# RESIDENTIAL CONSTRUCTION STATISTICS

## ORDERING INFORMATION PACKAGE

*Residential Construction Branch, Manufacturing and Construction  
Division, U.S. Census Bureau, Washington D.C. 20233-6900*

### SUBJECT-MATTER:

Data files and printouts are available for the following series:

- Building Permits
- Housing Units Authorized, but Not Started
- Housing Starts
- Housing Units Under Construction
- Housing Units Completed
- New Homes Sold and For Sale
- Characteristics of New Housing

### GEOGRAPHIC COVERAGE & DATA AVAILABILITY:

All series are available for the United States and four Census regions. These are available free on the Internet as PDF formatted files (<http://www.census.gov/const/www/index.html>) or can be purchased in Excel format or as printed tables.

The building permit data is also available for States (which includes US, region, and division totals), Metropolitan Areas, County and individual permit offices. The State and Metropolitan Area data are available free on the Internet as text files (<http://www.census.gov/permits.html>) or they can be purchased as ASCII, comma delimited files or in printed format. Individual permit office and County data can be looked up for selected places and Counties for free on the Internet (<http://censtats.census.gov/bldg/bldgprmt.shtml>) or can be purchased as ASCII, comma delimited files. The individual permit office data is also available in printed format.

Building Permit sample files and documentation are available on the Internet at the following location:

<http://www.census.gov/const/www/C40/sample.html>

Questions concerning the subject matter or about ordering electronic **files** or **computer printouts** should be directed to Residential Construction Branch, Manufacturing and Construction Division, U.S. Census Bureau, Washington, D.C. 20233-6900. Phone: (301) 763-5160.

## SECTION A

### HISTORY TABLES

Historical construction statistics are available for the U.S., and 4 Census Regions. These are available for free on the Internet as PDF formatted files, or they can be purchased in Excel format, or as printed tables, using Order Form 1. The following chart displays the data series and file availability.

<b>Series</b>	<b>Files Available</b>
<b>Housing Units Authorized by Building Permits</b>	Seasonally Adjusted Annual Rate (SAAR) Seasonal Factors Not Seasonally Adjusted Monthly Data Annual Data
<b>Housing Units Authorized, But Not Started</b>	Not Seasonally Adjusted Monthly Data Annual Data
<b>Housing Starts</b>	Seasonally Adjusted Annual Rate (SAAR) Seasonal Factors Not Seasonally Adjusted Monthly Data Annual Data

<b>New Housing Units Sold by Type of Financing - United States</b>	Quarterly Data Annual Data
<b>Median and Average Sales Price of New Houses Sold by Type of Financing</b>	Quarterly Data Annual Data

## SECTION B

### BUILDING PERMITS ASCII FILES

Data tabulated by State, Metropolitan Area (MA), County and individual permit-issuing places are available as **ASCII comma delimited files**. Data are shown for the number of buildings, number of housing units, and permit valuation within four sizes of residential buildings: (1) single family houses (attached and detached combined), (2) two-unit buildings, (3) three- and four-unit buildings, and (4) residential buildings with five or more units. Data for residential additions, alterations, and renovations are available only for individual permit-issuing places and show the number of permits issued and the permit value on residential properties.

#### 1. Data by State

The **ASCII files** show aggregated totals for each state. Totals are also shown for divisions, regions, and the United States.

#### 2. Data by Metropolitan Areas

The **ASCII files** show aggregated totals for metropolitan statistical areas (MSAs), consolidated metropolitan statistical areas (CMSAs), and primary metropolitan statistical areas (PMSAs).

#### 3. Data by Permit Issuing Places-

**ASCII files** are available for entire regions. Data are included for the permit issuing places within the region, sorted by state and place. County and state totals are not included on these **ASCII files**. Monthly data are shown for the places that are requested to report monthly. Annual data are shown for all permit-issuing places in the region.

**Residential Additions, Alterations, and Renovations ASCII files** are available for the entire United States. Data are included for those permit issuing places that actually reported sorted by state and place. Aggregate estimates by County, state, or metropolitan areas are not available on these **ASCII files**.

#### 4. Monthly Cumulative Data

These files show all months of the calendar year for each permit office that is requested to report monthly (about 9,000). Prior months of the year are shown with the latest data available (late reports and corrections modify previous data). The annual file contains the latest monthly data for each permit office that is requested to report monthly. There is no annual data on this file.

#### 5. County Total Data

The monthly files show county totals for all counties in which every permit office is requested to report monthly (about 895) and the annual file shows all counties.

Annual subscriptions include 12 consecutive months and one annual. Beginning with whatever time period you request.

