

return to the public housing units once redevelopment is complete.

Most of the current buildings on the site would be demolished in phases, unless renovation for community services use is feasible. The existing Jim Wiley Community Center building will likely be renovated. In addition, much of the existing infrastructure would be demolished, abandoned, or replaced, also in phases. The project site would be redeveloped to provide approximately 900 to 1,100 dwelling units of rental and for-sale housing, in attached and detached forms, to meet a wide range of needs. Rental housing could include public housing units (attached townhouses, over/under flats, over/under townhouses, cottages) and workforce housing (attached townhouses, over/under flats, over/under townhouses, and apartments). For sale housing could include single family detached, cottages, attached townhouses, condominium flats and condominium townhouses.

An estimated 2,235,000 square feet of net buildable area is associated with the Proposed Master Plan. Non-residential development would include an estimated 80,000–100,000 square feet of community-oriented uses. Such uses may include: a branch library, renovated community center, youth and family facilities, Head Start and child care facility, Sheriff's office, food bank, career development center and meeting/gathering space. Approximately 22,300 square feet of neighborhood-scale retail, to meet the everyday needs of residents, is also proposed. A new elementary school (White Center Heights Elementary) is presently under construction; this is an independent proposal for purposes of land use permitting and SEPA review (although the site is included within the Greenbridge Preliminary Plat). A SEPA Determination of Nonsignificance was published on September 18 and 25, 2002, for the new elementary school.
