## Acknowledgments

The staff of the Governments Division's Recurring Programs Area, headed by **Karl K. Kindel**, is responsible for the preparation of this report. **George Beaven, Russell Price, William Kehm**, and **Donald Muterspaugh** supervised the data collection and editing activities. **Henry Wulf, Donna Hirsch**, and **John Kennedy** reviewed data tabulations and evaluated final publication copy. **Gerard Keffer** and **Thomas Manning** coordinated publication preparation activities.

**Timothy Antisdell** and **James Maier** directed electronic data processing operations, and **Victoria Campbell** and **Robert Junghans** conducted table programming, under the supervision of **Kathleen Chamberlain**, Chief, Information Systems Branch.

The staff of the Administrative and Customer Services Division, **Walter C. Odom**, Chief, performed publication planning, editorial review, design, composition, and printing planning and procurement. **Frances B. Scott** provided publication coordination and editing.

**Carma Hogue** of the Economic Statistical Methods and Programming Division, **Charles P. Pautler, Jr.**, Chief, supplied advice and assistance in statistical methodologies.

The U.S. Bureau of the Census offers special thanks for the cooperation and assistance of the thousands of State and local government officials in providing information for this report.

For information regarding data in this report, contact the Chief, Governments Division, Bureau of the Census, Washington, DC 20233-6800 or phone toll free 1-800-642-2184

# Census of Governments

---

## INTRODUCTION

A census of governments is taken at 5-year intervals as required by law under Title 13, United States Code, Section 161. This 1992 census, similar to those taken since 1957, covers four major subject fields—government organization, taxable property values, public employment, and government finances.

Volume 4, Government Finances, contains six parts that encompass the entire range of State and local government financial activity in fiscal year 1991-92. They are: No. 1, *Public Education Finances*; No. 2, *Finances of Special Districts*; No. 3, *Finances of County Governments*; No. 4, *Finances of Municipal and Township Governments*; No. 5, *Compendium of Government Finances*; and No. 6, *Employee Retirement Systems of State and Local Governments*.

This report, No. 2, provides statistics on the revenue, expenditure, debt, and financial assets of special district governments. It aggregates these data for the Nation, for State areas, and for the largest individual special district governments.

## ORGANIZATION OF THIS REPORT

This introductory text describes the scope of the Census Bureau's special district government finance data collection activities. It also explains the intricacies of the types of data and notes the limitations of the data as well as their relationship to data in other reports.

The tabular section comes next and contains 15 tables. Table 1 displays National totals of special district government finances for 1992 and other census years. Statewide summaries appear in tables 2 and 3, revenue data in tables 4 and 5, and expenditure information in tables 6 through 9. Table 10 presents data on indebtedness and table 11 on cash and security holdings. In table 12, the major financial categories are totaled by type and function of district within each State.

Tables 13 and 14 display data on the special district governments with the greatest amount of financial activity. The former table does this in a summary format for each State area and the latter for each of these large individual governments.

The tabular section concludes with table 15 showing the number of special district governments by function within each State.

## SCOPE

### Definition of Special District Government

Special district governments are independent, special-purpose governmental units (other than school district governments) that exist as separate entities with substantial administrative and fiscal independence from general-purpose local governments. As defined for census purposes, the term "special district government" excludes school district governments.

Special district governments provide specific services that are not being supplied by existing general purpose governments. Most perform a single function, but, in some instances, their enabling legislation allows them to provide several, usually related, types of services. The services provided by these districts range from such basic social needs as hospitals and fire protection to the less conspicuous tasks of mosquito abatement and upkeep of cemeteries. The number of special district governments in each State, by function performed, appears in table 15.

The Census Bureau classification of special district governments covers a wide variety of entities, most of which are officially called districts or authorities. Not all public agencies so termed, however, represent separate governments. Many entities that carry the designation "district" or "authority" are, by law, so closely related to county, municipal, town or township, or State governments that they are classified as subordinate agencies of those governments in census statistics on governments, and are not counted as separate special district governments.

In order to be counted as a special district government, rather than be classified as a subordinate agency, an entity must possess three attributes—existence as an organized entity, governmental character, and substantial autonomy. See Volume 1, No. 1, *Government Organization*, for an explanation of how these criteria are applied, as well as a summary description in each State of legally authorized special district governments. That report also lists in each State various statutory authorities, commissions, corporations, and other forms of organizations that have certain governmental characteristics, but are subject by law to administrative or fiscal control by the State or by independent local governments, and are, therefore, classified as subordinate agencies of such governments.

As a group, special district governments are by far the most rapidly growing type of government, rising to a total of 31,555, an increase of about 2,023, or 6.9 percent, since

the 1987 Census of Governments. This growth over the past 5 years—on top of a 5 percent rise between 1982 and 1987, and an 8 percent rise between 1977 and 1982—reflects the increased public demand for the provision of specialized services either not offered or not performed by existing governments. Since most special districts perform only one function, or a very limited number of functions, their establishment allows a greater degree of concentrated effort in providing services.

The number of special district governments reported in 1992 is more than 2.5 times the number of special district governments reported in 1952.

The increasing number of special districts often reflects financial considerations. As new programs are initiated, or new services required, the establishment of special districts may reduce the need to increase the burden on general purpose governments which may be unable to meet the fiscal requirements necessary to implement these new programs. Debt and tax limitations are further stimulants for creating special districts for raising both capital construction and operation expenditure funds.

The number of special district governments varies considerably among the States, and has only a weak relationship to population size. The following nine States, each having at least 1,000 special district governments, account for more than half of all such local governments:

California	2,797
Colorado	1,252
Illinois	2,920
Kansas	1,482
Missouri	1,386
Nebraska	1,047
Pennsylvania	2,006
Texas	2,266
Washington	1,157

Four State areas contained fewer than 50 special district governments each: Alaska (14), District of Columbia (1), Hawaii (16), and Louisiana (30).

Of the 31,555 special district governments reported in 1992, over 92 percent performed a single function. Close to 20 percent of all special district governments perform functions related to natural resources—drainage and flood control, irrigation, and soil and water conservation. The next most frequent function performed by such units is fire protection followed by housing and community development, and water supply. A variety of functions account for the remaining number of special district governments. Most of the units recognized as multiple-function in nature involve some combination of water supply with other services, most commonly sewerage services. A total of more than 4,777 special district governments (15 percent) provide water supply either as the sole function or as one of a combination of functions.

About one-third of all special district governments serve an area with the same boundaries as those of some other local government—county, municipal, or town or township

government. The number of these special districts with boundaries coterminous with a single municipal, town, or township government comprised more than one-half of all coterminous special districts. Although the vast majority of special district governments are located entirely within a single county or county-type geographic area, about 11 percent have territory extending into two or more county type areas.

## BASIC CONCEPTS

This report uses a number of terms that, in other contexts, might have different meanings. Further, some of the tabular presentations contain concepts that are not commonly used or easily understood. If the following—which is a limited attempt to explain some of these terms and ideas—does not provide sufficient information, please contact Governments Division, U.S. Bureau of the Census.

### Current Dollars

The statistics in this report, as in the others issued by the Bureau of the Census on Federal, State, and local government finances, are in terms of current dollar amounts. They have not been adjusted for price and wage changes occurring through the years.

### Fiscal Years

Data in this report pertain to special district fiscal years that ended between July 1, 1991, and June 30, 1992. About 40 percent of all special district governments in the Nation had a fiscal year corresponding directly with calendar year 1991—i.e., they ended their fiscal year on December 31, 1991—and another one-third end their fiscal years in June. September and April were other common months in which special districts ended their fiscal years.

### Composition of Financial Amounts

Revenues and expenditures comprise actual receipts and payments of a special district government (net of correcting transactions and recoveries or refunds). Transactions excluded as revenues or expenditures are: debt issuance and retirement; loans and investments; agency and private trust transactions; and internal transfers between funds of a special district government. Aggregates for special districts exclude intergovernmental transactions between those special district governments.

### Government Financial Sectors

Special district government financial data are presented within broad activity sectors, including general government, utilities, and employee retirement. General government includes all government revenue and expenditure

except activities defined as utility and employee retirement system transactions. Some commercial-type operations of special district governments, such as port facilities, airports, toll highways, and housing projects are part of the general government sector. Utilities are water supply systems, electric power systems, gas supply systems, and transit facilities owned and operated by governments. Employee retirement activities consist of contributory retirement systems for public employees that are controlled and managed by a special district government.

## Revenue Concepts

As noted above, revenue is reported net of recoveries and correcting transactions, and excludes amounts from debt issuance, internal transfers, and private trust transactions. The following examples illustrate some application of this summary definition:

1. Tax revenue is reported in terms of gross collections minus tax refunds during the same period.
2. Receipts from issuance of debt, recoupment of previous loans, and sale of securities are not counted as revenue.
3. Property tax amounts, widely collected by county governments acting as an agent of other governments, are counted only as revenue of the final recipient units.
4. Special district governments act as agents of the Federal Government in withholding Federal income and Social Security taxes from their employees' pay; such amounts are excluded from special district revenue and expenditure, but are reported as Federal revenue.
5. Figures in this report include the gross transactions of business-type corporations such as airports and utilities.

