The legislation also required re-designation of sufficient public domain 2 (PD) land to O&C status so as to maintain the current flow of revenue to the O&C counties. Other than the proposed change in status, re-designated lands will continue to be managed in accordance with the Salem District Resource Management Plan completed in May, 1995.

The Department of the Interior (DOI) is the department within the Federal Government responsible for matters relevant to mineral resource development on Federal and Indian Lands and the Other Continental Shelf (OCS). The Secretary of the Interior (Secretary) is responsible for managing the production of minerals from Federal and Indian Lands and the OCS; for collecting royalties from lessees who produce minerals; and for distributing the funds collected in accordance with applicable laws. MMS performs the royalty management functions for the Secretary.

We amended our regulations to authorize the delegation of certain Federal royalty management functions to states. On August 13, 1996, Congress enacted the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996, Pub. L. 104-185, as corrected by Pub. L. 104-200 (RSFA). RSFA amends portions of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA), 30 U.S.C. 1701 *et seq.* Prior to enactment, section 205 of FOGRMA, 30 U.S.C. 1735, provided for the delegation of only audits, inspections, and investigations to the States. RSFA amendments to section 205 now provide that MMS may delegate other Federal royalty management functions to requesting States:

- (1) Conducting audits, and investigations;
- (2) Receiving and processing production and royalty reports;
- (3) Correcting erroneous report data;
- (4) Performing automated verification; and
- (5) Issuing demands, subpoenas (except for solid mineral and geothermal leases), orders to perform restructured accounting, and related tolling agreements and notices to lessees or their designees.

We estimate that the annual burden to states participating in these delegated functions is 10,400 hours. We estimate that the annual burden for industry will be 200,000 hours for payors and reporters providing royalty and production reports to MMS.

Dated: November 24, 1999.
