2002 Survey of VA Researchers: Results for VISN 9

This section of the 2002 Survey of VA Researchers report presents results based on the responses from 105 researchers in VISN 9 who completed the survey.

Descriptive results for VISN 9 are presented in eight tables. Characteristics of the respondents are presented in Table 2.1. Researchers' evaluations of the status of research in VA are presented in Tables 2.2 through 2.6. Researchers' views of the attractiveness of their VA position are presented in Table 2.7. Table 2.8 is a summary of VISN performance and tracks VISN trends on seven scales over time and compares the VISN scores on those scales with the VA national averages. Definitions of the scales are included as an appendix.

VISN 9 Researcher Satisfaction in 2002

On most questions, VISN 9 researchers reported that they were more satisfied than dissatisfied with research in VA. However, substantial dissatisfaction was also expressed.

1. Researchers were most satisfied with:

- Enjoyment of the research (88% satisfied; Table 2.3); and
- Autonomy to choose their research direction (87% satisfied; Table 2.3).

2. Researchers were particularly dissatisfied with:

- VISN recognition of contributions at affiliated university (73% dissatisfied; Table 2.4);
- VISN rewards and recognition supporting research (72% dissatisfied; Table 2.4); and
- Opportunities to contribute to VISN decision making (72% dissatisfied; Table 2.4).

3. Researchers reported that research opportunities and support were important to recruitment and retention.² Specifically:

- 62% of researchers indicated that they themselves would not work in VA without research opportunities (Table 2.7); and
- 79% judged that research opportunities and support were important for recruiting and retaining high quality clinicians in VA.

4. Beginning in 2001, the researcher survey included a new series of items about satisfaction with VISN support for research. Nationally and in VISN 9, researchers reported relatively low satisfaction on these VISN-focused items (Table 2.4).

5. Five new questions in the 2002 survey asked about satisfaction with the functions and services of the Office of Research Compliance and Assurance (ORCA). Researchers gave mostly neutral responses on each of these questions (Table 2.6). For example:

- Usefulness of ORCA MAP reviews (67% neutral).

² Questions related to this topic utilized various response scales; therefore, not all questions are included in tables in this report.

Comparison of VISN 9 and VA National Averages

Significance testing (Table 2.8) indicated that VISN 9's scores on satisfaction with VISN support for research (VISN Leadership Support and Overall VISN Support) were significantly lower than the 2002 national average.

VISN 9 Changes in Ratings from Earlier Years

Table 2.8 also displays VISN 9 scale scores for 1998 through 2002. VISN 9 scores remained stable from 2001 to 2002.

NA = Not applicable; no neutral response category for this question.

¹Question 12 not included in this table because of differences in response scale.

²Includes “probably not” and “no.”

³Includes “probably yes” and “yes.”

⁴Respondents indicating that there was less than or equal to a 5% chance that they would work in VA if research opportunities were not available were defined as “No.”

All measures reported in this table utilized a 1-5 response scale with a higher score indicative of higher levels of satisfaction. Scale definitions are provided in the appendix to this chapter; scale development is described in the national summary chapter.

VISN Leadership Support is a single-item measure of the supportiveness of VISN leadership (Q3a).

Overall VISN Support is a more comprehensive scale that includes the VISN leadership item (Q3a) and seven others (Q3b through Q3h) representing a variety of VISN-based research support activities.

Change = change in VISN score from 2001 to 2002. A positive score indicates an improvement in research satisfaction from 2001 to 2002; a negative score indicates a decline in researcher satisfaction from 2001 to 2002. Change scores flagged by an asterisk (*) were statistically significant ($p < .05$).

VA 2002 = VA national average in 2002.

VISN vs. VA = difference between the 2002 VISN score and the 2002 VA national average. A positive score indicates that satisfaction among researchers in the VISN was higher than the national average; a negative score indicates that satisfaction among researchers in the VISN was lower than the national average. Significant differences are flagged. A single asterisk (*) indicates a difference between the VISN and national average that was significant ($p < .05$) without a Bonferroni adjustment for multiple comparisons, but was not significant when the Bonferroni adjustment was applied. Double asterisks (**) indicate a difference between the VISN and national average that was significant ($p < .05$) even after the Bonferroni adjustment for multiple comparisons was applied (i.e., a difference that was significant both with and without the Bonferroni adjustment).

