Bureau of Land Management

[AZ-020-08-1430-01; AZA-30391]

Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification; Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The following public lands in Maricopa County, Arizona have been examined and found suitable for classification for lease or conveyance to Maricopa County Board of Supervisors under the provisions of the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 *et seq.*). Maricopa County Board of Supervisors proposes to use the lands for equestrian facilities.

Gila and Salt River Meridian, Arizona

T. 1 N., R. 7 E.,
Sec. 12, N $\frac{1}{2}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$.

Containing 20 acres more or less.

The lands are not needed for Federal purposes. Lease or conveyance is consistent with current BLM land use planning and would be in the public interest.

The lease/patent, when issued, will be subject to the following terms, conditions and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior.

2. A right-of-way for ditches and canals constructed by the authority of the United States.

3. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

4. Those rights for a switching station granted to the Bureau of Reclamation by Right-of-way PHX-086777.

5. Those rights for a flood control project granted to the Flood Control District by Right-of-way A-3959.

6. Those rights for the Salt River Project granted to the Bureau of Reclamation by Right-of-way A-12965.

7. Those rights for a power transmission line granted to the Salt River Project by Right-of-way A-23884.

Detailed information concerning this action is available for review at the Office of the Bureau of Land Management, Phoenix Field Office, 2015 West Deer Valley Road, Phoenix, Arizona 85027.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease or conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested persons may submit comments regarding the proposed lease/conveyance or classification of the lands to the Field Office Manager, Phoenix Field Office, at the above address.

Classification Comments

Interested parties may submit comments involving the suitability of the land for equestrian facilities. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments

Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for equestrian facilities.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice in the **Federal Register**.

Dated: June 18, 1998.

Michael A. Taylor,
Field Office Manager.

Dates: Written comments should be received on or before July 24, 1998.

Summary: The Secretary of the Interior is responsible for the collection of royalties from lessees who produce minerals from leased Federal and Indian

lands. The Secretary is authorized to manage lands, to collect royalties due, and to distribute royalty funds. The Minerals Management Service (MMS) is responsible for the royalty management functions assigned to the Secretary and has developed the Production Accounting and Auditing System (PAAS) as a part of an overall effort to improve management of the Nation's resources.

PAAS is an integrated computer system based on production and processing reports submitted by lease operators and is designed to track minerals produced from Federal and Indian lands from the point of production to the point of disposition, or royalty determination, and/or point of sale. It is used in conjunction with MMS Auditing and Financial System (AFS), which provides payment and sales volumes and values as reported by payors. These data are compared to production and processing volumes reported on PAAS. The comparison enables MMS to verify that proper royalties are being received for the minerals produced.

MMS uses six forms for gathering oil and gas production data from industry. The production and disposition reports provide MMS with ongoing information on lease and facility production, sales volumes, and inventories. The reports summarize all operations on a lease or facility during a reporting period. They identify production by well number and sales by product. Data collected by PAAS are used as a method of cross-checking reported production with sales reported to the AFS. Failure to collect all of this information will prevent MMS from ensuring that all royalties owed on lease production are paid. Additionally, the data are shared electronically with the Bureau of Land Management and MMS's Offshore Minerals Management so they can perform their lease management responsibilities.

Description of Respondents: Companies or individuals (operators) that operate leases to develop, produce, and dispose of minerals from Federal or Indian lands.

Forms Numbers: Form MMS-4051, Facility and Measurement Information Form; Form MMS-4054, Oil and Gas Operations Report; Form MMS-4055, Gas Analysis report, Form MMS-4056, Gas Plant Operations Report, Form MMS-3160, Monthly Report of Operations, and Form MMS-4058, Production Allocation Schedule Report.

Frequency of Response: Monthly.

Estimated Reporting Burden: 15 to 30 minutes per manually completed report,

7 to 15 minutes per electronically completed report.

Recordkeeping Burden: 12 hours annually for recordkeeping.

Annual Responses: 356,668.

Annual Burden Hours: 81,938 hours.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing that the information collection requests for the titles described below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The information collection requests describe the nature of the information collections and the expected burden and cost for 30 CFR Parts 764 and 822.

DATES: OMB has up to 60 days to approve or disapprove the information collections but may respond after 30 days. Therefore, public comments should be submitted to OMB by July 24, 1998, in order to be assured of consideration.

FOR FURTHER INFORMATION CONTACT:

To request a copy of either information collection request, explanatory information and related forms, contact John A. Trelease at (202) 208-2783, or electronically to jtreleas@osmre.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). OSM has submitted two requests to OMB to renew its approval of the collections of information contained in: State processes for designating areas

unsuitable for surface coal mining operations, 30 CFR Part 764; and Special permanent program performance standards—operations in alluvial valley floors, 30 CFR Part 822. OSM is requesting a 3-year term of approval for each information collection activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for these collections of information are 1029-0030 for Part 764, and 1029-0049 for Part 822.

As required under 5 CFR 1320.8(d), **Federal Register** notices soliciting comments on these collections of information was published on April 6, 1998 (63 FR 16825). No comments were received. This notice provides the public with an additional 30 days in which to comment on the following information collection activities:

Title: State processes for designating areas unsuitable for surface coal mining operations, 30 CFR Part 764.

OMB Control Number: 1029-0030.

Summary: This part implements the requirement of section 522 of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), P.L. 95-87, which provides authority for citizens to petition States to designate lands unsuitable for surface coal mining operations, or to terminate such designation. The regulatory authority uses the information to identify, locate, compare and evaluate the area requested to be designated as unsuitable, or terminate the designation, for surface coal mining operations.

Bureau Form Number: None.

Frequency of Collection: Once.

Description of Respondents: The 5 individuals, groups or businesses who petition the States, and the 4 State regulatory authorities who must process the petitions.

Total Annual Responses: 5.

Total Annual Burden Hours: 7,324.

Title: Special permanent program performance standards—operations in alluvial valley floors, 30 CFR Part 822.

OMB Control Number: 1029-0049.

Summary: Sections 510(b)(5) and 515(b)(10)(F) of the Surface Coal Mining and Reclamation Act of 1977 (the Act) protect alluvial valley floors from the adverse effects of surface coal mining operations west of the 100th meridian. Part 822 requires the permittee to install, maintain, and operate a monitoring system in order to provide specific protection for alluvial valley floors.
