

QUESTION:

What is the preferred method for the collector to get the MRO copy of the CCF to the MRO?

ANSWER:

- The promptness of reporting suffers when the mail is used to convey the MRO copy from the collection site.
- Even though we permit other means (e.g., overnight courier service) of transmitting MRO copies from the collection site to the MRO, collectors should fax the MRO copies when possible.
- If the faxed copy is not legible, the MRO must request another faxed copy or a hard copy.
