BILLING CODE 4310-MR-M

Onshore Oil and Gas Production Accounting, Transfer of Responsibility

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of suspension of conversion schedule.

SUMMARY: On May 9, 1988, the Minerals Management Service (MMS) published a notice of final rulemaking in the *Federal Register* (53 FR 16408) to amend its regulations to provide for lease operators to report onshore production data to MMS, as a result of the transfer of accounting responsibility from the Bureau of Land Management (BLM).

As stated in the notice of final rulemaking, MMS planned to follow a phased conversion schedule to accomplish the transfer. Phases 1a and 1b of the conversion schedule have been accomplished. The purpose of this notice is to inform operators of onshore leases/agreements scheduled for the remaining phases (Nos. 2, 3, and 4) who have not yet been converted that the conversion schedule is temporarily being suspended until further notice.

FOR FURTHER INFORMATION CONTACT:

Mike Miller, Production Accounting Division, (303) 231-3520.

SUPPLEMENTARY INFORMATION: The

Committee on Appropriations, U.S. House of Representatives, in Report No. 100-713, dated June 20, 1988, did not recommend additional funding in Fiscal Year 1989 for conversion of the onshore production accounting responsibility from BLM to MMS. The language states in part, "In Royalty Management the Committee recommendation includes a reduction of \$500,000 in mineral revenue collection and \$350,000 in systems development and maintenance to limit the conversion of the production accounting system to the States of Colorado, Wyoming, Utah, and Montana . . ." Therefore, the conversion schedule is suspended until such time as funding is provided.

Phase 1a of the conversion schedule transferred leases/agreements under the jurisdiction of the Rawlins, Wyoming, BLM District Office. Phase 1b transferred leases/agreements under the jurisdiction of the Wyoming, Colorado, Utah, and Montana BLM State Offices. Phase 2 would have converted leases/agreements under the jurisdiction of the Eastern States, Nevada, California, and Alaska BLM State Offices. Operators under phase 2 were informed of their conversion in a letter dated July 25, 1988. However, because of the suspension, phase 2 operators should disregard the July 25, 1988, instructions and continue reporting production data to BLM.

Phases 3 and 4 would have converted leases/agreements under the jurisdiction of the BLM Tulsa District Office and the New Mexico BLM State Offices respectively. Phase 3 and 4 operators should continue reporting production data to BLM.

Operators will be notified by future publication of a notice(s) in the Federal Register of a conversion schedule for their leases/agreements when MMS receives funding to continue the transfer of production accounting responsibility from BLM.

Date: September 12, 1988.

Barry D. Hill,

Associate Director for Royalty Management.

INTERSTATE COMMERCE COMMISSION

[Docket No. AB-290 (Sub-No. 12X)]

Southern Railway Co.; Abandonment Exemption; Roberta, GA

Applicant has filed a notice of exemption under 49 CFR Part 1152, Subpart F—*Exempt Abandonments* to abandon its 4.4-mile line of railroad at Roberta, GA, between milepost 86.0-FV and milepost 90.0-FV + 2,311 feet.

Applicant has certified that (1) no local or overhead traffic has moved over the line for at least 2 years, and (2) that no formal complaint filed by a user of rail service on the line (or by a State or local governmental entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or any U.S. District Court, or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected
