Jan Frigo - Jan Frigo is an engineer in the International Space and Response Division - Space Data Systems Group (ISR-3), at Los Alamos National Laboratory. She received a Bachelor of Science in Electrical Engineering (1989) at Marquette University in Milwaukee, WI, and a Master of Science in Electrical Engineering with an emphasis in controls and communications theory from Arizona State University, Tempe, AZ, in 1996. For the past seven years she has been working in the area of reconfigurable computing systems on a C-to-hardware compiler, and on accelerating signal and image processing algorithms in hardware. Previously, she worked in the area of spacecraft control system design and analysis, and spacecraft electrical system design, test, and integration.
