. 9613(k), and CERCLA section 117, 42 U.S.C. 9617. Documents in the deletion docket that EPA relied on for the recommendation of the deletion from the NPL are available to the public in the information repositories.

V. Deletion Action

The EPA, with concurrence of the State of Wisconsin, has determined that all appropriate responses under CERCLA have been completed, and that no further response actions, under CERCLA, other than O&M and five-year reviews, are necessary. Therefore, EPA is deleting the Site from the NPL.

Because EPA considers this action to be noncontroversial and routine, EPA is taking it without prior publication of a notice of intent to delete. This action will be effective September 6, 2005 unless EPA receives adverse comments by August 5, 2005 on a parallel notice of intent to delete published in the Proposed Rule section of today's **Federal Register**. If adverse comments are received within the 30-day public comment period on the proposal, EPA will publish a timely withdrawal of this direct final notice of deletion before the effective date of the deletion and it will not take effect and, EPA will prepare a response to comments and continue with the deletion process on the basis of the notice of intent to delete and the comments already received. There will be no additional opportunity to comment.

[WC Docket No. 04-141; FCC 04-266]

Local Telephone Competition and Broadband Reporting

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of effective date.

SUMMARY: On May 26, 2005, the Federal Communications Commission received Office of Management and Budget (OMB) approval for the revised information collection, Local Telephone Competition and Broadband Reporting, WC Docket 04-141, OMB Control No. 3060-0816. The Commission previously stated in the Data Collection Order that the revised information collection requirements had not been approved by OMB, and that it would publish a document announcing the effective date, 69 FR 77912, December 29, 2004. By this document, we announce that OMB Control No. 3060-0816 and the amended rules 47 CFR 1.7001(b), 20.15(b)(1), and 43.11(a) implementing it were effective on May 26, 2005.

DATES: The amendments to 47 CFR 1.7001(b), 20.15(b)(1), and 43.11(a), published at 69 FR 77938, December 29, 2004, became effective on May 26, 2005.

FOR FURTHER INFORMATION CONTACT: Ellen Burton, Assistant Chief, James Eisner, Senior Economist, or Darryl Cooper, Attorney-Advisor, Industry

Analysis and Technology Division, Wireline Competition Bureau, at (202) 418-0940.

SUPPLEMENTARY INFORMATION: In its Data Collection Order, the Commission revised the information collection requirements for FCC Form 477 (69 FR 77912, December 29, 2004). The revisions extend and modify the FCC Form 477 local competition and broadband data gathering program, established by the Commission's Data Gathering Order (65 FR 19675, April 12, 2000). In the Data Collection Order, the Commission stated that the revised information collection requirements had not been approved by OMB. It indicated that the amended rules implementing the revised information collection would become effective only upon OMB approval of the revised information collection. It stated that it would publish a document in the **Federal Register** announcing the effective date.

OMB approved the revised information collection on May 26, 2005. Accordingly, through this document, the Commission announces that May 26, 2005, will function as the effective date of both the revised information collection and the amended rules implementing it. This means that the revised information collection and the amended rules will apply to the Form 477 that entities must file on or before September 1, 2005, reporting data as of June 30, 2005.

Pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13, an agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Questions concerning OMB control numbers and expiration dates should be addressed to Paul J. Laurenzano, Wireline Competition Bureau, at (202) 418-1359 or via the Internet at Paul.Laurenzano@fcc.gov. Mandatory Electronic Filing for International Telecommunications Services and Other International Filings

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document is a summary of the Report and Order adopted by the Commission in this proceeding. The Commission adopted rule changes that eliminate paper filings and require applicants to file electronically all applications and other filings related to international telecommunications services. The Report and Order will further the Commission's goals to increase the efficiency of application processing and to expedite the availability of the application information for public use and inspection.

DATES: Effective August 5, 2005 except for 47 CFR 63.19(d), 63.21(a), 63.21(h), 63.21(i), 63.25(b), 63.25(c), 63.25(e), 63.53(a)(1), 63.53(a)(2), 63.701 introductory text and (j), 64.1001(a), 64.1001(f), 64.1002(c) and 64.1002(e) which contain information requirements that have not yet been approved by the Office of Management and Budget (OMB). The Commission will publish a document in the **Federal Register** announcing the effective date of those sections. OMB, the general public, and other Federal agencies are invited to comment on the information collection requirements on or before September 6, 2005.

ADDRESSES: In addition to filing comments with the Office of the Secretary, a copy of any comments on the Paperwork Reduction Act information collection(s) contained herein should be submitted to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554, or via the Internet to Judith-B.Herman@fcc.gov.

Summary

The Commission initiated a Notice of Proposed Rulemaking in this proceeding (69 FR 48118, August 9, 2004). In response to the Notice of Proposed Rulemaking, on April 29, 2005, the Commission adopted a Report and Order adopting the proposals contained in the Notice of Proposed Rulemaking. The new rules will mandate electronic filing of applications and other submissions related to the provision of international telecommunications services. Over the years, the Commission has introduced a number of electronic filing systems that a large and growing number of applicants are using to file their applications. For international services, filers submit applications and other filings via the International Bureau Filing System (IBFS). In the Report and Order, the Commission required all filings related to international telecommunications services to be submitted via the IBFS.

The mandatory filing requirements will be implemented in stages as new forms are developed for IBFS. This phased-in implementation will allow for the development of additional forms consistent with the rules. The Commission adopted a sixty-day transition period to allow applicants and carriers time to adjust to the new filing requirements. The sixty-day transition period will begin on the effective date of the new rules and will apply to those applications for which electronic forms are currently available. Thereafter, the International Bureau will issue public notices announcing the availability of new forms and the effective date of the electronic filing requirement. At the end of the sixty-day transition period, the Commission will no longer accept filings in a manual