Taxes consist of compulsory contributions enacted by governments for public purposes. Although in some instances this can be a very significant portion of a special district's revenue, normally other sources provide a considerably higher percentage.

Charges and miscellaneous general revenue comprise all nontax revenue of governments from their own general government sources (excluding amounts received from other governments). Most of this revenue is from charges for current services and sale of products in connection with general government activities such as hospitals, sewerage, fire protection, and air transportation. Such amounts are designated as current charges and are reported on a gross basis, without offset for the cost of producing or buying the commodities or services sold. Utility service charges are excluded here and reported under utility revenue.

Utility revenue comprises amounts from sales of goods and services by such undertakings. Revenue from three of these activities—electric power, water supply, and transit—rank very high among the individual sources of revenue from special district governments.

Insurance trust revenue encompasses only: (1) retirement contributions received from insured individuals and their employers; and (2) earnings on investment assets of retirement system trust funds. For most special district governments, the operation of their own retirement system is the exception rather than the rule. This type of revenue, therefore, is not normally of much significance.

Employer contributions and other transfers made by administering governments to their insurance trust funds are treated as intragovernmental transactions rather than governmental revenue or expenditure. However, to the extent that particular governments make payments as employers to insurance trust systems administered by other governments—for example, employer contributions by State and local governments to the Federal Social Security System (OASDHI) or special district government payments to a county-administered retirement system—such amounts are included, without special treatment, in the “revenue from contributions” of the various systems affected.

## Expenditure Concepts

The expenditure reporting categories comprise all amounts of money paid by a government and its agencies, with the exception of amounts for debt retirement, and for loan investment, agency, and private trust transactions. Included in this category are expenditures of business-type government corporations and agencies. Transactions not considered as expenditures include payments to the Federal Government of monies withheld for income tax or Social Security purposes.

The commonly used character and object (or use) categories this finance series employs are: intergovernmental expenditure, current operation, capital outlay, assistance and subsidies, interest on debt, insurance benefits and repayments, and salaries and wages.

Governmental expenditure for capital outlay is financed commonly by borrowing, especially for local governments, but governmental revenue does not include receipts from borrowing. This, among other things, means that the relationship between totals of revenue and expenditure, as shown in this report, should not be considered a direct measure of budgetary “balance.”

The value of gifts of supplies, materials, or other grants-in-kind are not counted as expenditures. The cost of items to be distributed in kind, however, is included in current operation expenditure as purchases of goods and services.

Insurance benefit and repayment amounts are limited to actual payments to insured persons and beneficiaries. These amounts, therefore, exclude as internal transfers

contributions by governments to insurance trust funds they administer and costs of administering insurance trust programs (which are classified as general expenditure).

Payments for salaries and wages consist of gross amounts paid to government employees before deductions for income tax, retirement contributions, charges for quarters or subsistence, or other purposes. They comprise only cash payments and exclude the value of subsistence, quarters, or other payments-in-kind. Note that the salary and wage amounts were mainly for current operations, but also include payments for construction work performed on a forceaccount rather than contract basis.

Detailed statistics on special district government employment and payrolls as of October 1992 appear in the 1992 Census of Governments, Volume 3, No. 1, *Employment of Major Local Governments*, and No. 2, *Compendium of Public Employment*. The primary difference between the finance and employment information is that the information in this volume is for an annual period while the data in Volume 3 are for 1 month.

In presenting expenditures by function, this report attempts to show a more comprehensive picture by grouping related activities into broader classifications. For example, transportation includes highways, airports, parking facilities, and water transport and terminals. The report does not provide totals for these larger categories because they are meant only as presentational guidelines.

Note that the functions cannot be equated specifically with a single Federal or State Government program. Instead they represent broader activities of government that have remained virtually unchanged over many years so that as specific programs expand and contract they will remain useful for analytical purposes.

These functions, in addition, have utility beyond the limits of this specific report or other Volume 4 publications on government finances. All other phases of the census of governments, including the organization and employment, use these same functions, making cross-analyses feasible.

Each functional expenditure includes amounts for all types of activities relating to that purpose. For example, hospitals include not only medical personnel but also any ancillary services, such as finance, personnel, custodial, or secretarial that directly support that activity.

The major exception to this concept of functionalized expenditures is interest on debt. For all general expenditure functions the categories exclude the interest; it is carried instead under the heading interest on general debt. In the utility functions, as table 9 shows clearly, where possible the utility debt interest is functionalized.

Understanding the specific functional categories requires close attention to the definitions in appendix A. Certain functions that are used in other reports in this series—financial administration and general public buildings, for example—do not have enough activity to warrant separate categories and are, therefore, included in the residual amounts when special districts conduct these activities.

## Indebtedness Concepts

Indebtedness is important for special district governments because many of them have as one of their primary purposes the financing of governmental activity through the issuance of debt. This indebtedness is most often used to finance government capital plant rather than current operations. The concept of long-term debt used in this series includes general obligation bonds, guaranteed by the taxing power of the governments, as well as nonguaranteed indebtedness that pledges only some nontax source related to the bond purpose—rents, charges, or tolls for example—as credit.

## Cash and Security Holdings Concepts

These funds are dominated in special districts by offsets to debt and bond funds, all money that is pledged for specific purposes. It includes only the cash or investment resources of special district governments, excluding any other type of assets such as real property or fixed assets. In certain functional areas, a portion of a special district government's investment portfolio might consist of mortgages held in conjunction with the issuance of mortgage revenue debt. This situation sometimes creates sudden shifts in the offsets to debt.

## Intragovernmental and Intergovernmental Transactions

**Intragovernmental Flows**—Census statistics ignore governmental fund structure to achieve comparability. Since the data for each individual government represent a consolidation of amounts for its various funds, payments between funds have been eliminated. Thus, for example, a government's contribution as employer to a retirement fund it administers is not counted as an expenditure, nor is the receipt of this contribution by the retirement fund considered as a revenue. For census purposes, only the payment out of the fund for retirement benefits is classified as an expenditure—insurance trust expenditure in this example.

**Intergovernmental Flows**—Funds flowing between governments (subject to limited exceptions, mentioned below) are treated distinctively as intergovernmental revenue and intergovernmental expenditure. Mainly these represent grants-in-aid and the sharing of tax proceeds but also include payments in lieu of taxes and amounts for services performed by one government for another on a reimbursable or cost-sharing basis.

Total revenue and total expenditure for an individual government, of course, include any intergovernmental amounts. When measuring groups of governments, however, monies going from one government to another must be netted out to arrive at nonduplicative total. These aggregations treat each government as if it were a "fund" under the intragovernmental flow described above.

The value of intergovernmental aid “in-kind,” such as commodities distributed by the Federal Government, is not treated as intergovernmental revenue or expenditure. Furthermore, the following transactions between governments have not been isolated for special treatment here as intergovernmental in nature:

1. In situations where a government-administered employee-retirement system covers the employees of a second government, contributions by the latter are included, without distinction, as part of the current operation expenditure of the donor government, and as insurance trust revenue of the donee government.
2. No attempt at special treatment has been applied to interest on outstanding debt that is paid to other governments holding the securities involved.
3. No special handling has been attempted for transactions where governments deal as ordinary suppliers and customers—e.g., in purchasing property, utility services, or supplies from one another. Under this method, then, when one government buys water or electricity from a second, the entire transaction is classified as utility revenue or expenditure with no intergovernmental component.

## Utilities

In Census Bureau reporting on government finances, the term utilities pertains only to four types of enterprises operated by governments—water supply, electric power, gas supply, and transit systems. Other studies broaden this concept to include additional enterprise activities (e.g., sewerage) that the Census Bureau definition excludes. By referencing tables other than table 9, this report may yield data on these broader concepts of utilities. For example, refer to tables 5 and 8 for data on sewerage charges and expenditures, respectively, that could be added to the utility totals in table 9. Of the four types of utilities shown in table 9, electric power is the most significant financially, but water supply is the most common.

In reviewing the data in table 9 for utilities, the following technical and analytical points apply:

1. Utility revenue is defined as charges only. Taxes, intergovernmental, and miscellaneous general revenue are all classified under general revenue and, therefore, are excluded here.
2. Imbalances between total revenue and expenditure are common and might result from numerous factors such as the influence of general revenue described above, sporadic capital outlays from debt sources, or expenditures that are a draw down of assets.
3. Minor amounts may represent differences in the interpretation of financial classifications.

