

Reclamation's functions, including whether the information will have practical use; (b) the accuracy of Reclamation's estimated time and cost burdens of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, use, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including increased use of automated collection techniques or other forms of information technology.

Title: Right-of-Use Application.

OMB No.: 1006-0003.

Abstract: Reclamation is responsible for over 8 million acres of land in the 17 western States. Parties wishing to use any of that land must submit a Right-of-Use application. Reclamation will review the application and determine whether the granting of the right-of-use is compatible with the present or future uses of the land. After preliminary review of the application, the applicant will be advised of the estimated administrative costs for processing the application. In addition to the administrative costs, the applicant will also be required to pay a land use fee based on the fair market value for such land use, as determined by Reclamation. If the Right-of-Use application is for a bridge, building, or other type of major structure, Reclamation may require that all plans and specifications be signed and sealed by a professional engineer licensed by the State where the work is proposed. Linear facilities such as roads, pipelines, and transmission lines require a centerline survey defining the limits of the requested right-of-use.

Description of respondents:

Individuals, corporations, companies, and State and local entities that desire to use Reclamation lands.

Frequency: Each time a right-of-use is requested.

Estimated completion time: An average of 2 hours per respondent.

Annual responses: 500 respondents.

Annual burden hours: 1,000.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Reclamation will display a valid OMB control number on the form.

A **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on August 7, 2002 (67 FR 51292). Reclamation did not receive any comments on this collection of information during the comment period.

OMB has up to 60 days to approve or disapprove this information collection, but may respond after 30 days; therefore, public comment should be submitted to OMB within 30 days in order to assure maximum consideration.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials or organizations or businesses, available for public disclosure in their entirety.

Wayne O. Deason,

Acting Deputy Director, Office of Policy.

BILLING CODE 4310-MN-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1020 (Preliminary)]

Barium Carbonate From China

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (the Act),² that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from China of barium carbonate, provided for in subheading 2836.60.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigation

Pursuant to § 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase

notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules, upon notice from the U.S. Department of Commerce (Commerce) of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations.

The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On September 30, 2002, a petition was filed with the Commission and Commerce by Chemical Products Corp., Cartersville, GA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of barium carbonate from China. Accordingly, effective September 30, 2002, the Commission instituted antidumping duty investigation No. 731-TA-1020 (Preliminary). Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 4, 2002 (67 FR 62263). The conference was held in Washington, DC, on October 22, 2002, and all persons who requested the opportunity were permitted to appear in person or by counsel. The Commission transmitted its determination in this investigation to the Secretary of Commerce on November 14, 2002. The views of the Commission are contained in USITC Publication 3561 (November 2002), entitled Barium Carbonate From China: Investigation No. 731-TA-1020 (Preliminary).

Issued: November 14, 2002.

¹ The record is defined in § 207.2(f) of the Commission's rules of practice and procedure (19 CFR 207.2(f)).

² 19 U.S.C. 1673b(a).

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-1006, 1008, and 1009 (Final)]

Urea Ammonium Nitrate Solutions From Belarus, Russia, and Ukraine

AGENCY: International Trade Commission.

ACTION: Revised schedule for the subject investigations.

EFFECTIVE DATE: November 13, 2002.

FOR FURTHER INFORMATION CONTACT:

Larry Reavis (202-205-3185), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for these investigations may be viewed on the Commission's electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol/public>.

SUPPLEMENTARY INFORMATION: Effective October 3, 2002, the Commission established a schedule for the conduct of the final phase of the subject investigations (**Federal Register** of October 23, 2002, p. 65143). Subsequently, the Department of Commerce extended the date for its final determination in the investigations from December 17, 2002, to February 18, 2003 (**Federal Register** of November 7, 2002, p. 67823). The Commission, therefore, is revising its schedule to conform with Commerce's new schedule. The Commission's new schedule for these investigations is as follows: requests to appear at the hearing must be filed with the Secretary to the Commission not later than February 13, 2003; the prehearing conference, if necessary, will be held at the U.S. International Trade Commission Building at 9:30 a.m. on February 18, 2003; the prehearing staff report will be placed in the nonpublic record on February 6, 2003; the deadline

for filing prehearing briefs is February 13, 2003; the hearing will be held at the U.S. International Trade Commission Building at 9:30 a.m. on February 20, 2003; the deadline for filing posthearing briefs is February 27, 2003; the Commission will make its final release of information on March 17, 2003; and final party comments are due on March 19, 2003. For further information concerning these investigations see the Commission's notice cited above and the Commission's rules of practice and procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.21 of the Commission's rules.

Issued: November 14, 2002.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

LIBRARY OF CONGRESS

Copyright Office

[Docket No. 2002-1 CARP DTRA3]

Digital Performance Right in Sound Recordings and Ephemeral Recordings

AGENCY: Copyright Office, Library of Congress.

ACTION: Request for notices of intent to participate and written comments on scheduling.

SUMMARY: The Copyright Office of the Library of Congress is requesting written comments and proposals for the scheduling of Copyright Arbitration Royalty Panel (CARP) proceedings to adjust royalty rates and terms under provisions of the Copyright Act governing ephemeral recordings and digital transmissions of performances of sound recordings, as well as notices of intent to participate in the CARP to set rates and terms under the statutory license for eligible nonsubscription services to make certain digital audio transmissions of sound recordings for the 2003-2004 period.

DATES: Notices of intent to participate are due on or before December 23, 2002. Comments and proposals for the scheduling of the CARP proceedings are due on or before December 2, 2002.

ADDRESSES: An original and five copies of notices of intent to participate, and written comments and proposals on

scheduling, if sent by mail, should be addressed to: Copyright Arbitration Royalty Panel (CARP), P.O. Box 70977, Southwest Station, Washington, DC 20024. If hand delivered, they should be brought to: Office of the General Counsel, James Madison Memorial Building, Room LM-403, First and Independence Avenue, SE., Washington, DC 20559-6000.

FOR FURTHER INFORMATION CONTACT:

David O. Carson, General Counsel, or William Roberts, Senior Attorney, Copyright Arbitration Royalty Panel (CARP), PO Box 70977, Southwest Station, Washington, DC 20024. Telephone: (202) 707-8380; Telefax: (202) 252-3423.

SUPPLEMENTARY INFORMATION: Section 112 and section 114 of the Copyright Act create statutory licenses for eligible nonsubscription services to make certain digital audio transmissions of sound recordings. The Library of Congress recently conducted a CARP proceeding which produced the royalty rates and terms for these licenses applicable to eligible nonsubscription services for the period from October 28, 1998, to December 31, 2002. See 67 FR 45239 (July 8, 2002). On January 30, 2002, the Library published a notice initiating a six-month voluntary negotiation period to adjust the rates and terms for the 2003-2004 period. 67 FR 4472 (January 30, 2002). No settlements were reached and the Library received a petition to initiate a CARP proceeding. Consequently, the Library is directing interested parties that wish to participate in the CARP proceeding to submit their notices of intent to participate on or before December 23, 2002. Parties should be mindful of this deadline as failure to submit a timely notice may preclude their participation in the proceeding.

The Library must also schedule this CARP proceeding. However, before a schedule can be determined, other proceedings under the section 112 and 114 licenses must be considered. Currently, there are three CARP proceedings for sections 112 and 114 that the Library must schedule in the upcoming months: (1) A proceeding to adjust the terms and rates for preexisting subscription services and to establish rates and terms for preexisting satellite digital audio services; (2) a proceeding to establish rates and terms for new subscription services; and (3) a proceeding to adjust rates and terms for nonsubscription services. Adding to the complications associated with scheduling three proceedings under the
