Medicare Program; Meetings of the Negotiated Rulemaking Committee on Ambulance Fee Schedule

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of meetings.

SUMMARY: In accordance with section 10(a) of the Federal Advisory Committee Act, this notice announces the dates and location for the second meeting and the dates for the third and fourth meetings of the Negotiated Rulemaking Committee on the Ambulance Fee Schedule. These meetings are open to the public.

The purpose of this committee is to develop a proposed rule that establishes a fee schedule for the payment of ambulance services under the Medicare program through negotiated rulemaking, as mandated by section 4531(b) of the Balanced Budget Act (BBA) of 1997.

DATES: The second meeting is scheduled for April 12 and 13, 1999 from 9:00 a.m. until 5 p.m. and April 14, 1999 from 8:30 a.m. until 4 p.m. E.S.T.

Two further meetings are scheduled for May 24 and 25, 1999 and June 28 and 29, 1999.

ADDRESSES: The 3-day April meeting will be held at Doyle's Hotel, 1500 New Hampshire Avenue, N.W., Washington, D.C. 20036; (202) 483-6000.

FOR FURTHER INFORMATION CONTACT: Inquiries regarding these meetings should be addressed to Bob Niemann (410) 786-4569 or Margot Blige (410) 786-4642 for general issues related to ambulance services or to Lynn Sylvester (202) 606-9140 or Elayne Tempel (207) 780-3408, facilitators.

SUPPLEMENTARY INFORMATION: Section 4531(b)(2) of the Balanced Budget Act (BBA), Public Law 105-33, added a new section 1834(l) to the Social Security Act (the Act). Section 1834(l) of the Act mandates implementation, by January 1, 2000, of a national fee schedule for payment of ambulance services furnished under Medicare Part B. The fee schedule is to be established through negotiated rulemaking. Section 4531(b)(2) also provides that in establishing such fee schedule, the Secretary will—

- Establish mechanisms to control increases in expenditures for ambulance services under Part B of the program;
- Establish definitions for ambulance services that link payments to the type of services furnished;
- Consider appropriate regional and operational differences;
- Consider adjustments to payment rates to account for inflation and other relevant factors; and
- Phase in the fee schedule in an efficient and fair manner.

The Negotiated Rulemaking Committee on the Ambulance Fee Schedule has been established to provide advice and make recommendations to the Secretary with respect to the text and content of a proposed rule that establishes a fee schedule for the payment of ambulance services under Part B of the Medicare program.

The Committee held its first meeting on February 22, 23, and 24, 1999. At this meeting, the Committee discussed in detail how the negotiations will proceed, the schedule for subsequent

meetings, and how the Committee will function. The Committee agreed to ground rules for Committee operations, determined how best to address the principal issues, and began to address those issues.

During the April meeting the committee will finalize descriptions of the issues to be negotiated, committee members will present a description of their interests, and a representative from HCFA's Actuarial and Health Cost Analysis Group will describe the methodology for determining the amount that would have been paid for ambulance services had the fee schedule not been implemented.

The announced future meetings are open to the public without advanced registration. Interested parties can file statements with the committee. Location of future meetings will be published in the **Federal Register** at a later date.

Public attendance at the meetings may be limited to space available. A summary of all proceedings will be available for public inspection in room 443-G of the Department's offices at 200 Independence Avenue, SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (Phone: (202) 690-7890), or can be accessed through the HCFA Internet site at <http://www.hcfa.gov/medicare/ambmain.htm>. Additional information related to the Committee will also be available on the web site.

Onshore Oil and Gas Leasing and Operations

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rule; notice of extension of public comment period and notice of public hearings.

SUMMARY: The Bureau of Land Management (BLM) is extending the public comment period on a Notice of Proposed Rule, published in the **Federal Register** on December 3, 1998 (63 FR 66840). The proposed rule would revise BLM's oil and gas leasing and operations regulations. The rule uses performance standards in certain instances in lieu of the current prescriptive requirements. It would also cite industry standards and incorporate them by reference rather than repeat those standards in the rule itself. Also, BLM's onshore orders and national notices to lessees would be incorporated into the regulations to eliminate overlap with existing regulations. The rule would increase certain minimum bond amounts and would revise and replace BLM's current unitization regulations with a more flexible unit agreement process. Finally, the proposed rule would eliminate redundancies, clarify procedures and regulatory requirements, and streamline processes. In response to public requests for additional time, BLM extends the comment period 60 days from the original comment period closing date of April 5, 1999, to the extended comment period's closing date of June 4, 1999. BLM will also hold public hearings on the proposal.

