

Canandaigua

VISN 2–Canandaigua–Comprehensive Capital & Reuse Plan

Secretary's CARES Decision Document

- The Master Plan will include construction of a new multi-specialty outpatient clinic and nursing home complex to replace the patient care facilities currently located on the Canandaigua campus.
- The plan also will include the transfer of acute inpatient psychiatric patients from Canandaigua to Buffalo and Syracuse
- The new nursing home complex will accommodate nursing home, domiciliary and residential rehabilitation patients and will provide geropsychiatric services and hospice care.
- All other patient care services currently in place at the Canandaigua VAMC will be accommodated in the new facilities with the potential for enhanced services to include new clinics as needed.

Specific Considerations/Requirements

- The Canandaigua Capital and Reuse Plan is to determine whether the existing campus or another location in the Canandaigua area is the best location for the services currently offered on the Canandaigua campus. The services include primary care, specialty care, Nursing Home, Domiciliary care, residential rehabilitation treatment, geropsychiatric care and hospice care. The comprehensive Capital and Reuse Plan should consider the partial use of the campus, movement of all services to another site(s) or a combination of these possibilities to maximize access to veterans and determine the highest and best use of the Canandaigua campus. The comprehensive Capital and Reuse Plan would include the physical configuration of the infrastructure at all sites identified for the location of services and the comprehensive Reuse Plan for the Canandaigua campus.
- Another contractor in coordination with this Contractor shall develop the Reuse Plan and as a part of the site options presented the most likely potential reuse for available property identified in the capital planning process is to be included.. The contractors will coordinate their work and exchange information on the capital planning process and stakeholder communications.
