Report all value figures in thousands of dollars, total number of hours worked by production, development and exploration workers in thousands of hours, and all electricity quantity figures in thousands of kilowatthours for the mining establishment.

WHO SHOULD REPORT?

- Every concern that performed oil and gas field services for other concerns during any part of 2002 in the United States is required to submit a census report.
- If you have not received forms to cover each of your operations, call or write the Census Bureau, describing the activity at the establishments for which you are requesting forms.
- If this questionnaire does not pertain to your type of activity, complete all appropriate items, such as employment, payroll, shipments, etc., of this report. Describe your activities in the Remarks section.

WHAT IS A MINERAL ESTABLISHMENT?

An oil and gas field service establishment primarily performs drilling, exploration and other oil and gas field support services for operators of oil and gas field properties on a contract or fee basis. It includes all nationwide oil and gas field service activities performed under your current Employer Identification Number (EIN) for the year 2002.

WHAT ACTIVITIES SHOULD BE REPORTED?

INCLUDE

- Oil and gas field services performed for others, such as:
 - exploration for oil and gas
 - drilling oil, gas, dry, and service wells
 - drilling water wells for oil-field use
 - building lease tanks
 - running and pulling casing
 - cementing and shooting wells
 - installing production equipment and offshore platforms
- Other associated activities **when carried on in connection with your oil and gas field services** such as:
 - generating energy for the operation
 - maintenance of equipment
 - receiving, shipping, storage, research, record keeping, health, safety, cafeteria, and other services

EXCLUDE

- Operation of company stores, boardinghouses, bunkhouses, and recreational facilities
- Separate sales branches, research laboratories, and general administrative offices. Report these on the appropriate Census of Business, Census of Manufactures, or central office or auxiliary forms
- Operation of leases for your own account or on contract for others if the value of shipments from these operations amounted to more than \$500,000. File a separate report form MI-21101 covering these oil and gas field operations

WHAT PERIOD SHOULD EACH REPORT COVER?

- Each report should cover the calendar year 2002.
- If book records are not on a calendar-year basis, carefully prepared estimates are acceptable.
- If your fiscal year covers at least 10 months of calendar-year 2002, and reporting on a calendar-year basis involves considerable cost, you may report on a fiscal-year basis. However, all payroll and hours-worked figures should relate to the calendar year rather than the fiscal year. (Use calendar-year payroll records from your tax records.)
- If an establishment began to operate or ceased to operate during 2002, report only the part of the year that the establishment was in operation.
- If the establishment changed ownership during the year, report only for that part of the year that your company operated the establishment. Report in item 29 the appropriate information on changes in **operational status**.
- Specify in the certification, item 30, the exact period that the report covers.

WHAT'S NEW FOR THE 2002 ECONOMIC CENSUS-MINING SECTOR?

- Item 7, Leased Employment and Payroll
- Item 15, line C, Other Expenses Paid by This Establishment

MULTIPLE-ESTABLISHMENT COMPANIES ONLY

When determining transfer values of products and materials from one establishment to another (interplant transfers), include, in addition to direct costs of production, a reasonable proportion of "all other costs (company overhead) and profits." The establishments receiving such transfers should report them as purchased supplies, fuels, or electric energy at the same value plus cost of freight and other direct handling charges.
