**SUPPLEMENTARY INFORMATION:** This forum is one in a series of discussions to implement the President's Spectrum Policy Initiative, which will result in recommendations to the Administration for improving spectrum management policies and procedures. On May 29, 2003, the President signed a Presidential Memorandum outlining the Administration's initiative for spectrum

management reform. The President established the "Spectrum Policy Initiative" to promote the development and implementation of a U.S. spectrum policy for the 21st century. He directed the Secretary of Commerce to chair the initiative, which includes two courses of spectrum-related activity, one based on an interagency task force and the other on a series of public meetings. The Department of Commerce will develop recommendations for revising policies and procedures to promote more efficient and beneficial use of spectrum without harmful interference to incumbent users.

NTIA will provide additional information about the forum in the near future on its home page at [www.ntia.doc.gov](http://www.ntia.doc.gov).