## Public Employee Retirement Systems in Special Districts

In this report, most tables include a summary of the financial assets and external transactions of special district

employee-retirement systems. Only a few special districts, located in 12 States, operate their own employee-retirement systems. Most retirement coverage is provided through State-administered systems and through the Federal Social Security System. The extent to which special districts make payments to private trustees or insurance carriers that administer the investments and benefit payments is not known, but these payments are included under current operations rather than insurance benefits.

For more information about the few special district employee-retirement systems, see *Employee Retirement Systems of State and Local Governments* (Volume 4, No. 6, 1992 Census of Governments). That report contains data on retirement system membership, beneficiaries, and benefit payments as well as on system finances. In addition to nationwide, State, and size-class statistics, the report supplies figures for each individual system having assets of \$20 million or more.

## Financial Data for Size Classes of Special Districts

Only tables 3 and 13 summarize the financial data for specific size groups of special district governments. This is, however, a very limited attempt to provide classes of data based on size since it divides the entire universe of special districts into only two parts—those with a very high degree of financial activity and all others. The approximately 5 percent of the special district governments that had revenues or expenditures of \$10 million or more and/or total debt outstanding of \$20 million or more were included in the category of those with major financial activity.

## Single Function and Multifunction Special Districts

Tables 12 and 13 provide tabulations of special district data that focus primarily on special districts as units of government providing a single service or multiple services. Only secondarily do these tables employ the generic financial categories found in tables 1 through 11. Table 12 uses this categorization based on number and type of services provided to display data for all special district governments, and table 13 concentrates on only those with major financial activity.

This primary emphasis produces differences with other data presented in this report. For example, while tables 12 and 13 provide a summation of the taxes collected by single-function utility districts, taxes are a general revenue by definition and are, therefore, excluded from utility revenue. Similarly in expenditures, interest on general debt is a separately tabulated financial item not included in any functional total except in tables 12 and 13. Multifunction districts further complicate comparisons with other data because, by definition, they cannot be allocated to any one functional activity.

By comparing the data in table 12 and 13, the relative financial activity of certain types of districts becomes clearer. Sixteen of the 55 gas supply districts, for example, had major financial activity, but none of the more than 2,400 soil conservation districts had enough finances to be included in table 13.

## Individual Special District Governments

Table 14 presents data for each of the 1,495 large individual special district governments that are summed in table 13. Within each State, the special district governments are arranged alphabetically within county areas. For special district governments that cover more than one county area, the location of the administrative headquarters determines the assignment of the data.

See the discussion in "Sources of Data" for cautions relating to the analysis of individual special district data. The footnotes and symbols in table 14 denote instances in which the data are not for the 1992 fiscal year. An "NA" indicates that the Census Bureau staff estimated data from secondary sources considered less consistent with the definitions and timing used in this phase of the 1992 Census of Governments.

The tabular display does not reflect the full extent of data that are available for each of these governments. Contact the Administrative and Customer Services Division, U.S. Bureau of the Census, for documentation on File A, 1992 Census of Governments (Finance Phase), which contains detailed information on the approximately 85,000 governments covered by the 1992 Census of Governments.

## Relation to Other Census Reports

Finance data shown in this report are taken from the government finance phase of the 1992 Census of Governments for fiscal years ending between July 1, 1991 and June 30, 1992. Counts of governments from the organization and employment phases of the 1992 Census of Governments may differ slightly from those shown here because of reference period differences. The government organization phase reports on number of units identified as active in January 1992. The government employment phase uses October 1992 as the reference month for reporting on employment and payrolls.

## SOURCES OF DATA

### Data Collection

This census assembled information for all of the special district governments which were in existence in fiscal 1991-92. The initial collection phase used two methods to obtain data: mail canvass and centralized collection from State sources. Mail questionnaires went directly to 22,547

special district governments. The balance of the special district data was sought from cooperative Census Bureau-State arrangements in four States.

The mail canvass involved the use of detailed census schedules with related reporting instructions. Census examiners reviewed the mail reports intensively and used extensive correspondence to supplement and verify incomplete and questionable information. In significant cases, where returns of acceptable data could not be obtained by mail canvass or from available published sources, census enumerators visited local government offices to obtain the basic statistics or important missing information.

A central data collection system for special district governments was used to obtain data in four States—California, Florida, Illinois, and New York. As with mail canvass questionnaires, census personnel examined these centrally collected data thoroughly and verified data either with State officials or directly with local respondents. The following describes what each State central source supplied:

*California*—supplied data for 2,681 special districts. They were all special district governments except for 93 in the housing and community development function that received a mail canvass questionnaire.

*Florida*—provided data for all 417 special districts.

*Illinois*—initially agreed to supply data for 2,606 special districts. There were 181 districts that the State could not provide and which were mail canvassed—113 housing districts and 68 districts, most of them with significant financial activity, in miscellaneous functions. In a number of instances, the central data collection material was late or inadequate and a supplementary mail request was sent on an ad hoc basis.

*New York*—supplied data for 971 special districts, all in the health and fire protection functions. The nine remaining New York special districts were canvassed by mail.

## LIMITATIONS OF DATA

Surveys are subject to two types of error, sampling error and nonsampling error. Since the Census of Governments covered all governments in the universe, there is no sampling error to be accounted for. However, the data are subject to nonsampling error, which includes all other sources of survey error such as nonresponse, lost or mishandled questionnaires, incorrect reporting, misclassification of governments, and inaccurate coding of data.

A variety of procedures were applied to keep nonsampling errors to a minimum, including the following:

1. Followup of nonrespondent governments—nonrespondents were mailed second and third requests as necessary; new addresses were obtained for units returned by the U.S. Postal Service as undeliverable; and nonrespondent governments with sufficiently large population were contacted by telephone to obtain data.
2. Review of questionnaires for completeness and accuracy—all questionnaires received were subjected to intensive review of each data item, including clerical and computer checks for internal consistency (agreement of

information from one item to another) and external consistency (agreement of the data with other sources or previously reported data). Respondents were contacted to verify or correct questionable data.

3. Review of tabulated data—final data were compared with data from the previous census to verify the reasonableness of each item; significant differences were verified or reconciled where necessary.

Some error in survey results is inevitable despite steps taken to prevent it. For example, some residual nonresponse is beyond practical control, since not all governments will cooperate in a voluntary survey. The following section discusses the impact of nonresponse on the survey results.

### Nonresponse

Because of an initial lower response to the mail canvass than for general purpose governments, the special district government portion of the 1992 Census of Governments employed secondary sources and followups more extensively. These efforts included using: 1991 fiscal year data if they were available; summary financial data obtained during the organization phase of the 1992 Census of Governments; and secondary data compilations from the Bureau of Reclamation (U.S. Department of the Interior), and U.S. Department of Housing and Urban Development, the U.S. Environmental Protection Agency, the American Hospital Association, Moody's Investors Services, and various State agencies and departments.

Through these extensive efforts, we obtained finance data for 86 percent of the special district governments in the 1992 Census of Governments. The Census Bureau imputed zeroes for the remaining 4050 nonrespondents since there was no reasonable independent criterion upon which to estimate financial activity. Budgetary constraints precluded any attempt to conduct a followup study of the nonrespondents. A number of factors indicate that the financial activity of these respondents is minimal and likely would affect the results of this survey only marginally. These factors include; the result of the organization phase of the 1992 Census of Governments; the results of the employment phase of the 1992 Census of Governments; discussions with State officials; and an additional review of secondary data sources

### Statistical Nature of Data

Finance amounts presented in this publication are statistical in nature and do not represent an accounting statement. Therefore, a difference between an individual government's total revenues and expenditures does not necessarily indicate a "budget" surplus or deficit. Large capital outlay expenditures, debt issuance or retirement, changes in cash and security holdings, or the existence of a retirement system are all factors that might have an important influence on the balance between revenues and expenditures.

## Individual Special District Governments and Geographic Area Data

Data in this report relate only to special district governments and do not include amounts for other local governments in the same geographic location. For example, special district government expenditure figures for highways do not include spending by the separate county or municipal governments that administer that activity in many areas. Variations in the assignment of governmental responsibility—especially important in the areas of public welfare, health, hospitals, and public housing—also have an important effect upon reported amounts of individual government expenditure, revenue, and debt.

Interstate comparisons should also take the allocation of governmental responsibilities into account. Refer to the section on "Individual State Descriptions," in Volume 1, No.1, *Government Organization* (1992 Census of Governments) for a State-by-State explanation of the legal structure of local government. Table 50 in the *Compendium of Government Finances* (Volume 4, No. 5, 1992 Census of Governments) will provide an aggregation of local government finances within the geographic boundaries of individual county areas, a data arrangement that reduces the effect of variable assignments of responsibility for local governments.