NA = Not available; questions for this scale were not included in the survey for the year in question.

Survey of VA Researchers 2002

This study is being conducted for VA national Office of Research and Development to assess researchers' views about the status of VA research. People's experiences may differ based upon the type of research they do and their local environment; therefore, it is important to hear from all those doing research. The survey is being repeated to track changes in the status of VA research. To facilitate assessment of changes, please complete the questionnaire whether or not you completed it in a previous year. There are no right or wrong answers; we are interested in your views and experiences.

Remember that your answers will be confidential and no one will be able to identify your individual responses. The return envelope has an identification number on it only so we will know when your questionnaire is returned. Once received, the questionnaire will be separated from the envelope. Your name will never be placed on the questionnaire or associated with the results in any way. Please take the time to complete this questionnaire and return it in the enclosed postage-paid envelope. Your help is appreciated.

This questionnaire is meant for people who are actively involved in research. If you are not involved in research, please check the box below and return the questionnaire in the enclosed postage-paid envelope.

I am not doing research at this point in my career.

Q8. Do you think you will look for a job outside of the VA in the next year?

1. Yes, Definitely
2. Probably
3. 50 / 50 Chance
4. Probably Not
5. No, Definitely Not

Q9. Is it likely that you will retire from the VA in the next five years?

1. Yes, Definitely
2. Probably
3. 50 / 50 Chance
4. Probably Not
5. No, Definitely Not

Q10. Do you personally know of any individual whose recruitment to the VA was made possible by the availability of research opportunities and support in the VA?

1. No
2. Yes

Q11. Do you personally know of an individual who could not be recruited to the VA because opportunities and support for research in the VA were insufficient?

1. No
2. Yes

Q12. How important are research opportunities and support to recruiting and retaining high quality clinicians in the VA?

0. Don't know
1. Not at all important
2. Not very important
3. Moderately important
4. Very important
5. Extremely important

Q13. If research opportunities were not available in the VA, how likely do you think it is that you would currently be working in the VA system?

_____ % chance that I would be working in the VA

Q23. Do you work full time for VA?

- No _____
 - Yes (**GO TO Q24**)
- 

Q23a. What is your fraction in VA (in percent)? _____ %

Q23b. Do you also have a university appointment?

- No
- Yes

Q24. What percentage of your VA time is devoted to the following activities?
(Note: These percentages should add to **100% of your total VA time.**)

Research:	_____	%
Clinical Care:	_____	%
Administration:	_____	%
Clinical Training / Education:	_____	%
Research Training / Education:	_____	%
Other:	_____	%
Total	100	%

Questionnaire concludes on the next page.

Is there anything else you would like to let us know about working on research in the VA? If so, please use this space for that purpose. We are interested in any recommendations you have concerning how your local VA research environment could be improved.

Your contribution to this effort to better understand VA researchers' experiences and views is greatly appreciated. Thank you very much for your help. Please return the questionnaire in the enclosed postage-paid envelope.

Appendix B. Scale Definitions

Scale	Definition	Survey Items
Research Work	Satisfaction with own research work (e.g., levels of stress, opportunities for creativity, attractiveness of my position compared with other available job opportunities).	Q2c - Q2i and Q2m
Local Support	Satisfaction with local VA facilities and support (e.g., availability of support staff, computer systems/support, laboratory space).	Q1b - Q1d, Q1f - Q1j, Q1m, Q1n, Q2k and Q2L
VISN Leadership Support	Satisfaction with supportiveness of VISN leadership	Q3a
Overall VISN Support	Satisfaction with VISN support and opportunities (e.g., VISN rewards and recognition supporting research, VISN support for specific research projects, supportiveness of VISN leadership)	Q3a - Q3h
National Research Program	Satisfaction with support and opportunities in VA national research system (e.g., supportiveness of research headquarters, satisfaction with grant review process)	Q4a - Q4e
Protected Time for Research	Adequacy of own protected time for research	Q1L
ORCA Functions	Satisfaction with aspects of ORCA functions and services	Q5a – Q5e
