Re: Wells County Multijurisdictional  
Records Management/Computer  
Aided Dispatch Project

Dear Senator Lugar:

The Bluffton Police Department supports the application submitted by the Wells County Sheriff for the above project. The project would enhance the information sharing between departments.

The departments involved in this project have worked at a collaborative effort for years and it is our hope that we can finally see it come to fruition with your help.

Your help in funding this project is necessary and we appreciate your efforts.

Respectfully,