### Relation to Historic Data

In general, the statistics presented here closely parallel in concepts, coverage, and classification the data in corresponding reports (volume 4, no. 2) in other quinquennial canvasses. For a detailed comparative analysis, however, take into account changes such as legal shifts in responsibility for certain activities and economic fluctuations. An especially important factor to consider is the recent rapid growth of special districts:

Census year	Number of special districts
1962	18,323
1967	21,264
1972	23,885
1977	25,962
1982	28,078
1987	29,427
1992	31,555

### AVAILABILITY OF DATA

Copies of Volume 4, No. 2, *Finances of Special Districts*, and subsequent volumes of the 1992 Census of Governments are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 and U.S. Department of Commerce District Offices. This report will also be available in electronic form. For details, contact the Chief, Governments Division, Bureau of the Census, Washington, DC 20233-6800, or telephone 1-800-642-4901.

## MEANING OF ABBREVIATIONS AND SYMBOLS

(NA) Not available.

The abbreviations and symbols in the tables have the following meanings:

( X) Not applicable.

- Represents zero or round to zero.

<sup>1</sup>Since intergovernmental expenditure comprises only transactions relating to general government expenditure, "Current operation" for districts engaged in utility-type activities includes some minor amounts paid to other governments.

<sup>2</sup>Not separately identifiable in multiple function special districts and, therefore, included in general interest on debt.

**Table 10. Indebtedness and Debt Transactions of Special District Governments by State: 1991-92**

[Dollar amounts in thousands. For meaning of abbreviations and symbols, see introductory text. Detail may not add to total because of rounding]

---

## Appendix A.

# Definitions of Selected Terms

---

**Agency and Private Trust Transactions**—Excluded from Census data on government finances because it involves receipt, holding, and disbursement of moneys by the government as agent or trustee for other governments or private persons, such as collection of local government taxes, collection of Federal income taxes and social security “taxes,” receipt and return of guarantee deposits, and the like.

**Agriculture**—Development and conservation of natural resources for agricultural purposes. Includes provision and support of agricultural extension services, experiment stations, fairs, associations, and other agricultural activities; promotion, improvement, regulation, and protection of agricultural production, processing, and marketing; and the like. Excludes activities related to *Fish and Game*, *Forestry*, irrigation, flood control, and other conservation activities. See *Natural Resources*.

**Aid to Local Governments**—See *Intergovernmental Expenditure*.

**Air Transportation**—Construction, maintenance, operation, and support of airport facilities.

**Alcohol Beverages**—See under *License Taxes and Sales and Gross Receipts Taxes*.

**Amusements**—See under *License Taxes and Sales and Gross Receipts Taxes*.

**Assistance and Subsidies**—Cash contributions and subsidies to persons and foreign governments, not in payments for goods or services or claims against the government. For local governments, this object category comprises only direct *Cash Assistance* payments to public welfare recipients. For States, it includes also veterans’ bonuses and direct cash grants for tuition, scholarships, and aid to nonpublic education institutions. Major Federal subsidy payments are for veterans’ benefits, agricultural support programs, and foreign aid.

**Auxiliary Enterprises**—State institutions of Higher Education. Dormitories, cafeterias, athletic contests, lunchroom, student activities, and other auxiliary activities of State institutions of higher education financed mainly by revenue from charges.

**Benefits, Insurance Trusts**—See *Insurance Trust Expenditure*.

**Bond Funds**—Funds established to account for the proceeds of bond issues pending their disbursement.

**Borrowing**—Long-term debt incurred, other than to refund existing long-term debt, plus any net increase in short-term debt outstanding.

**Capital Outlay**—Direct expenditure for contract or force account construction of buildings, rounds, and other improvements, and purchase of equipment, land, and existing structures. Includes amounts for additions, replacements, and major alterations to fixed works and structures. However, expenditure for repairs to such works and structures is classified as current operation expenditure. See *Construction and Equipment*.

**Cash and Deposits**—Cash on hand and demand and savings or time deposits.

**Cash and Security Holdings**—*Cash and Deposits* and governmental and private securities (bonds, notes, mortgages, corporate stocks, etc., including loans and other credit paper held by State loan and investment funds) except holdings of agency and private trust funds. Includes fund investments in securities issued by government concerned but does not include interfund loans, receivables, and the value of real property and other fixed assets.

**Cash Assistance**—Direct cash payments to beneficiaries of public welfare programs. See *Public Welfare*.

**Categorical Assistance Programs**—Old Age Assistance, Aid to Families with Dependent Children, Aid to Blind, Aid to Disabled, and Medical Assistance. See *Public Welfare*.

**Charges and Miscellaneous General Revenue**—*General Revenue* other than taxes and *Intergovernmental Revenue*.

**Commercial Activities, n.e.c.**—See *Miscellaneous Commercial Activities*.

**Construction**—Production of fixed works and structures additions, replacements, and major alterations, including planning and design of specific projects, site improvements, and provision of equipment and facilities that are

integral parts of a structure. Includes contract construction, undertaken on a contract basis of private contractors, and force account construction, undertaken with direct use of material and labor by the government.

**Contributions, Insurance Trust**—Amounts derived from contributions, assessments, premiums, “taxes,” etc., required of employers and employees for financing of compulsory or voluntary social insurance programs operated by the government. Any contributions by a government to a social insurance system if administers (either as employer contributions or for general financial support) are excluded from insurance trust revenue. However, such contributions are included in exhibit statistics on insurance trust system receipts.

**Corporation Net Income Taxes**—Taxes on net income of corporations and unincorporated businesses (when taxed separately from individual income). Includes distinctively imposed net income taxes on special kinds of corporations (e.g., financial institutions).

**Correction**—Confinement and correction of adults and minors convicted of offenses against the law, and pardon, probation, and parole activities.

**Correctional Institutions**—State prisons, reformatories, houses of correction, and other State institutions for the confinement and correction of convicted persons and juveniles. Includes only State-operated facilities; excludes cost of maintaining prisoners in institutions of other governments.

**County Governments**—Organized local governments authorized in State constitutions and statutes and established to provide general government; includes those governments designed as counties, parishes in Louisiana, and boroughs in Alaska.

**Current Charges**—Amounts received from the public for performance of specific services benefiting the person charged, and from sales of commodities and services, except liquor store sales. Includes fees, assessments, and other reimbursements for current services, rents and sales derived from commodities or services furnished incident to the performance of particular functions, gross income of commercial activities, and the like. Excludes amounts received from other governments (see *Intergovernmental Revenue*) and interdepartmental charges and transfers. Current charges are distinguished from license taxes, which relate to privileges granted by the government or regulatory measures for the protection of the public.

**Current Expenditure**—All expenditures with the exception of *Capital Outlay*. Includes *Current Operations*, *Assistance* and *Subsidies*, interest on debt, and *Insurance Benefits and Payments*.

**Current Operation**—Direct expenditure for compensation of own officers and employees and for supplies, materials, and contractual services except amounts for capital outlay.

**Death and Gift Taxes**—Taxes imposed on transfer of property at death, in contemplation of death, or as a gift.

**Debt**—All long-term credit obligations of the government and its agencies whether backed by the governments’ full faith and credit or nonguaranteed, and all interest-bearing short-term credit obligations. Includes judgments, mortgages, and revenue bonds, as well as general obligations bonds, notes, and interest-bearing warrants. Excludes noninterest-bearing short-term obligations, interfund obligation, amounts owed in a trust or agency capacity, advances and contingent loans from other governments, and rights of individuals to benefits from government-administered employee retirement funds. *Refunding of Long-Term Debt* is the issuance of long-term obligations in exchange for, or to finance, the retirement of outstanding long term debt, generally to obtain more favorable interest rates.

**Debt Issued**—See *Long-Term Debt Issued*.

**Debt Offsets**—See *Long-Term Debt Offsets*.

**Debt Outstanding**—All debt obligations remaining unpaid on the date specified.

**Debt Redemption**—Long-Term Debt Redeemed (i.e., amounts retired other than by refunding) plus any net decrease in short-term debt outstanding.

**Debt Retired**—See *Long-Term Debt Retired*.

**Direct Expenditure**—Payments to employees, suppliers, contractors, beneficiaries, and other final recipients of government payment—i.e., all expenditure other than *Intergovernmental Expenditure*.

**Document and Stock Transfer Taxes**—Taxes on the recording, registering, and transfer of documents such as mortgages, deeds, and securities, except taxes on recording or transfer of motor vehicle titles, which are classified elsewhere.

**Earnings on Investments, Insurance Trust Revenue**—Interest, dividends, and other earnings on securities held as assets to provide income for insurance trust programs. Includes earnings on securities of State government held by its own insurance trust funds but excludes rental income from real property held by insurance trust funds and rented to other State agencies.