DATES:

Comments. Send your comments to BLM on or before June 4, 1999. BLM will consider comments received or postmarked on or before this date in preparing the final rule.

RIN 0991-AB00

Revision of the Department of Health and Human Services Freedom of Information Act Regulations and Implementation of the Electronic Freedom of Information Act Amendments of 1996

AGENCY: Department of Health and Human Services.

ACTION: Proposed rule.

SUMMARY: This document sets forth proposed revisions to the Department's Freedom of Information regulations. The regulations have been streamlined and condensed, in accord with principles of the National Performance Review, and incorporated more "user-friendly" language wherever possible. These proposed revisions also contain new provisions implementing the Electronic Freedom of Information Act Amendments of 1996.

DATES: Submit comments on this proposed regulation on or before May 26, 1999.

ADDRESSES: Address all comments concerning this proposed rule to Rosario Cirrincione, Freedom of Information and Privacy Acts Division, Office of the

Assistant Secretary for Public Affairs, U.S. Department Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201-0004.

FOR FURTHER INFORMATION CONTACT: Rosario Cirrincione (202) 690-7453.

SUPPLEMENTARY INFORMATION: These comprehensive revisions of 45 CFR part 5 incorporate changes to the language and structure of the regulations and add new provisions to implement the Electronic Freedom of Information Act Amendments of 1996 (Pub. L. 104-231). The Department's current Freedom of Information Act regulations are no longer in compliance with the law in that they do not reflect the provisions of the 1996 Amendments. This revised regulation is intended to bring the Department into compliance and to inform the public as to how we will implement the law in the light of the Amendments.

New Provisions

A. The following new definitions are added to the regulation:

1. *Electronic mail or e-mail* means a communication of information electronically from one personal computer user to another.

2. *Expedited processing* means placing a request in a special queue for processing ahead of requests which had been received earlier. Within any special queue as well as within any regular queues we may also maintain, requests will continue to be processed on a "first in, first out" basis.

3. *Form* means the medium in which the record is physically incorporated (e.g., paper, floppy disk, CD-ROM, etc.).

4. *Format* means a particular manner of storing or presenting the information within a given medium, such as a particular computer software used to generate or reproduce the record.

5. *Reproduction* means duplicating an existing record for release, in whole or in part, to a requester under the Freedom of Information Act. As appropriate to the medium of release, records may be photocopied, microfilmed, or electronically copied onto tape or disc.

B. Response Times. The proposed regulation reflects the expanded time frame, from 10 working days to 20 working days, permitted for routine responses.

C. Expedited Processing. Expedited processing is provided in cases where the requester demonstrates that failure to obtain the records on an expedited basis could reasonably be expected to pose an imminent threat to the life or physical safety of an individual, or, when the requester is a person primarily engaged in disseminating information, a showing is made that there exists an urgency to inform the public concerning an actual or alleged Federal Government activity. Other requests for expedited processing will be considered on a case by case basis. The decision to grant expedited processing rests with the FOI Officer, but may be appealed.

D. What Is Not A FOIA Request. The proposed regulation attempts to correct a common misunderstanding by clarifying that the Freedom of Information Act is not the proper mechanism to seek answers to specific questions of program policy, appeal adjudication of program or administrative decisions, or to provide input into HHS program decision making.

E. Electronic Records. The proposed regulation emphasizes that electronic records, including e-mail, are also subject to the Act, and that every reasonable effort will be made to provide records in the form and format requested.

F. Listing of FOIA Exemptions. Because they are a matter of law, not regulation, and are readily available elsewhere, the proposed regulation does not repeat the listing of FOIA exemptions contained in the previous regulation.

Similar revisions to the Freedom of Information Act Regulations of Executive Branch Agencies are occurring throughout the Government. Public hearings are not planned but public comment on the proposed rule is invited. Instructions as to where to mail public comments are included, above.

We have examined the impacts of this proposal under Executive Order 12866 and the Regulatory Flexibility Act (5 U.S.C. 601 to 612). Executive Order 12866 directs agencies to assess all costs and benefits of available regulatory alternatives and, when regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages). Under the
