E-Z Split Key™ Cup Procedure Card

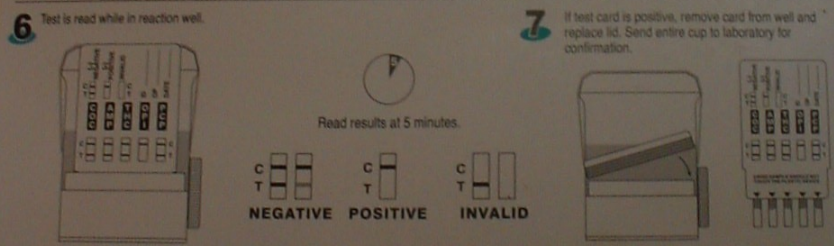

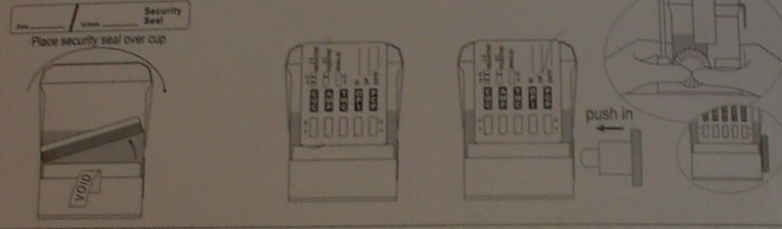

Date _____ Initials _____

Security Seal _____ Security Seal Label

- 3** Check cap for tight seal. Technician dates and initials the security seal and places security seal over cap. Remove security tape and reaction well lid.
- 4** Card is inserted into testing well, facing out for easy interpretation.
- 5** On a flat surface, technician inserts key and pushes in.

Example: test shows positive for Opiates

All positive results are presumptive and should be confirmed by an alternative method (e.g. GC/MS)

No. 1011492 Ver. 01