**Education**—Schools, colleges, and other educational institutions (e.g., for blind, deaf, and other handicapped individuals), and educational programs for adults, veterans,

and other special classes. *State Institutions of Higher Education* includes activities of institutions operated by the State, except that agricultural extension services and experiment stations are classified under *Natural Resources and hospitals serving the public are classified under Hospitals*. Revenue and expenditure for dormitories, cafeterias, athletic events, bookstores, and other *Auxiliary Enterprises* financed mainly through charges for services are reported on a gross basis. *Elementary and Secondary Education* comprises payments for instructional, support services, and other activities of local public schools for kindergarten through high school programs. Direct State expenditure for *Other Education* includes State educational administration and services, tuition grants, fellowships, aid to private schools, and special programs.

**Education Services**—Comprises the functions of *Education and Libraries*.

**Electric Power**—Operation and maintenance of electric power system including production or acquisition and distribution of electric power. See under *Utility*.

**Elementary and Secondary Education**—See under *Education*.

**Employee-Retirement Expenditure**—Cash payments to beneficiaries (including withdrawals of contributions) of government-administered employee-retirement systems, local government contributions to State-administered employee-retirement systems, and noncontributory gratuities paid to former employees; these are classed under *General Expenditure*.

**Employee-Retirement Revenue**—Revenue from contributions required of employees for financing government-administered employee-retirement systems, earnings on investments held for such systems, and receipts of State payments for employees covered by government systems. Excludes any contributions by government, either as employer contributions or for general financial support, to an employee-retirement system. Tax proceeds, donations, and any forms of revenue other than those enumerated above as classified as general revenue rather than employee-retirement revenue, even though such amounts may be received specifically for employee-retirement purposes. For States, includes employer contributions from local governments, for such systems covering local government employees.

**Employee-Retirement System**—A government-administered contributory plan for financing retirement and associated benefits for State or local government employees. Does not include noncontributory plans. See *Insurance Trust System*.

**Employment Security Administration**—Administration of unemployment compensation, public employment offices, and related services, and veterans' readjustment allowances. See *Unemployment Compensation Expenditure* for benefit payments under this program.

**Environment and Housing**—Comprises the functions *Natural Resources, Parks and Recreation, Housing and Community Development, Sewerage, and Sanitation Other Than Sewerage*.

**Equipment**—Apparatus, furnishings, motor vehicles, office machines, and the like having an expected life of more than 5 years. Equipment expenditure consists only of amounts for purchase of equipment, including both additional equipment and replacements. Expenditures for facilities that are integral parts of structures are classified as expenditure for construction or for purchase of land and existing structures.

**Expenditure**—All amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Note that expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind.

**Financial Administration**—Activities involving finance and taxation. Includes central agencies for accounting, auditing, and budgeting; the supervision of local government finances; tax administration; collection, custody, and disbursement of funds; administration of employee-retirement systems; debt and investment administration; and the like.

**Fines and Forfeits**—Penalties imposed for violation of amounts on deposit as performance guarantees. Does not include penalties on delinquent taxes.

**Fire Protection**—Fire fighting organization and auxiliary services; fire inspection and investigation; support of volunteer fire forces; and other fire prevention activities. Includes cost of fire fighting facilities, such as fire hydrants and water, furnished by other agencies of the government.

**Fiscal Year**—The 12-month period at the end of which the government or any government agency determines its financial condition and the results of its operations and closes its books.

**Fish and Game**—Conservation and development of fish and game resources through regulation, protection, and propagation.

**Forestry**—Conservation, development, and promotion of forests and forest products. Includes forest fire prevention and forest fire-fighting activities.

**Full-Faith and Credit Debt**—Long-term debt for which the credit of the government concerned, implying the power of taxation, is unconditionally pledged. Includes debt payable initially from specific taxes on nontax sources, but representing a liability payable from any other available resources if the pledged sources are insufficient.

**Functions**—Public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

**Fund**—An accounting device established to control receipt and disbursement of income from sources set aside to support specific activities or attain certain objectives. In the accounts of individual governments, each fund is treated as a distinct fiscal entity. Here, however, transactions of funds are consolidated in accordance with the principles described in the introduction to this report.

**Funding**—Issuance of bonds or other long-term debt in exchange for, or to provide funds to retire, outstanding short-term debt.

**Gas Supply**—Operation and maintenance of gas supply systems including acquisition and distribution of natural gas. See under *Utility*.

**General Debt**—All debt other than that identified as having been issued specifically for utility purposes. See *Utility Debt*.

**General Expenditure**—All government expenditure other than the specifically enumerated kinds of expenditure classified as *Utility Expenditure*, *Liquor Stores Expenditure*, and *Employee-Retirement or other Insurance Trust Expenditure*.

**General hospitals**—See *Hospitals*.

**General Local Government Support**—Amounts distributed to local governments without restriction of function or purpose to which applicable.

**General Obligation Debt**—Long-term full faith and credit obligations other than those payable initially from nontax revenue. Includes debt payable in the first instance from particular earmarked taxes, such as motor fuel sales taxes or property taxes. See also Full-faith and Credit Debt.

**General Public Buildings (State-local)**—Provision and maintenance of public buildings not allocated to particular functions. This category is not applied in reporting Federal data.

**General Revenue**—All government revenue except *Liquor Stores Revenue*, *Insurance Trust Revenue*, and *Utility Revenue*. The basis for distinction is not the fund or administrative unit receiving particular amounts, but rather the nature of the revenue sources concerned.

**General Sale or Gross Receipts Taxes**—See under *Sales and Gross Receipt Taxes*.

**Governmental Administration**—Comprises the functions of *Financial Administration*, *Judicial and Legal*, and *General Public Buildings*; and activities of the governing body, office of the chief executive, and central staff services and agencies concerned with personnel administration, recording, planning, zoning, and the like.

**Health**—Outpatient health services, other than hospital care, including: public health administration; research and education; categorical health programs; treatment and immunization clinics; nursing; environmental health activities such as air and water pollution control; ambulance service if provided separately from fire protection services, and other general public health activities such as mosquito abatement. School health services provided by health agencies (rather than school agencies) and included here. Sewage treatment operation are classified under *Sewerage*.

**Highways**—Construction, maintenance, and operation of highways, streets, and related structures, including toll highways, bridges, tunnels, ferries, street lighting and snow and ice removal. However, highway policing and traffic control are classed under *Police Protection*.

**Hospitals**—Financing, construction acquisition, maintenance or operation of hospital facilities, provision of hospital care, and support of public or private hospitals. However, see *Public Welfare* concerning vendor payments under welfare programs.

**Housing and Community Development**—Construction and operation of housing and redevelopment projects, and other activities to promote or aid housing and community development.

**Individual Income Taxes**—Taxes on individuals measured by net income and taxes distinctively imposed on special types of income (e.g., interest, dividends, income from intangibles, etc.).

**Insurance Benefits and Repayments**—Social insurance payments to beneficiaries, employee-retirement annuities and other benefits, and withdrawals of insurance or employee-retirement contributions. Includes only amounts paid to beneficiaries; administrative expenditure for such activities are classified as Current Operation.

**Insurance Sales and Gross Receipts Taxes**—See under *Sales and Gross Receipts Taxes*.

**Insurance Trust Expenditure**—Cash payments to beneficiaries (including withdrawals of retirement contributions) of employee retirement, unemployment compensation, workers' compensation, and disability benefit social insurance programs. (See *Insurance Trust System*, below). Excludes cost of administering insurance trust activities. State contributions of programs administered by the State or by the

Federal Government, intergovernmental expenditure or support of locally administered employee retirement systems, and noncontributory gratuities paid to former employees.

**Insurance Trust Revenue**—Revenue from contributions required of employers and employees for financing social insurance programs operated by the government (see *Insurance Trust System*, below) and earnings on assets held for such systems. Excludes any contributions by a government—either as employer contributions or for general financial support—to a social insurance system if administers. Note that tax proceeds, donations, and any forms of revenue other than those enumerated above are classified as general revenue, even though such amounts may be received specifically for insurance trust purposes.

**Insurance Trust System**—A government-administered plan for compulsory or voluntary social insurance (insurance protection of persons or their survivors against economic hazards arising from retirement, disability, death, accident, illness, unemployment, etc.) through accumulation of assets from contributions, assessments, premiums, and the like collected from employers and employees for use in making cash benefit payments to eligible persons covered by the system. Comprises *Employee Retirement Unemployment Compensation*, *Workers' Compensation*, and Miscellaneous (accident, sickness, and other disability benefit) systems. In exhibit statistics, each insurance trust system is treated as an entity, with its transactions including intragovernmental amounts. However, intragovernmental transactions are excluded from the insurance trust components of revenue and expenditure. (See *Insurance Trust Revenue* and *Insurance Trust Expenditures*.)

**Interest Earnings**—Interest earned on deposits and securities, including amounts for accrued interest on investment securities sold. However, receipts for accrued interest on bonds issued are classified as offsets to interest expenditure. Note that interest earnings shown under general revenue do not include earnings on assets of employee-retirement systems.

