Regulatory Impact

The regulations proposed herein would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this proposal would not have federalism implications under Executive Order 13132.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

McDonnell Douglas: Docket 2001-NM-170-AD.

Applicability: All Model DC-9-14, DC-9-15, DC-9-15F, DC-9-21, DC-9-31, DC-9-32, DC-9-32 (VC-9C), DC-9-32F, DC-9-32F (C-9A, C-9B), DC-9-33F, DC-9-34, DC-9-34F, DC-9-41, and DC-9-51 airplanes; and DC-9-81 (MD-81), DC-9-82 (MD-82), DC-9-83 (MD-83), DC-9-87 (MD-87), and MD-88 airplanes; certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area

subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (c) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent the accumulation of water in the wheel wells of the left and right main landing gear (MLG), which could freeze on the lateral control mixer and control cables, resulting in restricted lateral control and consequent reduced controllability of the airplane; accomplish the following:

Leak Check/Repair

(a) Prior to the accumulation of 40,000 flight hours since date of manufacture, or within 18 months after the effective date of this AD, whichever is later: Do a check of the slant pressure panels of the wheel wells of the left and right MLG for water leakage (including pressurizing the airplane and checking the panels for leaks; depressurizing the airplane to repair leaks; and pressurizing the airplane again to verify that all leaks are repaired), per the Accomplishment Instructions of Boeing Alert Service Bulletin DC9-53A295, Revision 01, including Appendix A, dated February 28, 2002. If any leaks are found, before further flight, repair per the service bulletin. If no leaks are found, no further action is required by this AD.

Credit for Actions Done per Previous Issue of Service Bulletin

(b) Accomplishment of the check for water leakage and repair of leaks found, before the effective date of this AD, per Boeing Alert Service Bulletin DC9-53A295, including Appendix A, dated May 8, 2001, is acceptable for compliance with paragraph (a) of this AD.

Note 2: Although Boeing Alert Service Bulletins DC9-53A295, including Appendix A, dated May 8, 2001; and Revision 01, including Appendix A, dated February 28, 2002; recommend that operators report findings to the manufacturer after doing the initial leak check, this AD does not contain such a reporting requirement.

Alternative Methods of Compliance

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Los Angeles ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles ACO.

Special Flight Permit

(d) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on November 8, 2002.

Manager, Transport Airplane Directorate, Aircraft Certification Service.

Background and Explanation of Provisions

Temporary regulations in the rules and regulations section of this issue of the **Federal Register** amend the Income Tax Regulations (26 CFR part 1) relating to sections 6043 and 6045. The temporary regulations set forth information reporting requirements relating to acquisitions of control and substantial changes in capital structure. The text of those regulations also serves as the text of these proposed regulations. The preamble to the temporary regulations explains the amendments and these proposed regulations.

As set forth in the preamble to the temporary regulations, public comments are specifically invited with regard to the potential for duplicate reporting under these proposed regulations and

with regard to the burden of compliance with the reporting requirements under the proposed regulations.

Proposed Effective Date

The provisions of these regulations under section 6043 are proposed to be applicable for any acquisition of control and change in capital structure occurring after the date on which these regulations are published in the **Federal Register** as final regulations. The provisions of these regulations under section 6045 are proposed to be applicable for any form 1099-CAP received by a broker after the date on which these regulations are published in the **Federal Register** as final regulations.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f) of the Internal Revenue Code, this notice of proposed rulemaking will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small businesses.

Comments and Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any electronic or written comments (a signed original and eight copies) that are submitted timely to the IRS. The IRS and Treasury Department request comments on the clarity of the proposed rules and how they can be made easier to understand. All comments will be available for public inspection and copying. A public hearing has been scheduled for March 5, 2003, beginning at 10 a.m. in room 4718, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. Because of access restrictions, visitors will not be admitted beyond the immediate entrance area more than 30 minutes before the hearing starts. For information about having your name placed on the building access list to attend the hearing, see the **FOR FURTHER INFORMATION CONTACT** portion of this preamble.

