

INDIANA AMERICORPS READINESS ASSESSMENT

IS MY ORGANIZATION READY FOR AN AMERICORPS*STATE GRANT?

This Readiness Assessment Questionnaire will help organizations to assess their capacity to operate a high quality AmeriCorps*State program.

The questionnaire is also useful for organizations seeking funding from other government agencies, foundations, or individuals. While a few questions are specific to AmeriCorps*State programs, most would be asked by any funder considering making a significant investment in the organization.

This questionnaire asks the reader to score the organization on elements necessary to run a high quality program, by selecting the answer that best describes the organization's current status or performance.

EACH "YES" ANSWER IS WORTH ONE POINT.

RESULTS

- **45 points or more:** Based on your self-assessment, the organization likely has the capacity to successfully operate an AmeriCorps*State project or other government program.
- **35-44 points:** Based on your self-assessment, the organization may need to make a few improvements in your capacity and planning to succeed.
- **Less than 35 points:** Based on your self-assessment, the organization may have a significant need to build its capacity. Applying for AmeriCorps*State or other competitive funds may not be a suitable option for you at this time.

This assessment is intended only as a general guide. Successful completion of the assessment does not guarantee funding from OFBCI or any other organization.

AmeriCorps*State Specific

Does the organization have the ability to effectively utilize at least ten full time equivalent AmeriCorps members?

Does the organization have sufficient workspace and equipment for the AmeriCorps members?

OFFICE OF FAITH-BASED AND COMMUNITY INITIATIVES
AMERICORPS*STATE READINESS ASSESSMENT

Does the organization have non-AmeriCorps revenue of over \$200,000 per year?

If the answer to any of these questions is no, consideration should be given to becoming part of an AmeriCorps consortium. Serving as an AmeriCorps host site, rather than as a primary grant applicant is often a better choice for smaller organizations.

For Faith-Based Organizations seeking to operate government funded programs

Participation in government funded programs will be open to all who qualify, without regard to religious beliefs.

No participant in a government funded program will be required to participate in inherently religious activities.

Government funded programs will be held in a separate place or time from religious activities.

If these conditions are not acceptable to an organization, government funding is probably not a good option.

Next Steps

The Office of Faith-Based and Community Initiatives is ready to assist organizations in the State of Indiana. We publish a weekly update, Friday Night Facts which covers issues of interest to faith and community organizations. We also publish a monthly funding summary detailing Federal, State, local and private grants open to faith and community organizations. Both are sent free of charge via email.

Each year the OFBCI hosts the Governor's Conference on Service and Volunteerism, offering training and networking opportunities for organizations across Indiana.
