

break-bulk refrigerated cargo vessels and that it will therefore be necessary for them to employ foreign break-bulk refrigerated cargo vessels to support their operations.

In the interest of expediting the issuance of required permits and in accordance with section 204 (d)(3) of the Magnuson-Stevens Act, the U.S. JV partners have requested and received from the New England Fishery Management Council and the Mid-Atlantic Fishery Management Council, a general recommendation that any break-bulk refrigerated cargo vessels required to support approved foreign fishing operations in the EEZ be permitted under section 204 (d) of the Magnuson-Stevens Act.

In accordance with section 204 (d)(3)(D) of the Magnuson-Stevens Act, NMFS is notifying interested parties of the periodic need of the U.S. JV partners for break-bulk refrigerated cargo vessels to transship processed fishery products at-sea and transport the products to points outside the United States. Further information about the requirements of the U.S. JV partners is available from NMFS (See **ADDRESSES**). Owners or operators of vessels of the United States who purport to have vessels with adequate capacity to perform the required transportation at fair and reasonable rates should indicate their interest in doing so to NMFS (See **ADDRESSES**).

In consideration of the Councils' recommendation, the apparent lack of available U.S.-flag break-bulk refrigerated cargo vessels (as reported by the U.S. JV partners), and the requirement to process and issue on short notice permits requested in accordance with section 204 (d) of the Magnuson-Stevens Act, until an owner or operator of a vessel of the United States having adequate capacity to perform the required transportation at fair and reasonable rates is identified, NMFS intends to approve as expeditiously as possible all complete applications for 204 (d) transshipment permits submitted by U.S. JV partners in support of approved foreign fishing operations in the EEZ.
