Drawing code:
File name: STAMFORD
Sd: 725
Plot date: 2/26/03
Plot scale: 1" = 200'

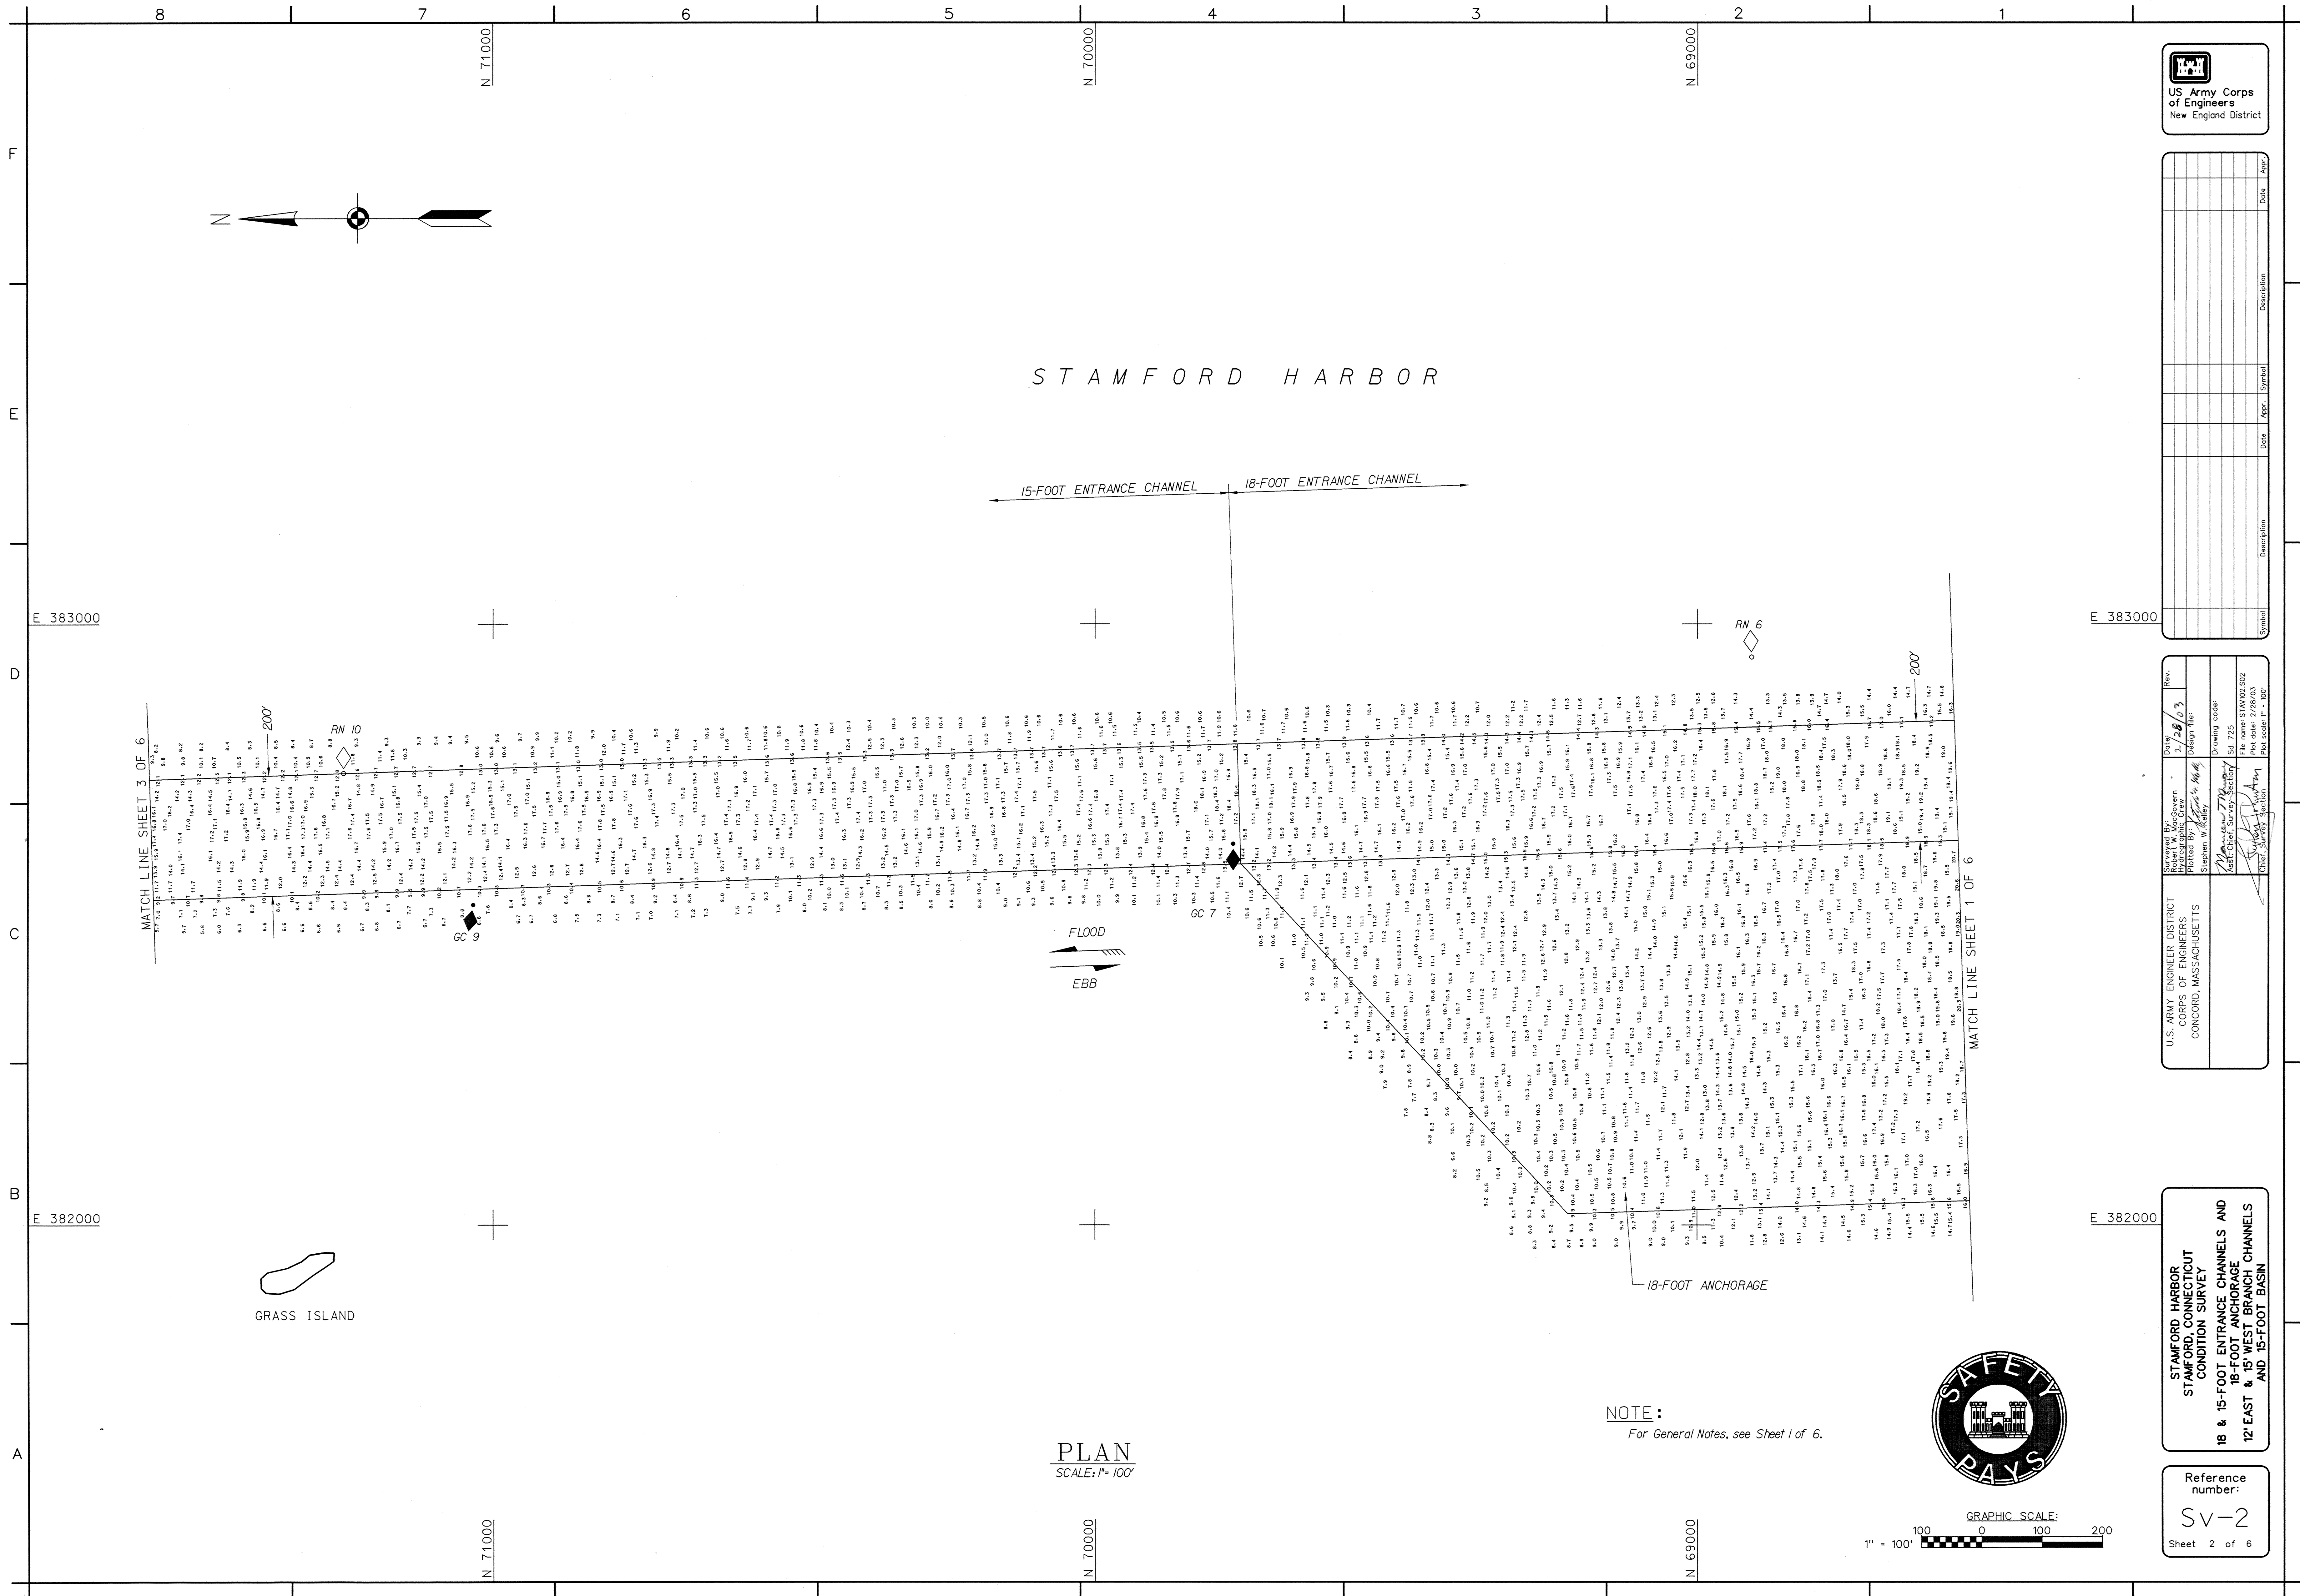

- GENERAL NOTES:**
1. Soundings are in feet and tenths and refer to the plane of Mean Lower Low Water (MLLW).
 2. Topography shown is from previous surveys and/or NOAA Chart No. 12368. All topography, including shoreline, bridges, piers, etc., is located approximate unless otherwise noted and should be used as a general reference only.
 3. Bench Mark Data: T.B.M. Park (1975) is a chiseled square on concrete apron at the garage door entrance to the maintenance and storage buildings on the Athletic Field Property which is an extension of a landfill project at Pine Island, now the most southerly point of land between the East and West Branch.
 4. Coordinates shown are based on the Lambert Grid System for the State of Connecticut & NAD 1927.
 5. The sounding information shown on these maps represents the SHOALEST soundings of those obtained from hydrographic surveys conducted during March 2001.
 6. The sounding information depicted on these maps should NOT be used to determine volumes. Volumes are determined from more sounding information than shown. Additional sounding information is available upon request.
 7. The information depicted on these maps represents the results of surveys made on the dates indicated, and can only be considered as indicating the general conditions existing at that time.
 8. Field Book: R&H 4427.
Depthsounder Rolls: 01-527/01-07.
See NOAA Chart No. 12368.
