Notify U.S. for U.S. Business

- A free, web-based information service to send you notifications from the World Trade Organization (WTO) on domestic and foreign technical regulations for industrial products (including product packaging, marking, and labeling)
- Developed and operated by the National Institute of Standards and Technology, an agency of the U.S. Department of Commerce

Notify U.S. Features

- Early warning on WTO Technical Barriers to Trade issues
- Information from all WTO countries across 41 industry sectors
- Complete texts of proposed regulations for your review and comment
- Guidance on submitting comments on proposed regulations

Who Should Subscribe to Notify U.S.?

- U.S. Exporters
- Trade Policy Officials in U.S. Federal and State Governments
- Product Development Engineers and Professionals
- Consultants and Lawyers working with Exporters
- Interested Trade and Export Stakeholders
