Report Electronically

The easiest way to complete your census forms

Save time and money: Instead of paper forms, import your spreadsheets into our Surveyor software and transmit your information to our secure Internet site.

You can use the enclosed Contact Exchange Card to let us know if you plan to report electronically.

3 Simple Steps

When it is time to report—

1 Download our Surveyor software to your PC.

2 Enter requested data form by form or import from your spreadsheets.

3 Submit your data via Internet and receive immediate confirmation of receipt.

***Keep an electronic copy or print completed forms for your records.

***Instructions and user tips are available online.

Redesigned for 2007

- Easier to create and export spreadsheets.
- Easier to add new locations.
- Multiple views of your data to choose from.
- Faster download and submission times.
- "Store number" no longer required for each location (but is still supported by the software).
