Memo code: SP 16 - 2007

SUBJECT: State Agency Reports on Food Safety Inspections

TO: Special Nutrition Programs
All Regions

State Agencies
Child Nutrition Programs
All States

This is to remind you that the State Agency (SA) report on school food safety inspections for the School Year 2006-2007 is due to the Food and Nutrition Service (FNS) by November 15, 2007. Section 9(h) of the National School Lunch Act requires each SA to monitor and report to the Secretary of Agriculture the number of food safety inspections obtained by institutions that participate in the National School Lunch Program or School Breakfast Program. A report is required for each School Year 2005-2006 through 2008-2009.

To fulfill this requirement, you must collect information on the total number of food safety inspections conducted in food preparation and/or service areas in schools under your jurisdiction. Last year we had an extraordinary array of data and formats submitted, making it difficult to prepare a summary report. It would be beneficial for us if you would use the attached prototype form to submit the total numbers as indicated and send the report to: NSLPFoodSafetyInspections@fns.usda.gov.

If you are reporting zero or one inspection, briefly explain in the body of the response e-mail the reasons for not meeting the inspections requirement. For accuracy, do not report the same schools under more than one category. For example, if a school obtained two inspections, report it only under "Schools with two inspections."

Please submit a complete report of inspections on time so that FNS has accurate information on the level of compliance with this statutory requirement. You may contact your Regional Office for assistance with this reporting requirement.

Original Signed

STANLEY C. GARNETT
Director
Child Nutrition Division
