FOR FURTHER INFORMATION CONTACT: Veterans Health Administration (VHA) Privacy Act Officer, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20240; telephone (202) 320–1839.

SUPPLEMENTARY INFORMATION:

VA is renumbering the system of records from 54VA17 to 54VA16 to reflect organizational changes in the Department.

The Categories of Individuals Covered by the System has been amended to include eligible veterans and their dependents in the following programs administered by the Health Administration Center (HAC):

- Public Law 103–446, Title I: Persian Gulf War Veterans, § 107, mandates that the Secretary conduct a program to evaluate the health status of spouses and children of Persian Gulf War veterans.

- Title 38 U.S.C. 1803 requires VA to provide health care benefits to any birth child of a veteran who served in Vietnam during the Vietnam War and that child was born with the medical condition of spina bifida.

- Title 38 U.S.C. 1724 requires VA to manage health care benefits to veterans outside the United States if such care and services are needed for the treatment of a service-connected disability or as part of an approved VA vocational rehabilitation program.

- Title 38 U.S.C. 1813 requires VA to provide health care benefits to a birth child born with certain covered birth defects to a female Vietnam veteran.

- Title 38 U.S.C. Sections 1703, 1725 and 1728 govern VA payment for hospital care and medical services to veterans’ authorized Non-VA health care.

The Authority for Maintenance of the System has been amended to provide updated regulatory and public law references. Public Law 107–135, Department of Veterans Affairs Health Care Programs Enhancement Act of 2001, re-designated the Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA) program from 38 U.S.C. 1713 to 38 U.S.C. 1781.

The Purpose of this system of records is amended to include evaluation of health status of dependents of Persian Gulf War veterans, dependents of veterans eligible for Spina Bifida and Children of Women Vietnam Veterans health care, and veterans eligible to receive foreign medical benefits and Non-VA health care under VA auspices.

Routine Uses of Records Maintained in the System, Including Categories of Users and the Purposes of Such Uses is amended as follows:

- The word “CHAMPVA” in routine use number 1 is deleted. The routine use applies to all programs (categories of individuals covered by the system and categories of records in the system) administered by the Health Administration Center. CHAMPVA is only one of the programs in this system of records. The other programs are Foreign Medical Program, Spina Bifida Healthcare, Children of Women Vietnam Veterans Healthcare, Fee claims and Persian Gulf examination claims. Because the routine use disclosure authority will be applicable to all programs, unless otherwise designated, reference to the particular program has been deleted.

- In routine use number 1, a description of the means of disclosure has been added to reflect that the eligibility and claim information may be disclosed via call service center, general correspondence and interactive webpage. An additional phrase has also been inserted for the disclosure of information in response to inquiries that are made by a claimant’s next of kin or person with whom the claimant has a

meaningful relationship. This addition is being made to make the routine use authority compatible with the Health Insurance Portability and Accountability Act (HIPAA) provisions.

- Routine use number 3 has been amended in its entirety. On its own initiative, VA may disclose information, except for the names and home addresses of veterans and their dependents, to a Federal, state, local, tribal or foreign agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order issued pursuant thereto. On its own initiative, VA may also disclose the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order issued pursuant thereto. VA must be able to comply with the requirements of agencies charged with enforcing the law and conducting investigations. VA must also be able to provide information to state or local agencies charged with protecting the public’s health as set forth in state law.

- Routine use number 4 has been amended to add the wording “upon its request for use” for VA to disclose records from this system of records to a Federal agency in the issuance of a security clearance, the investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting Agency, to the extent that the information is relevant and necessary to the requesting Agency’s decision on the matter.

- Former routine uses numbers 5 and 6 have been deleted from this system of record. Upon review, it has been determined that these routine uses are no longer applicable to this system and, as such, are no longer required.

- Routine uses numbers 7 through 24 have been renumbered from 5 through 22.

- In routine use number 8 (formerly routine use number 10), the wording “in order for the foregoing activities to prosecute or defend litigation involving or pertaining to the United States” has been replaced with “in order to prosecute or defend litigation involving or pertaining to the United States, or in which the United States has an interest” to make the routine use more concise with its application.

- In routine use number 9 (formerly routine use number 11), the wording “Any information in this system of records may be disclosed to a Federal

grand jury, a Federal court or a party in litigation, or a Federal agency or party to an administrative proceeding being conducted by a Federal agency" has been replaced with "Any information in this system of records may be disclosed to a Federal agency or party to an administrative proceeding being conducted by a Federal agency." The wording "in order for VA to respond to and comply with the issuance of a Federal court order" has been replaced with "in order for VA to respond to and comply with the issuance of an order by that Federal agency requiring production of the information." The changes have been made to make the routine use more concise in the application of its function.

- The word "CHAMPVA" in routine use number 22 (formerly routine use number 24) is deleted and replaced with the wording "veteran and beneficiary." The intention of this word change is to provide access information to veterans and beneficiaries who request assistance in locating medical providers who accept VA payment for health care services.

- Routine use number 23 is added to permit disclosure of relevant information from this system to other entities with which VA has a contract or agreement to perform such services, as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor or subcontractor to perform the services of the contract or agreement.

- Routine use number 24 is added to permit disclosure of relevant information from this system to Claims Processing Quality Review Organizations or Accreditation Organizations in connection with their review of claims, or in connection with studies or other review activities conducted pursuant to VA requests to the organization for certification or accreditation to national standards.

The Privacy Act permits VA to disclose information about individuals without their consent for a routine use when the information will be used for a purpose that is compatible with the purpose for which VA collected the information. In all of the routine use disclosures described above, the recipient of the information will use the information in connection with a matter relating to one of VA's programs, will use the information to provide a benefit to VA, or disclosure is required by law.

Under section 264, Subtitle F of Title II of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Public Law 104-191, 100 Stat. 1936, 2033-34 (1996), the United States Department of Health and Human

Services (HHS) published a final rule, as amended, establishing Standards for Privacy of Individually-Identifiable Health Information, 45 CFR Parts 160 and 164. The Veterans Health Administration (VHA) may not disclose individually-identifiable health information (as defined in HIPAA and the Privacy Rule, 42 U.S.C. 1320(d)(6) and 45 CFR 164.501) pursuant to a routine use unless either: (a) The disclosure is required by law, or (b) the disclosure is also permitted or required by the HHS Privacy Rule. The disclosures of individually-identifiable health information contemplated in the routine uses published in this amended system of records notice are permitted under the Privacy Rule or required by law. However, to also have authority to make such disclosures under the Privacy Act, VA must publish these routine uses. Consequently, VA is publishing these routine uses and is adding a preliminary paragraph to the routine uses portion of the system of records notice stating that any disclosure pursuant to the routine uses in this system of records notice must be either required by law or permitted by the Privacy Rule before VHA may disclose the covered information.

The System Manager(s) and Address is amended to account for recent organizational changes. The Record Source Categories is updated to include VA Medical Centers.

The Report of Intent to Publish an Amended System of Records Notice and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: August 28, 2003.

Anthony J. Principi,
Secretary of Veterans Affairs.
