India Coal Mine/Coalbed Methane (CMM/CBM) Clearinghouse Kick-Off Event

November 17-18, 2008

Indian Institute of Coal Management, Ranchi, India

India Coal Mine/Coalbed Methane (CMM/CBM) Clearinghouse Kick-Off Event

November 17-18, 2008

Indian Institute of Coal Management, Ranchi, India

Event Hosted by Central Mine Planning & Design Institute

What is this event?

India ranks sixth globally in CMM/CBM emissions, presenting an enormous opportunity for CMM/CBM recovery and utilization. This event will launch the CMM/CBM Clearinghouse in India, the first official establishment of its kind in the country. The Clearinghouse will help develop and promote this market, providing information on technical, economic, financial, and policy issues to potential investors and service providers.

The event will be attended by the CMM/CBM industry, financing organizations and business investors from the U.S. and India.

Why should you participate?

- Hear from high-level decision-makers from the Ministry of Coal and Ministry of Petroleum and Natural Gas, Government of India
- Learn about financing opportunities, expertise and the latest CMM/CBM technologies available to help with developing the CMM/CBM market in India
- Learn about emerging CMM/CBM markets, their challenges and success in other countries
- Network and explore business prospects with service and technology providers from the CMM/CBM industry in the U.S. and India

Please SAVE the DATE to participate in the kick-off event for the CMM/CBM Clearinghouse and the launch of a brand new market in India!
