SUPPLEMENTARY INFORMATION:

Title: Pork and Poultry Products From Mexico Transiting the United States.

OMB Number: 0579-0145.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is responsible for, among other things, regulating the importation into the United States of certain animals and animal products to prevent the introduction of serious pests and diseases of livestock into the United States.

The regulations for the importation of animals and animal products are contained in 9 CFR parts 92 through 98.

The regulations in 9 CFR 94.15 allow fresh (chilled or frozen) pork and pork products and poultry carcasses, parts, and products (except eggs and egg products) that are not eligible to enter into the United States to transit the United States from specified States in Mexico, via land ports, for export to another country.

The regulations set out conditions for the transit movements that protect against the introduction of classical swine fever or exotic Newcastle disease into the United States.

These conditions involve the use of several information collection activities, including the completion of an import permit application, the placement of serially numbered seals on product containers, and the forwarding of a pre-arrival notification to U.S. port personnel.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of

information is estimated to average 0.8 hours per response.

Respondents: Exporters in Mexico and full-time, salaried veterinarians employed by Mexico's Federal animal health protection service.

Estimated annual number of respondents: 75.

Estimated annual number of responses per respondent: 10.

Estimated annual number of responses: 750.

Estimated total annual burden on respondents: 600 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 16th day of March 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.

The Emergency Food Assistance Program; Availability of Commodities for Fiscal Year 2005

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces the surplus and purchased commodities that the Department expects to make available for donation to States for use in providing nutrition assistance to the needy under the Emergency Food Assistance Program (TEFAP) in Fiscal Year (FY) 2005. The commodities made available under this notice must, at the discretion of the State, be distributed to eligible recipient agencies for use in preparing meals, and/or for distribution to households for home consumption.

EFFECTIVE DATE: October 1, 2004.

FOR FURTHER INFORMATION CONTACT:

Lillie Ragan, Assistant Branch Chief, Policy Branch, Food Distribution Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Alexandria, Virginia 22302-1594 or telephone (703) 305-2662.

SUPPLEMENTARY INFORMATION:

In accordance with the provisions set forth in the Emergency Food Assistance Act of 1983 (EFAA), 7 U.S.C. 7502, and the Food Stamp Act of 1977, 7 U.S.C. 2011, *et seq.*, the Department makes commodities and administrative funds available to States for use in providing nutrition assistance to those in need through TEFAP. In accordance with 7 CFR 251.3(h), each State's share of TEFAP commodities and administrative funds is based 60 percent on the number of low-income households within the State and 40 percent on the number of unemployed persons within the State. State officials are responsible for establishing the network through which the commodities will be used by eligible recipient agencies (ERAs) in providing nutrition assistance to those in need, and for allocating commodities and administrative funds among those agencies. States have full discretion in determining the amount of commodities that will be made available to ERAs for use in preparing meals, and/or for distribution to households for home consumption.

The types of commodities the Department expects to make available to States for distribution through TEFAP in FY 2005 are described below.

Surplus Commodities

Surplus commodities donated for distribution under TEFAP are Commodity Credit Corporation (CCC) commodities purchased under the authority of section 416 of the Agricultural Act of 1949, 7 U.S.C. 1431 (section 416) and commodities purchased under the surplus removal authority of section 32 of the Act of August 24, 1935, 7 U.S.C. 612c (section 32). The types of commodities typically purchased under section 416 include dairy, grains, oils, and peanut products. The types of commodities purchased under section 32 include meat, poultry, fish, vegetables, dry beans, juices and fruits.

In FY 2005, the Department anticipates that there will be sufficient quantities of nonfat dry milk and ready-to-eat pudding available for donation under section 416, and frozen turkey breast, canned and frozen orange juice, fruit-nut mix, dried cherries, dates, figs, canned tomatoes, walnuts, canned and frozen asparagus, canned salmon, sweet potatoes, dried cranberries, and cranberry juice under section 32, to support the distribution of these commodities through TEFAP. Other surplus commodities may be made available to TEFAP later in the year. The Department would like to point out that commodity acquisitions are based on changing agricultural market conditions; therefore, the availability of commodities is subject to change.

Approximately \$65.4 million in surplus commodities purchased in FY 2004 are being delivered to States in FY 2005. These commodities include frozen strawberries, frozen peaches, frozen orange juice, walnuts, and the following canned items: tomatoes, apricots, peaches, mixed fruit, pineapple and orange juices, asparagus and salmon.

Purchased Commodities

In accordance with section 27 of the Food Stamp Act of 1977, 7 U.S.C. 2036, the Secretary is directed annually, through FY 2007, to purchase \$140 million worth of commodities for distribution through TEFAP. These commodities are made available to States in addition to those surplus commodities which otherwise might be provided to States for distribution under TEFAP. However, the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) permits States to convert any or all of their fair share of \$10 million of these funds to administrative funds to pay costs associated with the distribution of TEFAP commodities at the State and local level.
