SUBJECT

Lake Pontchartrain and Vicinity, La., Hurricane Protection Project - Lakefront Levees West of IHNC - High Level Plan

TO C/Des Svcs Br

FROM C/Hyd & Hydro Br

DATE 7 Oct 83

CMT 1

Ms Hote/lc/2489

Reference a meeting on 6 Oct 83 between Mr. Soileau and Ms Hote of Hyd & Hydro Br and Mr. Stutts of Des Svcs Br regarding replacement of the numerous roadway gates in the levee alignment with roadway ramps. We recommend that all of the presently proposed gates can be replaced with ramps of a 5 percent grade, or flatter at an elevation 14.5 ft NGVD. Because these openings are behind the lakefront seawall, they would be subjected only to reformed wave activity. Therefore, their orientation to the lakeshore is not critical and the heights of all the ramps can be the same.
