

Archived Information

Rebuilding America's Schools

President Clinton's Plan:

6,000 Schools Built and Modernized
(\$24.8 billion in School Modernization Bonds)

25,000 Schools Repaired
(Over \$33 billion in loans and grants)

The Republican Alternative: (Based on the Senate Legislation S. 1134)

Only 198 Schools Built and Modernized
(Expanded benefits for tax-exempt bonds used for school construction)

No Schools Repaired

NOTE: Based on a 10-year period. One schoolhouse represents 1,000 build or modernized schools and one hammer represents 5,000 schools repaired.