The rules of 26 CFR 601.601(a)(3) apply to the hearing. Persons who wish

to present oral comments must submit electronic or written comments by February 18, 2003, and an outline of the topics to be discussed and the time to be devoted to each topic (a signed original and eight copies) by February 12, 2003. A period of 10 minutes will be allotted to each person for making comments. An agenda showing the scheduling of the speakers will be prepared after the deadline for reviewing outlines has passed. Copies of the agenda will be available free of charge at the hearing.

LEGAL SERVICES CORPORATION

45 CFR Part 1602

Procedures for Disclosure of Information Under the Freedom of Information Act

AGENCY: Legal Services Corporation (LSC).

ACTION: Notice of Proposed Rulemaking.

SUMMARY: This NPRM proposes several revisions to the LSC regulations implementing the Freedom of Information Act. The proposed revisions would add provisions detailing the submitter's rights process, provide LSC with express authority to defer action on pending and additional requests and appeals when a requester has an outstanding fee balance, and clarify the applicable fee waiver standards. LSC also proposes to revise the applicable fee structure to better reflect LSC's costs in complying with FOIA. Finally, the NPRM contains proposed technical changes to reflect current LSC nomenclature.

DATES: Comments on this NPRM are due on January 2, 2003.

ADDRESSES: Written comments may be submitted by mail, fax or email to Mattie C. Condray Senior Assistant General Counsel, Office of Legal Affairs, Legal Services Corporation, 750 First Street, NE., Washington, DC 20002-4250; (202) 336-8817 (phone); (202) 336-8952 (fax); mcondray@lsc.gov.

FOR FURTHER INFORMATION CONTACT: Mattie C. Condray, (202) 336-8817 (phone).

SUPPLEMENTARY INFORMATION: LSC is subject to the Freedom of Information Act (FOIA) by the terms of the Legal Services Corporation Act. 42 U.S.C. 2996d(g).¹ LSC has implemented FOIA by adopting regulations which contain the rules and procedures the Corporation follows in making agency records available to the public under FOIA. As part of an overall review of LSC's regulations, LSC determined that a variety of amendments to LSC's FOIA regulation are in order and part 1602 was assigned a high priority for rulemaking. In light of the above, at the August 24, 2002, meeting of the Board of Directors, the Board identified Part 1602 as an appropriate subject for rulemaking and LSC subsequently announced that it was initiating a Notice and Comment rulemaking to

consider revisions to its FOIA regulations.

Submitter's Rights Process

Pursuant to current LSC practice, if a request is received for the grant application records of a current or prospective recipient, LSC provides that applicant with an opportunity to request that some or all of the records requested be withheld from disclosure prior to LSC sending its response to the requester. This practice, which is consistent with current FOIA law, is not described or discussed in the regulations. The submitter's rights process affords important rights to grant applicants and also impacts requesters who have to wait until the submitter's rights process has been completed to obtain releasable records subject to this process. LSC believes that it is important, therefore, for this process to be explicitly set forth in Part 1602. Accordingly, LSC proposes to add a new section 1602.14, Submitter's rights process, which would formally incorporate the Corporation's current practice into the regulations.

At the outset, LSC notes that its submitter's rights process is based on the submitter's rights process outlined in Federal Executive Order No. 12,600 (June 23, 1987). E.O. 12,600 required Federal agencies to "establish procedures to notify submitters of records containing confidential information [information arguably subject to FOIA Exemption 4] * * * when those records are requested under the Freedom of Information Act * * * ." (Emphasis added) Although LSC is not a Federal agency, and, therefore, not subject to E.O. 12,600, LSC chose to develop a policy consistent with the Order. LSC believes that grant application records are the only records likely to contain "confidential information," the release of which could cause competitive harm. Thus, the current submitter's rights process is only invoked in relation to requests for grant application information, but not other records submitted by recipients. LSC is, at this time, proposing to keep the process limited to requests for grant application materials, but specifically invites comment on whether there are other records submitted by recipients which would likely be subject to withholding under Exemption 4.

Under the proposed new section, when the Corporation receives a FOIA request seeking the release of a submitter's grant application(s), or portions thereof, the Corporation would provide prompt written notice of the request to the submitter in order to

¹ Absent this authority, LSC would not otherwise be subject to FOIA since LSC is not an agency, department or instrumentality of the Federal government. 42 U.S.C. 2996d(e)(1).