**Interest Expenditure**—Amounts paid for the use of borrowed money. Interest on utility debt is included in *Utility Expenditure*.

**Intergovernmental Expenditure**—Amounts paid to other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for performance of general government activities and for specific services for the paying government, or in lieu of taxes. Excludes amounts paid to other governments for purchase of commodities, property, or utility services, any tax imposed and paid as such, and employer contributions for social insurance—e.g., contributions to the Federal Government for Old Age, Survivors', Disability, and Health Insurance for government employees.

**Intergovernmental Revenue**—Amounts received from other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for performance of general government functions and specific services for the paying government (e.g., care of prisoners or contractual research), or in lieu of taxes. Excludes amounts received from other governments for sale of property, commodities, and utility services. All intergovernmental revenue is classified as General Revenue.

**Intergovernmental Revenue for General Local Government Support**—Fiscal aid that allows the receiving government unrestricted use as to function or purpose.

**Intergovernmental Revenue From Federal Government**—Intergovernmental revenue received by a government directly from the Federal Government. For local governments, excludes Federal aid channeled through State governments, which is considered as Intergovernmental Revenue from State Government.

**Intergovernmental Revenue From Local Governments**—Amounts from local governments: for shares in financial support of programs administered by the State; for reimbursements of services performed or expenditures made for them by the State; for application to debt services on State debt issued for their benefit; and for repayment of advances and contingent loans extended to them. Does not include local government contributions to State-administered employee retirement or other insurance trust systems, which are classified as insurance trust revenue, or agency transactions (see *Agency and Private Trust Transactions*). Excludes proceeds from interest on local government securities held by the State and proceeds from State taxes on local government facilities.

**Intergovernmental Revenue From State Government**—All intergovernmental revenue received from the State government. For local governments, includes amounts originally from the Federal Government but channeled through the State.

**Judicial and Legal**—Courts and activities associated with courts including law libraries, prosecutorial and defendant programs, probate functions, and juries.

**Libraries**—Establishment and operation of public libraries and support of privately operated libraries (excludes those operated as part of a school system, primarily for the benefit of students and teachers, and law libraries). Provision and support of public library facilities and services.

**License Taxes**—Taxes exacted (either for revenue raising or for regulation) as a condition to the exercise of a business or nonbusiness privilege, at a flat rate or measured by such bases as capital stock, capital surplus, number of business units, or capacity. Excludes taxes measured directly by transactions, gross or net income, or

value of property except those to which only nominal rates apply. "License" based on these latter measures, other than those at nominal rates, are classified according to the measure concerned. Includes "fees" related to licensing activities—automobile inspection, gasoline and oil inspection, professional examinations and licenses, etc.—as well as license taxes producing substantial revenue.

1. **Alcoholic beverages.** Licenses for manufacturing, importing, wholesaling, and retailing alcoholic beverages other than those based on volume or value of transactions or assessed value of property.
2. **Amusements.** License taxes imposed on amusement businesses generally or on specific amusement enterprises (race tracks, theaters, athletic events, etc.). Does not include "licenses" based on value or number of admissions, amount of wagers, or gross or net income, which are classified elsewhere.
3. **Corporations in general.** Franchise license taxes, organization, filing, and entrance fees, and other license taxes which are applicable, with only specific exceptions, to all corporations. Does not include corporation taxes based on value of property, net income, or gross receipts from sales, or taxes imposed distinctively on particular types of corporations (public utilities, insurance companies, etc.).
4. **Hunting and fishing.** Commercial and noncommercial hunting and fishing licenses and shipping permits.
5. **Motor vehicles.** License taxes imposed on owners or operators of motor vehicle, commercial and noncommercial, for the right to use public highways, including charges for title registration and inspection of vehicles. Does not include personal property taxes or sales and gross receipts taxes relating to motor carriers based on assessed value of property, gross receipts, or net income, or other taxes on the business of motor transport.
6. **Motor vehicle operators.** Licenses for privilege of driving motor vehicles, including both private and commercial licenses.
7. **Occupations and businesses, n.e.c.** License taxes (including examination and inspection fees) required of persons engaging in particular professions, trades, or occupations, and such taxes on businesses not elsewhere classified. Includes charges relating to inspection and marketing of seed, feed, fertilizer, gasoline, oil, citrus fruit, and other commodities, and chain store licenses, as well as licenses relating to operation of particular business enterprises.
8. **Public utilities.** License taxes distinctively imposed on public passenger and freight transportation companies, telephone, telegraph, and light and power companies, and other public utility companies including government-owned utilities. Does not include taxes measured by gross or net income, units of service sold, or value of property.

9. **Other license taxes.** License taxes not listed separately (e.g., animal licenses, marriage licenses, registration fees on pleasure boats and aircraft, individual permits to purchase liquor, and other nonbusiness privileges)

**Liquor Stores**—Alcoholic beverage distribution facilities operated by State and local governments maintaining alcoholic beverage monopoly systems. *Liquor Stores Revenue* and *Liquor Stores Expenditure*, as defined under the headings below, are included in revenue and expenditure.

**Liquor Stores Expenditure**—Expenditure for purchase of liquor for resale and provision and operation of government-maintained alcoholic beverage monopoly systems. Excludes expenditure for law enforcement and licensing activities carried out in conjunction with liquor store operations.

**Liquor Stores Revenue**—Amounts received from sale of liquor by State and/or local liquor store operations. Excludes any State taxes collected by State liquor monopoly systems

**Long-Term Debt**—Debt payable more than 1 year after date of issue.

**Long-Term Debt Issued**—The par value of long-term debt obligations incurred during the fiscal period concerned, including funding and refunding obligations. Debt obligation authorized but not actually incurred during the fiscal period are not included. Refunding issues of long-term debt represents the par value of refunding bonds issued during the fiscal year.

**Long-Term Debt Offsets**—Cash and investment assets of sinking funds and other reserve funds, however designated, which are specifically held for redemption of long-term debt, including bond reserve funds, deposits with fiscal agents for the redemption of uncanceled debt, and balances in refunding bond accounts held pending completion of refunding transactions.

**Long-Term Debt Refunded**—See under *Long-Term Debt Retired*.

**Long-Term Debt Retired**—The par value of long-term debt obligations liquidated by repayment or exchange, including debt retired by refunding operations. *Long-Term Debt Refunded* is the par value of long-term debt retired during the year as a result of refund transactions.

**Miscellaneous and Unallocable Expenditure**—*General Expenditure* for purposes and activities not falling within any standard functional category and unallocated amounts relating to two or more functions.

**Miscellaneous Commercial Activities**—Provision and operation of commercial facilities not classified under particular functions. Includes a bank (North Dakota), and cement plant, hail insurance systems, and the like.

**Motor Fuel Sales Taxes**—See under *Sales and Gross Receipts Taxes*.

**Motor Vehicle Licenses Taxes**—See under *License Taxes*.

**Municipal Governments**—Organized local governments authorized in State constitutions and statutes and established to provide government for a specific concentration of population in a defined area; includes those governments designated as cities, villages, boroughs (except in Alaska), and towns (except in the six New England States, Minnesota, New York, and Wisconsin).

**Natural Resources**—Conservation, promotion, and development of natural resources, such as soil, water, forests, minerals, and wildlife. Includes irrigation, drainage, flood control, forestry and fire protection, soil reclamation, soil and water conservation, fish and game programs, and agricultural fairs. For the Federal Government, includes agricultural experiment stations and extension services, farm price stabilization programs, farm insurance and credit activities, and multipurpose power and reclamation projects.

**N.E.C.**—Not elsewhere classified.

**Net Long-Term Debt**—Long-term debt outstanding minus long-term debt offsets.

**Nonguaranteed Debt**—Long-term debt payable solely from pledged specific sources—e.g., for earnings of revenue-producing activities (utilities, sewage disposal plants, toll bridges, etc.) from special assessments, or from specific nonproperty taxes. Includes only debt that does not constitute an obligation against any other resource of the government if the pledged sources are insufficient.

**Occupations and Business license Taxes**—See under *License Taxes*.

**Old-Age Assistance**—See *Public Welfare*.

**Parking Facilities**—Construction, purchase, maintenance, and operation of public-use parking lots, garages, parking meters, and other distinctive parking facilities on a commercial basis.

**Parks and Recreation**—Provision and support of recreational and cultural-scientific facilities and activities including golf courses, playfields, playgrounds, public beaches, swimming pools, tennis courts, parks, auditoriums, stadiums, auto camps, recreation piers, marinas, botanical gardens, galleries, museums, and zoos. Also includes building and operation of convention centers and exhibition halls.

**Police Protection**—Preservation of law and order and traffic safety. Includes police patrols and communications, crime prevention activities, detention and custody of persons awaiting trial, traffic safety, and vehicular inspection.

**Postal Service**—Activities of the Federal postal service are reported on a gross basis, without deduction for receipts from charges. Excludes subsidies to airlines, classed under *Air Transportation*.

