Description: The Service Contract Act (SCA) and Regulation 29 CFR part 4 impose certain recordkeeping and incidental reporting requirements applicable to employers with employees performing on service contracts within the Federal government. The basic payroll recordkeeping requirements contained in this regulation, Sec. 4.6(g)(1)(i) through (iv), have been previously approved under OMB-1215-0017, which constitutes the basic recordkeeping regulations for all laws administered by the Wage and Hour Division. This information collection contains three requirements not cleared under the above information collection. They are: A vacation benefit seniority list, which is used by the contractor to determine vacation fringe benefit entitlements earned and accrued by service contract employees who were employed by predecessor contractors; a conformance record report, which is used by Wage and Hour to determine the appropriateness of the conformance and compliance with the SCA and its regulations; and a collective bargaining agreement, submitted by the contracting agency to Wage and Hour to be used in the issuance of wage determinations for successor contracts subject to section 2(a) and 4(c) of the SCA.

SUPPLEMENTARY INFORMATION

I. Background

The Davis-Bacon Act (40 U.S.C. 3141, *et seq.*) provides that every contract in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, and/or repair which requires or involves the employment of mechanics and/or laborers shall contain a provision stating the minimum wages to be paid various classes of laborers and mechanics which shall be based upon the wages that will be determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the city, town, village or other civil subdivision of the State in which the work is to be performed. Further, Section 1.3 of Regulations 29 CFR part 1 provides that the Administrator of the Wage and Hour Division (WHD), through a delegation of authority, is responsible for making these wage determinations. Form WD-10 is used by the U.S. Department of Labor to elicit construction project data from contractor associations, contractors and unions. The wage data is used to determine locally prevailing wages under the Davis-Bacon and Related Acts. This information collection is currently approved for use through February 28, 2005.
