Modification of Class E Airspace; Seward, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: An examination of controlled airspace for Seward, NE revealed discrepancies in the Seward Municipal Airport airport reference point and in the location of the Seward nondirectional radio beacon (NDB), both used in the legal description for the Seward, NE Class E airspace area. This action corrects the discrepancies by modifying the Seward, NE Class E airspace and by incorporating the current Seward Municipal Airport airport reference point and the current

location of the Seward NDB in the Class E airspace legal description.

Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit

an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and conforming the date on which the final rule will become effective.