The chart on the next page shows the data series and the time periods for which the data are available. Use Order Form 2 to order ASCII files.

Data Series	Available Dates
<b>State</b> Current Month/Year to Date Annual	January 1988 - Present 1980 - Present
<b>Metropolitan Area</b> Current Month/Year to Date Annual	January 1988 - Present 1980 - Present
<b>County</b> Current Month/ Year to Date Annual	January 2000 - Present 1990 - Present
<b>Place-Level</b> Current Month/Year to Date Annual Cumulative Additions, Alterations, Renovations	January 1988 - Present 1980 - Present Monthly: January 1998 - Present Annual: 1997 - Present January 2002 – March 2006 Annual: 2002 - 2005

## SECTION C

### BUILDING PERMITS PRINTOUTS

Data tabulated by State, Metropolitan Area (MA), and individual permit-issuing places are available on **computer printouts**. Data are shown for the number of buildings, number of housing units, and permit valuation within four sizes of residential buildings: (1) single family houses (attached and detached combined), (2) two-unit buildings, (3) three- and four-unit buildings, and (4) residential buildings with five or more units.

#### 1. Data by State

The **computer printouts** show aggregated totals for each state. Totals are also shown for divisions, regions, and the United States.

#### 2. Data by Metropolitan Areas

The **computer printouts** show aggregated totals for metropolitan statistical areas (MSAs), consolidated metropolitan statistical areas (CMSAs), and primary metropolitan statistical areas (PMSAs).

#### 3. Data by Individual Permit-Issuing Areas

**Computer printouts** are available for entire states. Data are shown for the permit-issuing places within the state, sorted by county and place. Monthly data are shown only for those places that are requested to report monthly. Therefore, the county and state totals may or may not reflect the total monthly activity within the area. Annual data are shown for all permit-issuing-places in the state.

**Computer Printouts** of annual data are available from 1979 for State and Metropolitan Areas and for the most recent 10 years by Permit-Issuing Place. Monthly data are available back to January of the prior year.

Annual subscriptions include 12 consecutive months and one annual. Use Order Form 3 to order **computer printouts**.

## SCHEDULE C1

### NUMBER OF MONTHLY PERMIT-ISSUING PLACES BY STATES

(Used to compute computer printout subscription cost. See Schedule C2 for the price list.)

<u>State</u>	<u>Number of Monthly Permit- Issuing Places</u>	<u>State</u>	<u>Number of Monthly Permit- Issuing Places</u>	<u>State</u>	<u>Number of Monthly Permit- Issuing Places</u>
Alabama.....	71	Kentucky .....	93	North Dakota.....	45
Alaska.....	39	Louisiana .....	55	Ohio.....	383

		Wyoming.....	20.00

## Section D

### SOC Microdata File

Annual microdata files contain all Survey of Construction (SOC) sample houses started, sold, and/or completed during the year, with the exception of houses abandoned after start, which are not included.

SOC is a national sample survey of new houses selected from building permits and a canvassing of areas not requiring permits. Builders or owners of the houses selected are interviewed for information including start, sale, and completion dates, and more than 40 physical and financial characteristics of the houses. The overall national sampling rate is about 1 in 50 new houses, although this varies considerably by individual survey location based on activity.

Available geography on the files includes the nine Census Divisions and whether a house is inside or outside a metropolitan area.

All new houses are classified into one of four categories: (1) **houses built for sale** (whether sold or not) where the house and land are sold as a package; (2) **contractor-built houses** where the owner of the land hires a general contractor to build the house; (3) **owner-built houses** where the owner of the land builds the house him/herself or acts as the general contractor; and (4) **houses built for rent**. Only houses "built for sale" can have a sale date.

Tabulating records on the files by characteristics for a given year (for example, all houses completed in 2000) can be done by utilizing one of the three dates available (start, sale, completion). Each record contains a sampling weight which indicates how many houses a sample house represents. Tabulated totals from the files will not exactly match published estimates, primarily because the files were produced at different times.

The files contain no information which would identify the specific addresses or builders of the sample houses. In addition, certain variables such as sales price and square footage have been "top and bottom-coded" to further remove the possibility of disclosure. Cases which have been modified as such are identified with "flags." The relationship of modified variables with other variables will be altered.

Please refer to [www.census.gov/newresconst](http://www.census.gov/newresconst) for a full description of SOC including a discussion of the reliability of the data and measures of sampling error.

The Microdata files are available Annually from 1999. Files are available in SAS or Microsoft Excel format and can be sent via e-mail or on a cd-rom.

Use Order Form 4 to order microdata files.