**Property Taxes**—Taxes conditioned on ownership of property and measured by its value. Includes general property taxes related to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates, and taxes on selected types of property, such as motor vehicles, or on certain or all intangibles.

**Property Tax Relief**—Amounts received distinctly as reimbursement for State-mandated tax relief programs which have resulted in foregone tax revenue. Includes payments under property tax relief, renters relief, and similar programs.

**Protective Inspection and Regulation**—Regulation of private enterprise for the protection of the public and inspection of hazardous activities except for major functions, such as fire prevention, health, natural resources, etc. Distinctive licensing collection activities are classed under *Financial Administration*.

**Public Safety**—Comprises the functions of *Police Protection, Fire Protection, Correction, and Protective Inspection and Regulation*.

**Public Utility Taxes**—See under *License Taxes and Sales and Gross Receipts Taxes*

**Public Welfare**—Support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include: *Cash Assistance paid directly to needy persons under the categorical programs (Old Age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Disabled) and under any other welfare programs; Vendor Payments* made directly to private purveyors for medical care, burials, and other commodities and services provided under welfare programs; and provision and operation by the government of *Welfare Institutions*. Other *Public Welfare* includes payments to other governments for welfare purposes, amounts for administration, support of private welfare agencies, and other public welfare services. *Health and Hospital services* provided directly by the government through its own hospitals and health agencies, and any payments to other governments for such purposes are classed under those functional headings rather than here.

**Purchase of Land and Existing Structures**—Purchase of these assets as such, purchase of rights-of-way, and title search and similar activity associated with the purchase transactions.

**Refunding**—The issuance of long-term debt in exchange for, or to provide funds for, the retirement of long-term debt outstanding.

**Regular Highway Facilities**—State expenditure for *Highways*, other than toll facilities, is classified under this heading.

**Rents and Royalties**—Rents from leased properties, mineral leases, royalties, and miscellaneous rentals not relating to facilities incident to the performance of particular functions. Rental revenue from such facilities is classified as revenue from current charges for the activity of the function concerned.

**Revenue**—All amounts of money received by a government from external sources—net of refunds and other correcting transactions—other than from issuance of debt, liquidation of investments, and as agency and private trust transactions. Note that revenue excludes noncash transactions such as receipt of services, commodities, or other “receipts in kind.”

**Salaries and Wages**—Amount expended for compensation of employees. Consists of gross amounts without deduction of withholdings for income tax, social security, or retirement coverage. Includes amounts for labor in force account construction projects.

**Sale of Property**—Sale of real property and improvements. Excludes sale of securities and sale of commodities, equipment, and other personal property.

**Sales and Gross Receipts Taxes**—Taxes, including: “licenses” at more than nominal rates, based on volume or value of transfers of goods or services; upon gross receipts, or upon gross income; and related taxes based upon use, storage, production (other than severance of natural resources), importation, or consumption of goods. Dealer discounts of “commissions” allowed to merchants for collection of taxes from consumers are excluded. Comprises 10 different categories:

1. **General Sales or Gross Receipts Taxes.** Sales or gross receipts taxes which are applicable with only specified exceptions to all types of goods and services, or all gross income, whether at a single rate or at classified rates. Taxes imposed distinctively upon sales or gross receipts from selected commodities, services, or business are reported separately under categories 3 through 10 below.
2. **Selective Sales and Gross Receipts Taxes.** Sales and gross receipts taxes imposed on sales of particular commodities or services or gross receipts of particular businesses, separately and apart from the application of general sales and gross receipts taxes. Specific taxes included are shown in categories 3 through 10 below.
3. **Alcoholic Beverages.** Selective sales and gross receipts taxes on alcoholic beverages.

4. **Amusements.** Selective sales and gross receipts taxes on admission tickets or admission charges and on gross receipts of all or specified types of amusement businesses.

5. **Insurance.** Taxes imposed distinctively on insurance companies and measured by gross premiums or adjusted gross premiums.

6. **Motor Fuels.** Selective sales and gross receipts taxes on gasoline, diesel oil, and other fuels used in motor vehicles, including aircraft fuel. Note that any amounts refunded are deducted from gross collections.

7. **Parimutuels.** Taxes measured by amounts wagered at race tracts, including “breakage” collected by the government.

8. **Public Utilities.** Taxes imposed distinctively on public passenger and freight transportation companies, telephone, telegraph, and light and power companies, and other public utility companies measured by gross receipts, gross earnings, or units of service sold. Taxes levied on such companies on other bases are classified elsewhere in accordance with the nature of the tax.

9. **Tobacco Products.** Selective sales and gross receipts taxes on tobacco products, including cigarette tubes and papers.

10. **Other Selective Sales and Gross Receipts Taxes.** Selective sales and gross receipts taxes relating to specific commodities, businesses, or services not separately enumerated (lubrication oil, fuel other than motor fuel, meals, margarine, cement, etc.).

**Sanitation**—Comprises *Sewerage* and *Sanitation Other than Sewerage* (see below). Sanitary engineering, smoke regulation, and other health activities are classified under *Health*.

**Sanitation Other than Sewerage**—Street cleaning, solid waste collection and disposal, and provision of sanitary landfills.

**School District Governments**—Organized local entities providing public elementary, secondary, and for higher education which, under State law, have sufficient administration and fiscal autonomy to qualify as separate governments. Excludes dependent public school systems of county, municipal, township, or State governments.

**Securities**—Stocks and bonds, notes, mortgages, and other formal evidences of indebtedness.

**Selective Sales and Gross Receipts Taxes**—See under Sales and Gross Receipts Taxes.

**Severance Taxes**—Taxes imposed distinctively on removal of natural products (e.g., oil, gas, other minerals, timber, fish, etc.) from land or water and measured by value or quantity of products removed or sold.

**Sewerage**—Provision of sanitary and storm sewers and sewage disposal facilities and services, and payments to other governments for such purposes.

**Short-Term Debt**—Interest-bearing debt payable within 1 year from date of issue, such as bond anticipation notes, bank loans, and tax anticipation notes and warrants. Includes obligations having no fixed maturity date if payable from a tax levied for collection in the year of their issuance.

**Sinking Funds**—Funds established specifically for the redemption of *Long-Term Debt* principal.

**Social Insurance Administration**—For State and local governments consists of Employment Security Administration activities, which comprise only administration of unemployment compensation programs and employment offices. Includes also Federal administration of Old Age, Survivors', Disability, and Health Insurance and other social insurance programs.

**Social Services and Income Maintenance**—Comprises the functions of *Public Welfare, Hospitals, Health, Social Insurance Administration, and Veterans' Services*

**Space Research and Technology**—Federal space activities, comprising programs of the National Aeronautics and Space Administration.

**Special District Governments**—All organized local entities (other than counties, municipalities, townships, or school districts) authorized by State law to provide only one or a limited number of designated functions, and with sufficient administrative and fiscal autonomy to qualify as separate governments; known by a variety of titles, including districts, authorities, boards, and commissions.

**Special Assessments**—Compulsory contributions collected from owners of property benefited by special public improvements (street paving, sidewalks, sewer lines, etc.) to defray the cost of such improvements (either directly or through payment of debt service on indebtedness incurred to finance the improvements) and apportioned according to the assumed benefits to the property affected by the improvements.

**State Government**—The State government in each case consists of the legislative, executive, and judicial branches of government and all departments, boards, commissions, and other organizational units. It also includes any semi-autonomous authorities, institutions of higher education, districts, and other agencies that are subject to administrative and fiscal control by the State through its appointment of officers, determination of budgets, approval of plans, and other devices. As to all such agencies, financial information included in the Census reports represents their gross transactions with the public and other governments, rather than only the net effect of such transactions on central

State funds. Each data item for a State government consists of the sum of amounts of the type described for all funds and accounts—including not only the general fund but also special revenue funds, sinking funds, public trust funds, bond funds, and all other special funds.

**Taxes**—Compulsory contributions exacted by a government for public purposes except employee and employee assessments for retirement and social insurance purposes, which are classified as insurance trust revenue. All tax revenue is classified as general revenue and comprises amounts received (including interest and penalties but excluding protested amounts and refunds) from all taxes imposed by a government. Note that local government tax revenue excludes any amounts from shares of State-imposed and collected taxes, which are classified as *Intergovernmental Revenue*.

**Tobacco Products Sales Taxes**—See under *Sales and Gross Receipts Taxes*.

**Toll Highway Facilities**—Toll turnpikes and toll roads, toll bridges, ferries, and toll tunnels operated by State agencies. Expenditure for this purpose includes only acquisition, construction, and maintenance of State facilities; it does not include any debt service on toll facility debt or any aid to local governments for toll facilities.

