

TERRORISM AND OTHER PUBLIC HEALTH EMERGENCIES

A Reference Guide for Media

OFFICE OF THE ASSISTANT SECRETARY FOR PUBLIC AFFAIRS
U.S. Department of Health and Human Services • Washington, D.C.

<http://www.hhs.gov/emergency> September 2005

ACKNOWLEDGMENTS

This guide was produced by the Office of the Assistant Secretary for Public Affairs and the Office of Public Health Emergency Preparedness at the U.S. Department of Health and Human Services (HHS) with the support of the American Institutes for Research.

The following agencies, organizations, and individuals provided expert guidance and review for this guide.

Federal Government Agencies

U.S. Department of Health and Human Services

- › Centers for Disease Control and Prevention
- › Food and Drug Administration
- › Health Resources and Services Administration
- › National Institutes of Health
- › Substance Abuse and Mental Health Services Administration

U.S. Department of Agriculture

U.S. Department of Energy

U.S. Department of Homeland Security

U.S. Environmental Protection Agency

Nuclear Regulatory Commission

Additional Contributors and Reviewers

American Institutes for Research, Health Program, Washington, DC; Silver Spring, MD; Frederick, MD; Chapel Hill, NC; and Atlanta, GA

Center for Emergency Preparedness, The George Washington University Medical Center, Washington, DC

Vincent Covello, Ph.D., Center for Risk Communication, New York, NY

D.A. Henderson, M.D., M.P.H., The Center for Biosecurity, University of Pittsburgh Medical Center, Baltimore, MD

Gerard A. Jacobs, Ph.D., Disaster Mental Health Institute, The University of South Dakota, Vermillion, SD

National Public Health Information Coalition, Marietta, GA

David Ropeik, M.S., Harvard Center for Risk Analysis, Harvard School of Public Health, Boston, MA

Peter Sandman, Ph.D., Risk Communication Consultant, Princeton, NJ

Tim Tinker, Dr.P.H., M.P.H., Widmeyer Communications, Washington, DC

Virginia Department of Health, Office of Epidemiology, Richmond, VA

HHS also wishes to thank the professional media organizations that provided initial analysis of the concept for this guide as well as several independent reviewers whose knowledge of journalism, the media, health care, science, government, and ethics was an important source of insight into the information this guide should provide.

		INDEX	253

The information in this guide is a result of the best knowledge available at the time of publication. In the sections describing terrorist agents, an effort has been made to identify issues that are not yet understood or where disagreement exists among experts. We urge you to refer to the Web version of this guide at <http://www.hhs.gov/emergency> for the latest information.
