

**Table 76. Christian Church Adherents, 2000, and Jewish Population, 2004—States**

[133,377 represents 133,377,000. Christian church adherents were defined as “all members, including full members, their children and the estimated number of other regular participants who are not considered as communicant, confirmed or full members.” The Jewish population includes Jews who define themselves as Jewish by religion as well as those who define themselves as Jewish in cultural terms. Data on Jewish population are based primarily on a compilation of individual estimates made by local Jewish federations. Additionally, most large communities have completed Jewish demographic surveys from which the Jewish population can be determined]