**Township Governments**—Organized local governments authorized in State constitutions and statutes and established to provide general government for areas defined without regard to population concentration; includes those governments designated as towns in Connecticut, Maine (including organized plantations), Massachusetts, Minnesota, New Hampshire (including organized locations), New York, Rhode Island, Vermont, and Wisconsin, and townships in other States.

**Transit**—Construction, maintenance, and operation of public mass Transit systems—bus, commuter rail, light rail, or subway systems. Excludes systems established solely to transport elementary and secondary school pupils. Ferry systems are classified under *Highways*. See under *Utility*.

**Transit Subsidies**—Payments in support of subway, bus, surface rail and street railroad, and other passenger transportation systems, including public support of a private utility or railroad and intergovernmental subsidy payments. Excludes amounts paid by a parent government to its dependent transit utility. Also see under *Utility*.

**Transportation**—Comprises the functions of *Highways, Air Transportation, Parking Facilities, Water Transport and Terminals, and Transit Subsidies*.

**Unemployment Compensation Expenditure**—Comprises payments made to beneficiaries under basic provisions of unemployment compensation programs and special program payments, such as for extended benefits triggered by economic conditions.

**Unemployment Compensation Revenue**—Employer (and in some cases employee) contributions, interest on investments, and net Federal advances and contributions for unemployment compensation programs.

**Utility**—A government owned and operated water supply, electric light and power, gas supply, or transit system. Government revenue, expenditure, and debt relating to utility facilities leased to other governments or persons, and other commercial type activities of governments, such as port facilities, airports, housing projects, radio stations, steam plants, ferries, abattoirs, etc., are classified as general government activities. Also see *Transit Subsidies*.

**Utility Debt**—Debt originally issued specifically to finance government owned and operated water, electric, gas, or transit utility facilities.

**Utility Expenditure**—Expenditure for construction of utility facilities or equipment, for production and distribution of utility commodities and services (except those furnished to parent government), and for interest on utility debt. Does not include expenditure in connection with administration of utility debt and investments (treated as general expenditure) and the cost of providing services to the parent government (such costs, when identifiable, are treated as expenditure for the function served).

**Utility Revenue**—Revenue from sale of utility commodities and services to the public and to other governments. Does not include amounts from sales to the parent government. Also excludes income from utility fund investments and from other nonoperating properties (treated as *General Revenue*). Any monies from *Taxes*, *Special Assessments*, and *Intergovernmental Revenue* are classified as *General Revenue*, not *Utility Revenue*.

**Vendor Payments**—See under *Public Welfare*.

**Veterans' Services**—Cash bonuses to veterans and other financial grants not contingent on need, administration of bonus payments, veterans' information and guidance services, and other veterans' services not classified under *Public Welfare*, *Education*, *Hospitals*, or other functions.

**Water Supply**—Operation and maintenance of water supply system including acquisition and distribution of water to the general public or to other local governments for domestic or industrial use. Acquisition and distribution of water for irrigation of agricultural lands are classified under *Natural Resources*. See under *Utility*.

**Water Transport and Terminals**—Construction, maintenance, operation, and support of canals and other waterways, harbors, docks, wharves, and related marine terminal facilities.

**Withdrawals, Insurance Trust**—See *Insurance Trust Expenditure*.

**Workers' Compensation Expenditure**—Insurance trust expenditure for State-administered workers' compensation systems. Consists of cash benefit payments to injured workers covered by the system. Excludes State contributions to system on behalf of State employees and expenditure for administration.

**Workers' Compensation Revenue**—Employer premiums, assessments, and other contributions to State-administered workers' compensation systems and earnings on investments of systems. Excludes contributions by State governments for State employees covered by system.

**Workers' Compensation System**—A State-administered plan for compulsory accident and injury insurance of workers through accumulation of assets from contributions collected from employers for financing cash benefits to eligible injured workers.

# Publication Program

## 1992 CENSUS OF GOVERNMENTS

The Bureau of the Census has conducted a Census of Governments every 5 years since 1957 covering four major subject fields relating to State and local governments—organization, taxable property values, employment, and finances. The results of the 1992 Census of Governments are being issued in both printed and electronic formats. The printed material includes two preliminary reports and four volumes, which are described individually below. The electronic dissemination will encompass a variety of media—tapes, diskettes, CD-ROM, and electronic networks—described in a separate section following the report descriptions.

### PRELIMINARY REPORTS

No. 1. *Government Units* National and State figures on number of governments by type.

No. 2. *Popularly Elected Officials* National and State counts of popularly elected officials by type of government and type of office.

### FINAL REPORTS

#### Volume 1. Government Organization

No. 1. *Government Organization* Data for the Nation and by States on county, municipal, and township governments by population size; on public school systems by size of enrollment, grades provided, and number of schools; and on special district governments by function and amount of outstanding debt. Also shown is the number of local governments, by type, in each county area in the Nation. A description of local government structure in each State is a major feature of this report.

No. 2. *Popularly Elected Officials* Data for the Nation and by States on the number of officials directly elected by the voters, by type of office and by type of government. Also included is the number of officials that are elected directly by the voters in each county area in the Nation. This report includes also a tabular presentation describing elective offices authorized by State constitutions and general laws, with information for each office on length of term, geographic area, and method of compensation.

#### Volume 2. Taxable Property Values

No. 1. *Assessed Valuations for Local General Property Taxation* Figures for the Nation, States, counties, and cities having a population of 50,000 or more on assessed values (gross and net) of taxable property.

No. 2. *Taxable Real Property Assessment/Sales Price Ratios* Data on assessment levels—including assessment/sales price ratios and dispersion coefficients—that provide important statistical measures relating to real property taxation. Report provides information for selected State and county areas.

#### Volume 3. Public Employment

No. 1. *Employment of Major Local Governments* Statistics on October 1992 employment and payrolls for: all county governments; subcounty general purpose governments (municipalities and townships) having 25,000 or more population; school systems having 5,000 or more enrollment; and special district governments having 100 or more full-time employees.

No. 2. *Compendium of Public Employment* Employment and payroll data for the month of October 1992 by government function for the Nation, by States, and by type of government. Report also displays data summarized by county area for local government employment and payrolls.

#### Volume 4. Government Finances

No. 1. *Public Education Finances* Statistics on revenue, expenditure, debt, and financial assets of school systems, presented for the Nation, for States, and for school systems having 5,000 or more enrollment. Data describe financial activity in fiscal year 1992.

No. 2. *Finances of Special Districts* Fiscal year 1992 statistics on finances of special district governments, by States, and for selected large districts.

No. 3. *Finances of County Governments* Statistics on revenue, expenditure, debt, and financial assets of county governments in fiscal year 1992. Report provides national summaries, population size-group information, State area data, and displays of all individual county governments.

No. 4. *Finances of Municipal and Township Governments* Fiscal year 1992 statistics on revenue, expenditure, debt, and financial assets of municipalities and townships. There are national summaries and aggregations by population size-group and State. Report provides data for all individual municipalities and townships with a population of 25,000 or more.

No. 5. *Compendium of Government Finances* A summary of census findings on fiscal year 1992 government finances for Federal, State, and local governments. In addition to financial amounts, report includes derivative calculations of percentage distributions, per capita amounts, and amounts per \$1,000 of personal income. Data are presented for the Nation, for State areas by type of government, and for local governments in each individual county area.

No. 6. *Employee Retirement Systems of State and Local Governments* Membership, receipts, expenditure, number of beneficiaries, and financial assets of State and local government employee retirement systems. Data are shown for the Nation, for States, and for individual retirement systems having assets of \$50 million or more.

### ELECTRONIC MEDIA

The census data will be available in the following electronic formats—diskettes or computer tapes; CD-ROM disks; and electronic network. The *diskettes or computer tapes* will be data files generally compatible with previous annual survey and census of government versions. In general, these files contain: State area data by type of government; local government county area totals; and individual government detail. The *CD-ROM disks* will provide information found in the diskettes or computer tapes, plus an electronic version of each report. *Electronic networks*, such as INTERNET and possibly others, will carry the data described as being available on diskettes or computer tapes.

### HOW TO PURCHASE PRINTED REPORTS

When the printed reports described above become available, they will be sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20401.

Telephone or fax orders may be used to reduce processing time if your order is to be charged to VISA, MasterCard, or prepaid Superintendent of Documents Deposit Account. Customers will be able to call the Order Desk in Washington, DC, at 202-783-3238, between 7:30 a.m. and 4:00 p.m., eastern time, Monday through Friday, except holidays.

### HOW TO PURCHASE DATA ON ELECTRONIC MEDIA

The Data User Services Division of the Bureau of the Census will market all electronic media described above. The telephone and fax numbers for ordering are: telephone, 301-763-4100; fax, 301-763-5198. To expedite processing, you can charge your order to VISA, MasterCard, or a prepaid Bureau of the Census account. You will also be able to order this service by mail from the Data User Services Division, U.S. Bureau of the Census, Washington, DC 20233-8300.
