

reports will be submitted by September 30 of each year to the Chemical Review Manager for molinate.

Failure by either registrant to comply with the sale or distribution limits contained in the molinate registration constitutes grounds for immediate cancellation of the registration without opportunity for a hearing.

III. What Is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register** and provide a 30-day period in which the public may comment before the Agency may act on the request for voluntary cancellation. In the case of minor agricultural uses, section 6(f)(1)(c) of FIFRA provides for a 180-day comment period under certain circumstances. In this case, both molinate registrants requested that EPA waive the 180-day comment period. Accordingly, pursuant to section 6(f)(1)(c)(ii) of FIFRA, EPA is waiving the 180-day comment period, and will provide interested parties 30 days to comment on the action.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before October 17, 2003. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements. Any person, including the registrant, who wants to support the continued registration of molinate, must fulfill all outstanding data gaps. In addition, EPA must find that molinate is eligible for reregistration.

V. Provisions for Disposition of Existing Stocks

The Agency intends to issue a cancellation order following the consideration of all comments received during the comment period, unless the comments warrant further review of this

request. Any cancellation order issued in response to this request will have an expected effective date of June 30, 2008.

After that date, Syngenta and Helm may not sell or distribute any molinate products except as detailed in the cancellation order as follows. Syngenta and Helm will be permitted to distribute the molinate active ingredient in 2009 for the purposes of facilitating usage by August 31, 2009. No use of products containing molinate will be permitted after the 2009 growing season (August 31, 2009).
