2.12 Are There Any Contracts or Agreements That Cannot Receive ISDF?

SUPPLEMENTARY INFORMATION: Title: "Royalty-in-Kind Pilot Program—Offers, Financial Statements, and Surety Instruments for Sales of Royalty Oil and Gas."

OMB Control Number: 1010-0129.

Bureau Form Number: None.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) under the Mineral Leasing Act (MLA) (30 U.S.C. 1923) and the OCS Lands Act (43 U.S.C. 1353) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties

from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. MMS performs the royalty management functions for the Secretary.

Taking and selling of the Government's royalty share in the form of production or "in kind" (RIK) is authorized by the MLA, 30 U.S.C. 192, for onshore leases and the OCS Lands Act, 43 U.S.C. 1353, for offshore leases. Recommendations in an MMS 1997 Feasibility Study concluded that, under the right conditions, RIK could be workable, revenue positive, and administratively more efficient for Government and industry. Pursuant to the 1997 study's recommendations, MMS is conducting the following pilots:

- For oil from Federal leases in Wyoming which began October 1, 1998;
- For gas from Federal leases offshore the State of Texas (Texas 8(g)) which began December 1, 1998;
- For gas from Federal offshore leases in the Gulf of Mexico (GOM) Region which began in October 1999. This involves the largest production volumes; and
- For oil from Federal offshore leases in the GOM Region which began in October 2000.

In addition to the above pilots, on November 6, 2001, President Bush announced an initiative to refill the Strategic Petroleum Reserve (SPR). MMS, in coordination with the Department of Energy (DOE), entered into a joint, 3-year initiative to fill the remaining capacity of the SPR. Operators of Federal leases in the GOM will deliver royalty oil to MMS's exchange partner at or near the lease. MMS's exchange partner will then deliver similar quantities of crude oil to MMS or its designated agent at Gulf Coast market centers. MMS's designated agent will be either DOE or its exchange contractor. DOE will then contract for exchange or direct movement of exchange oil to the SPR.
