FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than October 27, 2003.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C.

Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project: Evaluating the Effectiveness of the Asthma Intervention Program, Power Breathing—New—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

The Centers for Disease Control and Prevention (CDC) seeks to conduct an evaluation of the effectiveness of the asthma intervention program, Power Breathing, in two school districts in Kansas City, KS and Fredericksburg, VA. The overall aim of this program,

developed by the Asthma and Allergy Foundation of America, is to provide adolescents with a basic understanding of asthma and its management in a peer-friendly environment and to empower them to take control of their asthma on a personal level.

The proposed data collection for the evaluation will provide feedback to CDC about the usefulness and cost-effectiveness of this teen asthma intervention program. Sample participants will come from students, parents, program facilitators, and school personnel (school nurses and teachers) in the selected two school districts. Self-administered questionnaires will be given to students at baseline (pre-intervention program), immediately post-program, and at six-months post-program, while parents receive baseline and six-months post-program surveys.

The student survey will focus on: knowledge, attitudes, and behaviors regarding their asthma; perception of their health status and quality of life; assessment of the program; and impact of the program on their asthma management skills. Parents will be asked about their child's asthma condition, assessment of the program, and cost-related issues for their child's asthma.

Individual, one-time interviews will be conducted with program facilitators and school personnel regarding their perceptions of the intervention program and its impact on the students. Two focus groups will be conducted with students post-program to obtain additional, in-depth information about their perceptions of the program. The annualized burden is estimated to be 1029 hours.

Proposed Project: Work-related Assaults Treated In Hospital Emergency Departments (OMB Control No. 0920-0575)—Reinstatement without change—The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC). Workplace violence, both fatal and nonfatal, is recognized as an important occupational safety and health issue. Various data systems have provided fairly detailed information on fatal workplace violence, but much less is known about the circumstances and risk

factors for nonfatal workplace violence. A number of strategies have been suggested for reducing the incidence and severity of workplace violence in various settings (e.g., taxicabs, health care, law enforcement, social services), yet, little empirical knowledge exists about what has been implemented and what impact such strategies may have. The report, *Workplace Violence: A Report to the Nation*, published by the University of Iowa based on recommendations from a workshop of experts states, “* * * research focused on a much broader understanding of the scope and impact of workplace violence is urgently needed to reduce the human and financial burden of this significant public health problem.” In 2000, there were 677 workplace homicides in the U.S. From 1993-1999, there were an estimated 1.7 million non-fatal victimizations “while at work or on duty” every year, accounting for 18
