

## Federal Acquisition Regulation

48.001

- 48.102 Policies.
- 48.103 Processing value engineering change proposals.
- 48.104 Sharing arrangements.
- 48.104-1 Determining sharing period.
- 48.104-2 Sharing acquisition savings.
- 48.104-3 Sharing collateral savings.
- 48.104-4 Sharing alternative—no-cost settlement method.
- 48.105 Relationship to other incentives.

### Subpart 48.2—Contract Clauses

- 48.201 Clauses for supply or service contracts.
- 48.202 Clause for construction contracts.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42443, Sept. 19, 1983, unless otherwise noted.

### 48.000 Scope of part.

This part prescribes policies and procedures for using and administering value engineering techniques in contracts.

### 48.001 Definitions.

As used in this subpart—

*Acquisition savings* means savings resulting from the application of a value engineering change proposal (VECP) to contracts awarded by the same contracting office of its successor for essentially the same unit. Acquisition savings include—

(1) Instant contract savings, that are the net cost reductions on the contract under which the VECP is submitted and accepted, and that are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the contractor's allowable development and implementation costs;

(2) Concurrent contract savings, that are net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and

(3) Future contract savings, that are the product of the future unit cost reduction multiplied by the number of future contract units in the sharing base. On an instant contract, future contract savings include savings on increases in quantities after VECP acceptance that are due to contract modifications, exercise of options, additional orders, and funding of subse-

quent year requirements on a multiyear contract.

*Collateral costs* means agency costs of operation, maintenance logistic support, or Government-furnished property.

*Collateral savings* means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

*Contracting office* includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

*Contractor's development and implementation costs* means those costs the contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the contractor incurs to make the contractual changes required by Government acceptance of a VECP.

*Future unit cost reduction* means the instant unit cost reduction adjusted as the contracting officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either (1) throughout the sharing period, unless the contracting officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated or (2) to the calculation of a lump-sum payment, that cannot later be revised.

*Government costs* means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in instant contract cost or price resulting from negative instant contract savings, except that for use in 52.248-3, see the definition at 52.248-3(b).

*Instant contract* means the contract under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If the contract is a multiyear contract, the
