Senator Richard Lugar
United States Senate
Washington, DC

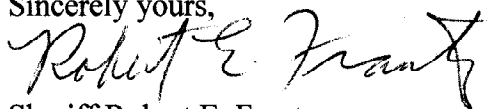

Re: Wells County Multijurisdictional
Records Management/Computer
Aided Dispatch Project

Dear Senator Lugar

As Sheriff of Wells County I feel it is my responsibility to provide the best service to the people we serve. For many years all law enforcement agencies in our county have been working together to find a solution to improve our ability to share information. For some time we have worked together for a multijurisdictional project which would build an effective law enforcement communications/dispatch system. Unfortunately implementing projects like this in a small community take a great deal of funding to get started.

Your help is critical and we appreciate your efforts in helping make Wells County a safer and better place to live.

Sincerely yours,

Sheriff Robert E. Frantz
